Bakersfield City Council

Fresno City Council

Stockton City Council

From the United State Environmental Protection Agency:

Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. EPA has this goal for all communities and persons across this Nation. It will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work.

Environmental Justice would be achieved when there are **no disparities in outcomes** as well as **equitable access to power** resulting from **systemic racism.**
