

The DCDC Experience

*DPAC Presents
January 25th, 2010*

Ron Robinette
Chief, IT Section
Division of Communicable Disease
Control

Project Technology Sponsor

Failed Project Characteristics

- Poor planning
- Unclear goals and objectives
- Objectives changing during the project
- Unrealistic time, resources, or skills
- Lack of sponsorship or user involvement
- Communication

Planning

- Received Cal Pan Flu Grant
- Hired IT Manager
- Hired Project Manager
- Conducted Feasibility Study Report

Goals and Objectives

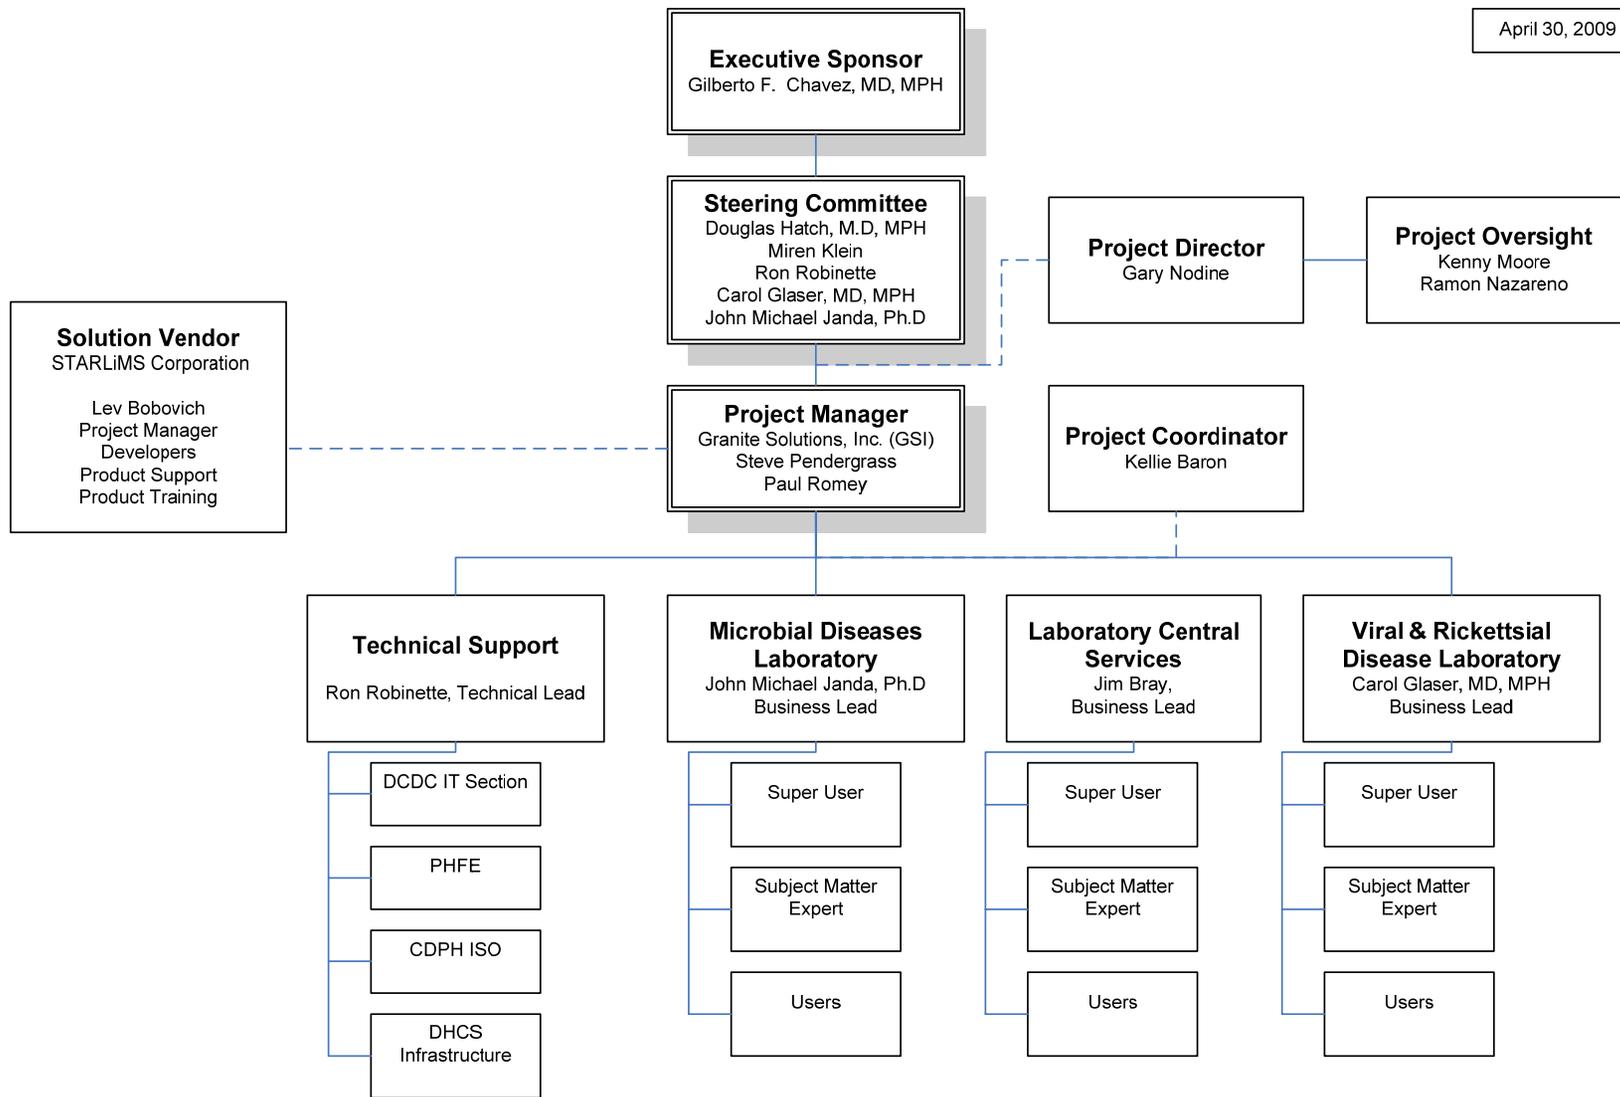

1. Meet federal requirements for Pandemic Influenza Surveillance
2. Position DCDC to be able to achieve CDPH 2008 – 2010 Strategic Plan Goal 2: Prepare for, Respond to, and Recover from Emerging Public Health Threats and Emergencies, Objectives 5 and 6 regarding increasing the number of tests supported by STARLIMS
3. Support DCDC LIMS with new more reliable servers
4. Upgrade the DCDC LIMS COTS from the old to the new version
5. Provide consistent support to the mission critical LIMS system
6. Implement influenza HL7 messaging with the Center for Disease Control

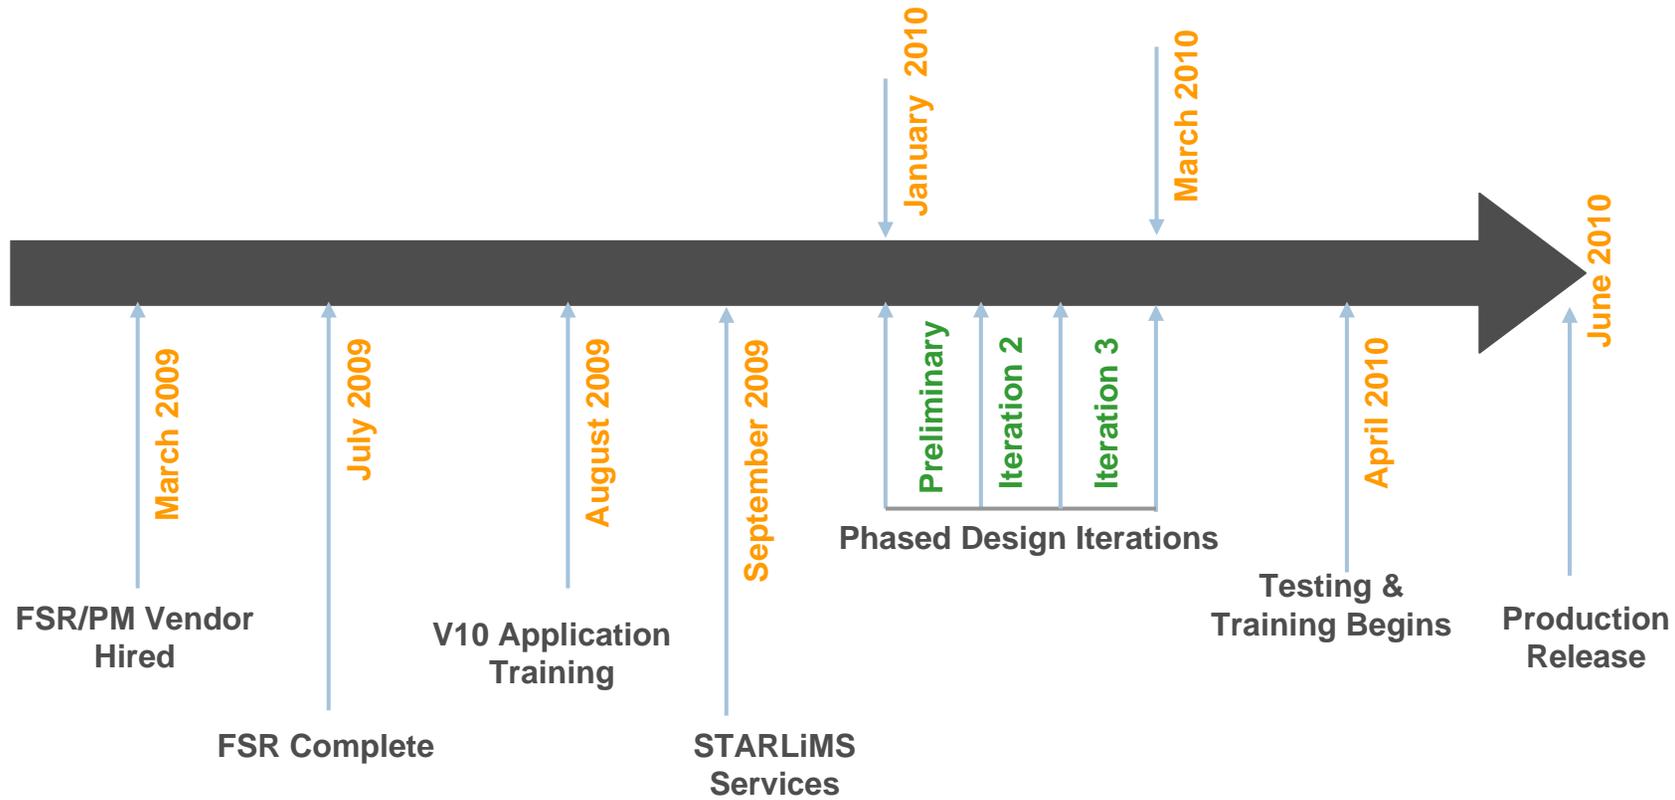

Project Organization

April 30, 2009

Timeline

Development Milestones
