5. Services to be Performed

The California Wound Care Excellence Program project will provide online curriculum consisting of eleven courses and downloadable content to assist nurses with treatment of chronic wounds. The Program will provide 500 scholarships for eligible nurses throughout California to complete the curriculum.

A. Scholarship Recipient Selection:

- 1) Vendor will directly contact the leadership of nursing homes and/or corporations across California in which the facility leadership recommends the nurses.
- 2) Vendor will verify eligibility of recommended nurses based on the following criteria:
 - a) Confirm nurses' employment in the skilled nursing home facilities.
 - b) Routinely treat patients with wounds and exhibit interest in wound management.

- c) Nurses identified by leadership as likely to remain within the facility treating patients and thus warrant the investment of scarce education resources.
- d) Nurses who intend to remain in long-term care as a long-term career.
- e) Nurses who value education and self-improvement.
- f) Nurses who would complete the course within the time period.

B. Online Training:

- 1) All courses are online, self-paced, and self-guided. Learning materials/study guides are available for download. There will be individual quizzes and a final exam.
- 2) Course Descriptions:
 - a) Acute and Chronic Wounds - review of the routine challenges and expected standard of care in the post-acute care setting.
 - b) Wound Care Treatment Options - a review of the indispensable list of wound healing solutions.
 - c) Support Services - Combination of treatment protocols to help prevent pressure wounds.
 - d) Atypical Wounds - Review of care of five atypical ailments
 - e) Geriatric Skin Conditions - Intrinsic and extrinsic factors that affect the structure and function of the skin.
 - f) F686 Regulatory Requirement Review - key Federal regulations regarding pressure wounds
 - g) Wound Healing - Physiologic fundamentals affecting normal healing and influencing treatment choice.
 - h) Nutrition - Nutritional concepts and needs affecting wound healing
 - i) Management and Treatment of Vascular Ulcers - Required care for these multifaceted chronic and reoccurring cases.
 - j) Infection Control - Restrictions to reduce pathologic organisms and promotion of the immune system to optimize healing.
 - k) Wound Rounds and Assessment - Clinical monitoring and documentation to assure adequate care.

6. Reporting Requirements

A. Vendor to provide quarterly progress reports and a Program Final Report to include the following data:

- 1) Enrollment Status: total number of enrolled nurses and total number of course status (i.e. completed, inactivated)
- 2) Basic Demographics: name, gender, age, education level

3) Nursing employment: facility name, county, and zip code, job title.

B. Track and report changes in the Pressure Ulcer Scale for Healing (PUSH) scores for patients treated by Vohra physicians at qualifying nursing homes.

7. CDPH Responsibilities

CDPH agrees to provide the following services.

A. Schedule and attend in person or teleconference meetings and reserve the meeting space or provide the teleconference resources as needed.

B. Review submitted reports and provide feedback within 10 business days of receipt.
