State of California—Health and Human Services Agency  
California Department of Public Health

EDMUND G. BROWN JR.  
*Governor*

July 25, 2012

To: AOC Committee Members and Interested Public

**Notice: September 2012 PCI-AOC meeting to be postponed until later in the year**

UC Davis, under the direction of William Bommer, MD, is in the process of securing the NCDR data base (which was voted upon during the January 2012 meeting). He would like to compare this data base with our own project results and have this analysis done before our next meeting so that he can report the findings at the meeting. Because of the time necessary to do this, we will have to postpone the next PCI-AOC meeting from September to some date later in the year. Once I have this date I will send notice of that meeting out along with any other information that I have.

Please feel free to contact me if you have any questions or concerns.  
Thank you,

Anthony E. Way, MD, MBA  
Chief Medical Consultant  
California Department of Public Health
