Indicator 1: Confirmed Positive

#: Includes both positive conventional tests and rapid tests with a confirmatory positive result

#: # confirmed positive out of the # total HIV tests

Indicator 2: Informed of Confirmed Result

#: Includes confirmed positives that received their positive test result (for rapid tests this includes confirmatory positive test result)

#: # confirmed positive that received their confirmed positive test result out of the # confirmed positive

Indicator 3: Informed of Preliminary or Confirmed Result

#: Includes confirmed positives that received either a preliminary positive or confirmed positive test result

#: # confirmed positive that received either a preliminary positive or confirmed positive test result out of the # confirmed positive

Indicator 4: Confirmed Positive and Referred to Care

#: Includes confirmed positives A94

#: # confirmed positive who were referred to HIV medical care out of the # confirmed positive

Indicator 5: Confirmed Positive with Verified Medical Visit

#: Includes confirmed positive tests with date for first medical appointment

#: # confirmed positive with verified medical visit out of the # confirmed positive and referred to care

Indicator 6: Confirmed Positive and Offered Partner Services

#: Includes partner services offers to confirmed positives

#: # confirmed positive and offered partner services out of the # confirmed positive

Indicator 7: Confirmed Positive and Accepted Partner Services

#: Includes accepted partner services offers to confirmed positives

#: # confirmed positive and accepted partner services out of the # confirmed positive and offered partner services

Indicator 8: Preliminary Positive

#: Includes preliminary positive rapid tests with no confirmatory testing

#: # preliminary positive out of the # total HIV tests

Indicator 9: Preliminary Positive and Informed of Result

#: Includes preliminary positives that received their preliminary positive rapid test result

#: # preliminary positive that received their rapid test result out of the # preliminary positive

Indicator 10: Preliminary Positive and Referred to Care

#: Includes preliminary positives who received any HIV positive medical referrals including HIV case management, early intervention program, prenatal care, and HIV medical care, evaluation and treatment

#: # preliminary positive who received any HIV positive medical referrals out of the # preliminary positive

Indicator 11: Preliminary Positive with Verified Medical Visit

#: Includes preliminary positives who were referred to HIV medical care

#: # preliminary positive with verified medical visit out of the # preliminary positive and referred to care
