

**Executive Committee
2013**

May 15, 2013

Dear Communicable Disease Controller,

Barbara Cole
President
Riverside County

It is time to pay the CACDC 2013 dues. Your contribution of \$50 per jurisdiction is greatly appreciated and allows our organization to continue working for your needs. **REMEMBER, \$50 is the entire fee for each jurisdiction, even if you have multiple members.**

Lea Morgan
President-elect
San Bernardino County

The CACDC, formed in 2002, continues to grow and with your support has become a well-recognized forum for local CD Controllers throughout the State. As an affiliate of CCLHO, CACDC supports the core public health functions of surveillance, prevention, and control of communicable diseases – services vital to the protection of the public, policy development, and evaluation of public health delivery systems.

Michele Cheung
Secretary
Orange County

Our purpose is to support the establishment of recommended goals, standards, and priorities for the control of communicable diseases, make recommendations on proposed legislation, and promote dissemination of knowledge concerning communicable diseases including causes, prevention, treatment, control, and reporting. Just a few recent examples of CACDC activities include publication of the *CD Prioritization Survey and Matrix*, the annual conference last held in Oakland, Nov. 1, 2012, the CACDC After Hours Notifications Guideline, and the workgroup to provide recommendations for oversight of ambulatory care settings. More information about these activities is available at the CACDC website <http://www.cdph.ca.gov/programs/cid/Pages/CACDC.aspx>.
