

State of California—Health and Human Services Agency

California Department of Public Health

### Alternative Medical Waste Treatment Technologies

List Effective Date: July 21, 2023

The technologies listed below have been approved by the Department of Public Health to treat medical waste in California. Please review the information provided to verify the approved uses of each technology. Individuals interested in the products described in this document are encouraged to contact the company directly. Alternative Technology Approval is based solely on a product’s demonstration of pathogen destruction. Use of the technologies may require permitting for on-site or off-site medical waste treatment. Permitting of onsite facilities is addressed in section 117925 and 117967 of the Medical Waste Management Act. Permitting of offsite facilities is addressed in 118130.

\* “Anatomical gift” means a donation of all or part of a human body to take effect after the donor’s death for the purpose of transplantation, therapy, research, or education, Health & Safety Code section 7150.10.
