Interim Guidance for the Evaluation and Management
Of Ebola Case Contacts in California
Revised January 8, 2015

The California Department of Public Health (CDPH) recommends that local health departments (LHDs) develop a plan for the evaluation and management of contacts to persons with Ebola Virus Disease (EVD). Recent experiences in the United States and in Ebola-affected countries in West Africa highlight the importance of a comprehensive and timely contact management plan.

This document contains three sections:
I. Contact Investigation Steps
II. Contact Interview and Daily Symptom Checks
III. Using the California Reportable Disease Information Exchange (CalREDIE) to Track and Manage Ebola Contacts

I. Contact Investigation
All contacts or possible contacts of Ebola case-patients should be interviewed with the appropriate CDPH contact interview form (see list below). The interview form is used to assess the contact’s level of exposure and to classify the contact as one of the following: High Risk, Some Risk, Low (But Not Zero) Risk, No exposure; this classification then dictates which public health action(s) should be taken. A description of exposure categories and their corresponding public health actions appears in Table 1.

Steps:
1. Determine the infectious period of the case-patient.
   a. This is the date of onset of symptoms until the date the case-patient is clinically convalescent and no longer viremic based on a negative Ebola virus PCR blood test.
2. Identify all persons who may have had contact with the case-patient by conducting a thorough interview of the Ebola case-patient.
   a. Use the Ebola Case Investigation form to identify contacts.

3. Interview potential contacts with the appropriate contact investigation questionnaire to assess whether the contact definition has been met and, if yes, the level of risk (Table 1).
   a. Ebola Healthcare Worker Contact Interview form
   b. Ebola Household or Community Contact Interview form
   c. Ebola Emergency Department* or Flight Contact Interview form
      *An Emergency Department (ED) contact is a visitor or patient who was in the ED at the same time as the Ebola case-patient.

4. Implement the recommended public health monitoring action based on level of risk (Table 1).
   a. Direct active monitoring – the local health department assumes responsibility for establishing twice daily communication with contact to assess for the presence of fever or other symptoms of Ebola. One evaluation per day should be conducted in person or via electronic means with video function such as Skype or FaceTime; the electronic means is up to the local health department. The other daily evaluation may be conducted via telephone.
   b. Active monitoring – the local health department assumes responsibility for establishing regular communication with contact, including checking at least once daily by telephone to assess for presence of fever or other symptoms of Ebola.
   c. Self-monitoring – the local health department establishes communication with the contact and instructs the contact to self-monitor for fever or other symptoms of Ebola at least daily and immediately report fever (≥99.6°F*) or any other symptoms of Ebola to the local health department.

5. Implement the recommended movement restrictions based on level of risk (see Table 1)
   a. Quarantine – physical separation of the contact from others.
   b. Controlled movement – limitation of movement of the contact.

6. Instruct the contact to immediately self-isolate at home if an oral temperature of ≥99.6°F* is measured. If the temperature is between 99.6°F* and 100.3°F*, the contact should measure temperature more frequently, per local health department recommendations.

7. If a contact becomes symptomatic with any of the following:
   a. Persistently elevated oral temperature between 99.6°F* and 100.3°F* for a period of 24 hours; or
   b. Single oral temperature of ≥100.4°F*; or
California Department of Public Health  
Guidance for the Evaluation and Management Of U.S. Ebola Case Contacts  
January 7, 2015

c. Other symptoms suggestive of Ebola such as severe headache, muscle pain, weakness, fatigue, diarrhea, vomiting, abdominal pain, unexplained hemorrhage;  
   *Without the use of antipyretics.

The local health department should immediately contact the California Department of Public Health (CDPH) Ebola clinical consultant via the CDPH DCDC Duty Officer at (916) 328-3605 to report an ill contact.

Depending on initial symptoms and risk level, a decision on movement to a healthcare facility and testing will be made in consultation with CDPH and CDC. CDPH will coordinate consultation and testing with CDC as needed.

If symptoms resolve, twice daily monitoring for the remainder of the monitoring period is recommended.

8. Input all contacts into CalREDIE under the condition ‘Ebola Contact Tracking” and if appropriate, update temperature and symptom data daily (see below for additional instructions).

II. **Contact Interviews and Daily Symptom Checks**

For all High- and Some-Risk contacts, an initial home visit should be considered to establish a relationship with the contact, to assess the ability of the contact to comply with quarantine requirements, and to identify any household members. Prior to any home visit, it is recommended that the individual conducting the home visit:

a. Call ahead to ensure that the contact is not symptomatic; if the contact reports symptoms do not make a home visit.

b. Visually assess the contact at the door for symptoms; if the contact appears symptomatic, leave immediately and conduct the interview/symptom check by telephone from the car.

After the initial home visit for High and Some-Risk contacts, and for all Low (But Not Zero Risk) contacts, CDPH recommends that contact interviews and daily symptom checks occur remotely to minimize any potential exposure to local public health investigators.
Possible methods for each type of monitoring are:

- **Direct Active Monitoring**: Skype, FaceTime, or other video method where the contact can be directly observed.
- **Active Monitoring**: telephone; Skype or FaceTime can be used if desired.

### III. Using CalREDIE to Track and Manage Ebola Contacts

LHDs using CalREDIE should enter data on all Ebola Contacts into the system using the steps below. LHDs not using CalREDIE can send completed contact investigation forms via secure email to EbolaEpi@cdph.ca.gov or fax to (916) 440-5471.

1. Create a new disease incident with disease condition: “Ebola Contact Tracking”.

2. Complete the Patient and Case Investigation tabs.

3. In addition to the Patient and the Case Investigation tabs, three User Defined Form (UDF) tabs appear within the incident.
   a. **Contact Summary Information**: complete for all contacts and returned travelers. Information including risk category, type(s) of public health follow-up and final disposition are captured here.
   b. **Travel History**: complete for all returned travelers from Ebola-affected countries (see the CDC website for current listing of Ebola-affected countries).
   c. **Symptom Diary**: complete for any individual undergoing 21-day symptom monitoring including returned travelers or High Risk, Some Risk and Low (But Not Zero Risk) contacts.

4. Three contact investigation UDFs are located in the Electronic Filing Cabinet and should be completed depending on the type of contact. These forms should be completed for any contacts in the High, Some, or Low (But Not Zero Risk) risk categories.
   a. **Healthcare Worker Interview**: complete for all healthcare, laboratory and environmental/sanitation workers with potential exposure to an Ebola patient.
   b. **Household/Community Interview**: complete for all household and community contacts with potential exposure to an Ebola patient.
   c. **Emergency Department/Flight Interview**: complete if the contact had potential exposure to an Ebola patient while in the emergency department or on a flight.*
      
*These forms are currently being configured in CalREDIE. Information will be sent to CalREDIE users when they are available for use.

5. Mark the Resolution Status on the Case Investigation tab as “Not a Case”.

6. When all follow-up is complete, mark the Process Status on the Case Investigation tab as “Closed by LHD”.

### Table 1: Summary of CDC Interim Guidance for Monitoring and Movement of People Exposed to Ebola Virus

<table>
<thead>
<tr>
<th>Exposure Category</th>
<th>Clinical Criteria</th>
<th>Public Health Actions</th>
</tr>
</thead>
</table>
| High risk includes any of the following: | - Fever (subjective fever or measured temperature ≥100.4°F/38°C) OR any of the following:*  
  - severe headache  
  - muscle pain  
  - vomiting  
  - diarrhea  
  - stomach pain  
  - unexplained bruising or bleeding | - Implement rapid isolation with immediate contact of public health authorities to arrange for safe transport to an appropriate healthcare facility for Ebola evaluation  
  - Medical evaluation is required.  
    - Isolation orders may be used to ensure compliance  
    - Air travel is permitted only by air medical transport  
  - If medically evaluated and discharged with a diagnosis other than Ebola, conditions as outlined for asymptomatic individuals in this exposure category will apply |
| - Percutaneous (e.g., needle stick) or mucous membrane exposure to blood or body fluids of a person with Ebola while the person was symptomatic | Asymptomatic (no fever or other symptoms consistent with Ebola) | - Direct active monitoring  
  - Public health authority will ensure, through orders as necessary, the following minimum restrictions:  
    - Controlled movement: exclusion from all long-distance and local public conveyances (aircraft, ship, train, bus, and subway)  
    - Exclusion from public places (e.g., shopping centers, movie theaters), and congregate gatherings  
    - Exclusion from workplaces for the duration of the public health order, unless approved by the state or local health department (telework is permitted)  
    - Non-congregate public activities while maintaining a 3-foot distance from others may be permitted (e.g., jogging in a park)  
    - Federal public health travel restrictions (Do Not Board) will be implemented to enforce controlled movement  
  - If travel is allowed, individuals are subject to controlled movement  
    - Travel by noncommercial conveyances only  
    - Coordinated with public health authorities at both origin and destination  
    - Uninterrupted direct active monitoring |
| - Exposure to the blood or body fluids (including but not limited to feces, saliva, sweat, urine, vomit, and semen) of a person with Ebola while the person was symptomatic without appropriate personal protective equipment (PPE) | | |
| - Processing blood or body fluids of a person with Ebola while the person was symptomatic without appropriate PPE or standard biosafety precautions | | |
| - Direct contact with a dead body without appropriate PPE in a country with widespread Ebola virus transmission (see the CDC Website for current listing of Ebola-affected countries) | | |
| - Having lived in the immediate household and provided direct care to a person with Ebola while the person was symptomatic | | |

* If an Ebola case is identified in the US and a healthcare worker who took care of that patient also develops Ebola despite use of appropriate PPE without an identified breach, then all healthcare workers who cared for the US Ebola patient would be considered **High** risk.
HEALTHCARE WORKER (HCW) CONTACT TO EBOLA PATIENT INTERVIEW FORM
SECTION I: GENERAL INFORMATION

Interviewer Information

Interviewer Name (Last, First): _______________________________________________________________

State/Local Health Department: _____________________________________________________________

Phone number: __________________________ Email address: _____________________________________

Ebola Patient Information (Patient Associated with Contact)

Please complete the questions below if the exposure occurred in a U.S. healthcare facility.

Ebola Case CalREDIE ID # ________________________________

Last Name: ___________________________ First Name: ________________________________

DOB: MM / DD / YYYY

Date of illness onset: MM / DD / YYYY

Date of hospital admission: MM / DD / YYYY

Name of admitting hospital: _____________________________________________________________

Date patient was isolated in a healthcare facility: MM / DD / YYYY

At the time of this report, is the patient? ☐ Confirmed ☐ Probable ☐ Unknown

Notes:
______________________________________________________________________________________
______________________________________________________________________________________
______________________________________________________________________________________
**HCW Contact Information**

<table>
<thead>
<tr>

SECTION II: EXPOSURE ASSESSMENT

Exposure History

Did you work with the patient in:

☐ US  ☐ Guinea  ☐ Sierra Leone  ☐ Liberia  ☐ Mali  ☐ Other__________________________

If Guinea, Sierra Leone, Liberia, or Mali did you work in:

☐ An Ebola treatment facility

☐ A healthcare facility not designated as an Ebola treatment facility
Exposure History (Continued)

What was your date of first exposure: MM / DD / YYYY

What was your date of last exposure: MM / DD / YYYY

Did you provide direct care for an Ebola patient?

☐ Yes  ☐ No  ☐ Unknown

If yes, please answer the following questions:

Did you have contact with the patient’s blood or bodily fluids?

☐ Yes  ☐ No  ☐ Unknown

Were you within 6 feet of the patient while the patient was vomiting or having uncontained diarrhea?

☐ Yes  ☐ No  ☐ Unknown

Did you perform aerosol generating procedures on the patient?

(examples are: intubation, resuscitation (“code”) suctioning, oxygen administration, nebulized medication, manipulating upper airway, bronchoscopy, laryngoscopy, endoscopy, sputum induction)

☐ Yes  ☐ No  ☐ Unknown

Were you within 6 feet of the patient while an aerosol generating procedure was being performed?

☐ Yes  ☐ No  ☐ Unknown

Did you manipulate the patient’s rectal/genitourinary areas such as urinary or rectal tube insertion?

☐ Yes  ☐ No  ☐ Unknown

Did you perform phlebotomy or other catheter insertion (example – IV, arterial catheter)

☐ Yes  ☐ No  ☐ Unknown

Did you provide any environmental sanitation services for an Ebola patient?

☐ Yes  ☐ No  ☐ Unknown
Exposure History (Continued)

If Yes, please answer the following questions:

Were you involved in cleaning the patient’s room, clothing, bedding, furniture, equipment?

☐ Yes  ☐ No  ☐ Unknown

If yes, was there obvious contamination with blood or bodily fluids?

☐ Yes  ☐ No  ☐ Unknown

Were you involved with cleaning/disinfecting reusable patient care items outside of the patient room?

☐ Yes  ☐ No  ☐ Unknown

If yes, was there obvious contamination with blood or bodily fluids?

☐ Yes  ☐ No  ☐ Unknown

What was the minimum PPE you used at any point during your patient or environmental encounters?

☐ Single gloves

☐ Double gloves

☐ Surgical mask

☐ N95

☐ PAPR

If PAPR used, did hood cover neck area?  ☐ Yes  ☐ No

If PAPR used, were hose and battery pack exposed?  ☐ Yes  ☐ No

☐ Hood (not PAPR hood)

☐ Tyvek suit (usually white)

☐ Tychem suit (usually yellow)

☐ Shoe coverings
Exposure History (Continued)

☐ Gown

If gown used, was gown fluid-resistant? ☐ Yes ☐ No

If gown used, was gown impermeable to fluids? ☐ Yes ☐ No

☐ Leg covers

☐ Faceshield

☐ Goggles

☐ Impermeable apron

☐ Other, describe: ____________________________

Were you observed/assisted donning your PPE?

☐ Yes ☐ No

Were you observed/assisted doffing your PPE?

☐ Yes ☐ No

Did you note any breaches in your use of PPE?

☐ Yes ☐ No

If yes, please describe:

________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________

If yes, location: ____________________________

☐ Other _______________ MM / DD / YYYY

Do you belong to a health network? ☐ Yes ☐ No Name of health network: _______________________

# Occupation

What is your occupation? _______________________________________________________________

What is your occupation setting? _______________________________________________________

CDPH 8535 (12/14)
Occupation (Continued)

Place of work and address:

________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

Medical History

Do you routinely undergo any routine medical procedures or monitoring (i.e., glucose monitoring, dialysis, injections)?

☐ Yes  ☐ No

If yes, please describe: __________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________
(If possible contact who undergo routine medical procedures or monitoring are determined to be exposed, additional recommendations may be needed to accommodate routine medical care safely)

SECTION II: EXPOSURE ASSESSMENT

Exposure History

1. What is your relationship to the patient?

☐ Partner/spouse   ☐ Family member       ☐ Co-worker       ☐ Friend/acquaintance

☐ Classmate       ☐ Neighbor/community member       ☐ Other: __________________________

2. Did you reside in the same house as the patient while the patient was ill (include dates)?

☐ Yes  ☐ No
Exposure History (Continued)

If yes, date of last encounter:  MM / DD / YYYY

3. Did you spend time in the patient’s household while the patient was ill (include dates])?
   ☐ Yes  ☐ No

If yes, date of last encounter:  MM / DD / YYYY

4. Were you within 6 feet of (name of person) in a location outside (name of person)’s home, for example – at work, at a religious institution, in school, at a social gathering, at a restaurant, park or anywhere else while the patient was ill (include dates)?
   ☐ Yes  ☐ No

If yes, date of last encounter:  MM / DD / YYYY

4a. If yes, did that contact take place in (check all that apply):

☐ Workplace

☐ Day care, school or university

☐ Religious organization

☐ Social or family gathering

☐ Restaurant

☐ Park

☐ Emergency Department or other healthcare setting

☐ Plane

☐ Public transportation (e.g., bus, train)

☐ Other household (not patient’s)

☐ Shared same vehicle (personal vehicle, taxi; specify type of vehicle, provide details in question 4)

☐ Other (specify): __________________________________________________________
Exposure History (Continued)

5. Did you have any other contact with the patient while he/she was ill that is not captured above?

☐ Yes  ☐ No  ☐ Unsure

If yes, please describe and provide dates of first and last contact:

__________________________________________________________________________________
__________________________________________________________________________________
__________________________________________________________________________________
__________________________________________________________________________________

If the contact answers No to questions 1 - 5 the contact has no exposure. Skip to Section III: Summary.

If the contact answers Yes to any question, complete the activities table below.

6. Provide the name of the place(s), the address(es), the date(s) and other information about the location where contact occurred (e.g., household, workplace, school, etc.).

<table>
<thead>
<tr>
<th>Name of Place or Type of Vehicle</th>

</tr>
</tbody>
</table>
### Activities During Exposure Period (Continued)

#### Exposed – SOME RISK

<table>
<thead>
<tr>
<th>Type of Exposure</th>
<th>Dates of Exposure</th>
<th>Additional Details/Describe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use the same bathroom as the patient while the patient was experiencing vomiting, diarrhea, or hemorrhage?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>☐ Yes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>☐ No</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

| Spend a prolonged amount of time (>1 hour) within 6 feet of the patient while the patient was NOT experiencing diarrhea, vomiting, or hemorrhage? |                   |                             |
| ☐ Yes                                                                           |                   |                             |
| ☐ No                                                                           |                   |                             |

#### Uncertain Exposure – LOW (BUT NOT ZERO) RISK

<table>
<thead>
<tr>
<th>Type of Exposure</th>
<th>Dates of Exposure</th>
<th>Additional Details/Describe</th>
</tr>
</thead>
<tbody>
<tr>
<td>Clean up spills of urine, vomit, stool, blood, saliva or other body fluids of the patient with appropriate PPE and training?</td>
<td></td>
<td></td>
</tr>
<tr>
<td>☐ Yes</td>
<td></td>
<td></td>
</tr>
<tr>
<td>☐ No</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### SECTION III: SUMMARY

**Exposure Category**

☐ HIGH RISK CONTACT (quarantine, direct active monitoring)

☐ SOME RISK CONTACT (movement restrictions, direct active monitoring)

☐ LOW (BUT NOT ZERO) RISK CONTACT (direct active monitoring for U.S. based healthcare workers caring for symptomatic Ebola patients while wearing appropriate PPE, active monitoring for all others)

☐ NO RISK EXPOSURES IDENTIFIED (self-monitoring)

**LAST DATE OF EXPOSURE:**
Follow-up Actions

Adhere to recommendations found in ‘CDPH Guidance for the Evaluation and Management of Contacts to Ebola Virus’

☐ No further follow-up, self-monitoring recommended

Why is no follow-up needed?

☐ No risk exposures identified

☐ Last exposure was > 21 days ago

☐ Other ________________________________________________

Last date of self-monitoring: __________________________

☐ Twice daily active monitoring recommended

Last date of follow-up: __________________________

☐ Twice daily direct active monitoring recommended

Last date of follow-up: __________________________

☐ Quarantine recommended

Last date of quarantine: __________________________

☐ Work exclusion recommended

Last date of work exclusion: __________________________
EMERGENCY DEPARTMENT OR FLIGHT CONTACT TO EBOLA PATIENT INTERVIEW FORM

SECTION I: GENERAL INFORMATION

Interviewer Information

Interviewer Name (Last, First): __________________________________________________________

State/Local Health Department: __________________________________________________________

Phone number: _______________________ Email address: ____________________________

Ebola Patient Information (Patient Associated with Contact)

Ebola Patient CalREDIE ID # ____________________________

Last Name: ________________________________ First Name: ________________________________

DOB: MM / DD / YYYY

Date of illness onset: MM / DD / YYYY

Date of hospital admission: MM / DD / YYYY

Name of admitting hospital: ____________________________________________________________

Date patient was isolated in a healthcare facility: MM / DD / YYYY

At the time of this report, is the patient? ☐ Confirmed ☐ Probable ☐ Unknown

Notes:

Contact Setting

☐ Emergency Department/Other Outpatient Healthcare Setting ☐ Flight

If emergency department/other healthcare setting please provide the information below:

Name of healthcare facility: ____________________________________________________________

Dates/times Ebola case was in the emergency department/waiting room:

Arrived: MM / DD / YYYY _______ ☐ AM ☐ PM Departed: MM / DD / YYYY _______ ☐ AM ☐ PM

Dates/times contact was in the emergency department/waiting room:

Arrived: MM / DD / YYYY _______ ☐ AM ☐ PM Departed: MM / DD / YYYY _______ ☐ AM ☐ PM
Contact Setting (Continued)

If flight, please provide the below information:

Name of Airline: _______________________________________

Flight Number: __________________

Seat assignment of Ebola case: _____________

Class of travel of Ebola case: ☐ First/Business ☐ Economy

Seat assignment of contact: _____________

Class of travel of contact: ☐ First/Business ☐ Economy

Contact Information

Last Name: ________________________________ First Name: ___________________________________

Date of birth: MM / DD / YYYY Age: ______

Sex: ☐ Male ☐ Female

If female, are you currently pregnant? ☐ Yes ☐ No

If yes, what is you EDD: MM / DD / YYYY

Home address: (add all places where the contact resides including temporary residence due to travel)

Street Address #1: ____________________________________________________________ Apt. # ______

City: ______________________ County: ______________ State: _________ Zip: _______________

Phone number: ______________________ Email address: _____________________________

Alternate phone number/email: ________________________________________________

Is this the current residence: ☐ Yes ☐ No

Is this the permanent residence: ☐ Yes ☐ No

Is this a congregate setting (dorm, assisted living, etc.): ☐ Yes ☐ No

How many people live at this address: _______
Contact Information (Continued)

Street Address #2: ___________________________________________________________ Apt. # __________

City: ___________________________ County: ___________________________ State: __________ Zip: __________

Country: ___________________________

Is this the current residence: ☐ Yes ☐ No

Is this the permanent residence: ☐ Yes ☐ No

Is this a congregate setting (dorm, assisted living, etc.): ☐ Yes ☐ No

How many people live at this address: ______

Notes regarding address section:
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________
________________________________________________________________________________________

(Add additional addresses and contact information on the back of the form)

Who is providing information for this contact?

☐ Contact (Self)

☐ Other, specify person (Last, First): ______________________________________________________

Relationship to contact: ________________________________________________________________

Reason contact unable to provide information: ☐ Contact is a minor ☐ Other _________________

Contact primary language: ___________________________

Was this form administered via a translator? ☐ Yes ☐ No
## Symptoms

Do you currently have any of the following symptoms?

<table>
<thead>
<tr>
<th>Symptom</th>
<th>Date of onset</th>
</tr>
</thead>
<tbody>
<tr>
<td>☐ No symptoms</td>
<td></td>
</tr>
<tr>
<td>☐ Temperature ≥99.6°F (oral)</td>
<td></td>
</tr>
<tr>
<td>☐ Chills</td>
<td></td>
</tr>
<tr>
<td>☐ Weakness</td>
<td></td>
</tr>
<tr>
<td>☐ Headache</td>
<td></td>
</tr>
<tr>
<td>☐ Muscle Aches</td>
<td></td>
</tr>
<tr>
<td>☐ Abdominal Pain</td>
<td></td>
</tr>
<tr>
<td>☐ Diarrhea</td>
<td></td>
</tr>
<tr>
<td>☐ Vomiting</td>
<td></td>
</tr>
<tr>
<td>☐ Unexplained hemorrhage</td>
<td></td>
</tr>
<tr>
<td>☐ Other</td>
<td></td>
</tr>
</tbody>
</table>

Do you belong to a health network?  ☐ Yes  ☐ No  Name of health network: _______________________

## Occupation

What is your occupation? ____________________________________________________________

What is your occupation setting? ___________________________________________________

Place of work and address:
________________________________________________________________________________
________________________________________________________________________________

________________________________________________________________________________
**Medical History**

Do you routinely undergo any routine medical procedures or monitoring (i.e., glucose monitoring, dialysis, injections)?

☐ Yes  ☐ No

If yes, please describe: ____________________________________________

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________

(If possible contact who undergo routine medical procedures or monitoring are determined to be exposed, additional recommendations may be needed to accommodate routine medical care safely)

---

**Travel Plans**

Do you have any upcoming travel plans?

☐ Yes  ☐ No  ☐ Unknown  ☐ Refused

If yes, please describe where, when, and how you are planning to travel (please include airlines and flight numbers or other relevant and comparable commercial transportation information):

SECTION II: EXPOSURE ASSESSMENT

For Health Department Use ONLY

1. Was the Ebola case experiencing any Ebola symptoms while in the emergency department/on the flight?
   - Yes  - No  - Unknown

2. Was the Ebola case experiencing vomiting or diarrhea while in the emergency department/on the flight?
   - Yes  - No  - Unknown

3. Was the Ebola case experiencing bleeding/hemorrhaging while in the emergency department/on the flight?
   - Yes  - No  - Unknown

If YES to question 1 and no to both questions 2 and 3, then the contact is considered to have “Low (but not zero) risk” exposure, please skip to SECTION III: SUMMARY.

If YES or UNKNOWN either question 2 or 3 above, please ask the below questions to further assess the potential risk of the contact.

Questions for Contact

1. Did you use the bathroom while you were in the emergency department/on the flight?
   - Yes  - No  - Unknown  - Refused

   If FLIGHT and YES,
   a. Which bathrooms on the aircraft did you use?
      - First/business class only  - Economy class only
      - Both, first/business class and economy class

2. Did someone vomit or have diarrhea in the same room/cabin as you while you were in the emergency room/on the flight?
   - Yes  - No  - Unknown  - Refused
Questions for Contact (Continued)

If YES,

a. Do you know the name of this person?
   ☐ Yes – Name: ________________________________ ☐ No

b. Did any of the vomit or diarrhea get on you?
   ☐ Yes  ☐ No  ☐ Unknown  ☐ Refused

c. Approximately how far away from the person who vomited or had diarrhea were you?
   __________ ☐ Feet  ☐ Meters

3. Did you get blood from someone other than yourself on you while in the emergency department/on the flight?
   ☐ Yes  ☐ No  ☐ Unknown  ☐ Refused

If YES,

a. Do you know the name of the person whose blood got on you?
   ☐ Yes – Name: ________________________________ ☐ No

SECTION III: SUMMARY

Exposure Category

☐ HIGH RISK (quarantine, twice daily direct active monitoring)

☐ SOME RISK (movement restrictions, twice daily direct active monitoring)

☐ LOW (BUT NOT ZERO) RISK (twice daily direct active monitoring for travelers on an aircraft with, and sitting within 3 feet of, a person with Ebola; all others twice daily active monitoring)

☐ NO RISK EXPOSURES IDENTIFIED (self-monitoring)

LAST DATE OF EXPOSURE: ____________________________
Follow-up Actions

*Adhere to recommendations found in ‘CDPH Guidance for the Evaluation and Management of Contacts to Ebola Virus’.*

- ☐ No further follow-up, self-monitoring recommended
  
  Why is no follow-up needed?
  
  - ☐ No risk exposures identified
