Cedars-Sinai Medical Center (CSMC) has been impacted by the COVID-19 pandemic due to the following as outlined in AFL 20-26.3:

• Increased community spread- as evidenced by data provided by LA County Public Health (as of 8/17/2020: 1,185 new cases and 223, 131 total cases for Los Angeles County

• Increased need to meet demand for surge (regional/transfer)- transfers from El Centro Regional Medical Center since 5/27/2020 and Marina del Rey Medical Center since 3/31/2020

• Daycare and school closures- Los Angeles Unified School District will not re-open to on-site learning. Many other neighboring school districts are also instituting distance learning which is impacting employees who have school-age children.

• COVID-19 staffing absenteeism due to staff illness and need to care for ill family members
