

**Counseling Topics
Activity Codes List**

**To be used with the
Local Evaluations Online (LEO)
Health Education/Risk-Reduction Form
for
Individual-Level Interventions
and
Comprehensive Risk Counseling and Services
Interventions**

Per Centers for Disease Control and Prevention (CDC) Program Evaluation and Monitoring System (PEMS) reporting requirements, activities that occur during Individual-Level Interventions (ILI) and Comprehensive Risk Counseling and Services (CRCS) Sessions must be recorded.

There are seven categories of activities, including:

Information (08:xx): Any information, written or verbal, given to an individual;

Demonstration (09:xx): Provider or participant demonstration of skills or activities;

Practice (10:xx): Participant practice of skill or activity;

Discussion (11:xx): Facilitated discussion between provider and participant;

Testing (12:xx): Participant being able to receive specific clinical tests (as opposed to referral to testing);

Distribution (13:xx): The provision of supplies to the participant;

Post Meetings (14:xx): Provision of a session to a participant after the conclusion of the ILI or CRCS sessions to follow up or provide additional support for ongoing behavior change;

Other (xx:66 or 89:00): The ability to document other activities that occurred during a session.

Please review and become familiar with this list of activities. After each client session, record up to four activities that occurred during the session. At least one activity must be documented per session. No more than four activities can be recorded per session. If "Other" is selected, write a brief explanatory description of the activity to the right of the code boxes on the Health Education/Risk-Reduction (HE/RR) Form.

If you have any questions about these codes, please contact your Program Consultant or Intervention Specialist at the California Department of Public Health, Office of AIDS.

Intervention Activity Code List

Information

Code	Description
08:01	HIV/AIDS transmission
08:02	Abstinence/postpone sexual activity
08:03	Other STDs
08:04	Viral hepatitis
08:05	Availability of HIV/STD counseling and testing
08:06	Availability of partner notification and referral services
08:07	Living with HIV/AIDS
08:08	Availability of social services
08:09	Availability of medical services
08:10	Sexual risk reduction
08:11	IDU risk reduction
08:12	IDU risk free behavior
08:13	Condom/barrier use
08:14	Negotiation/communication
08:15	Decision making
08:16	Disclosure of HIV status
08:17	Providing prevention services
08:18	HIV testing
08:19	Partner notification
08:20	HIV medication therapy adherence
08:21	Alcohol and drug use prevention
08:22	Sexual health
08:23	TB testing
08:66	Other

Intervention Activity Code List

Demonstration

Code	Description
09:01	Condom/barrier use
09:02	IDU risk reduction
09:03	Negotiation/communication
09:04	Decision making
09:05	Disclosure of HIV status
09:06	Providing prevention services
09:07	Partner notification
09:66	Other

Practice

Code	Description
10:01	Condom/barrier use
10:02	IDU risk reduction
10:03	Negotiation/communication
10:04	Decision making
10:05	Disclosure of HIV status
10:06	Providing prevention services
10:07	Partner notification
10:66	Other

Intervention Activity Code List

Discussion

Code	Description
11:01	Sexual risk reduction
11:02	IDU risk reduction
11:03	HIV testing
11:04	Other STDs
11:05	Disclosure of HIV status
11:06	Partner notification
11:07	HIV medication therapy adherence
11:08	Abstinence/postpone sexual activity
11:09	IDU risk free behavior
11:10	HIV/AIDS transmission
11:11	Viral hepatitis
11:12	Living with HIV/AIDS
11:13	Availability of HIV/STD counseling and testing
