Annual Estimates of the Resident Population for Selected Age Groups by Sex for the United States: April 1, 2020 to July 1, 2022 (NC-EST2022-AGESEX). U.S. Census Bureau, Population Division. June 2023.

Data Analysis

The population count of adolescents (ages 10–19) shown in these dashboards is the estimated number of California resident adolescents (ages 10–19), stratified by selected demographic characteristics. The 95% confidence interval presented in the tooltips indicates there is a 95% chance that the range contains the true prevalence or rate in the population. Rates or percentages with wide confidence intervals should be interpreted with caution. See Category and Subcategory Definitions below for additional inclusion/exclusion criteria.

Data Suppression

The numerator, rate, and confidence interval are not shown when the numerator is less than 10.

Category and Subcategory Definitions

Age: Age of adolescent.

Race/ethnicity: Hispanic includes all persons of Hispanic origin of any race. Multi-Race includes those of non-Hispanic origin who reported more than one race. The remaining groups are of non-Hispanic origin who reported a single race: American Indian or Alaska Native (AIAN), Asian, Black, Native Hawaiian or Other Pacific Islander (Pacific Islander), or White.

Sex: Sex of adolescent.
