OCCUPATIONAL HEALTH BRANCH
CALIFORNIA SAFE COSMETICS PROGRAM
September 1, 2009**

**CHEMICALS KNOWN OR SUSPECTED TO CAUSE
CANCER OR REPRODUCTIVE TOXICITY**

The California Safe Cosmetics Act of 2005 requires cosmetic manufacturers to disclose to the California Department of Public Health (CDPH) all products containing chemicals known or suspected to cause cancer, birth defects, or other reproductive toxicity. To assist companies with reporting, CDPH compiled this list of chemicals in consultation with the Office of Environmental Health Hazard Assessment. CDPH used lists and reports available from the authoritative scientific bodies cited in California Health and Safety Code Section 111791.5 (see the last page of this list for details). It should be noted that not all listed chemicals will be found in cosmetic products.

The "INCI Name" (International Nomenclature of Cosmetic Ingredients) is provided for those chemicals that are listed in the International Cosmetic Ingredient Dictionary (11th ed.). The CAS number is the Chemical Abstract Service (CAS) Registry Number. Not all listed chemicals will include CAS numbers or INCI names. The "Basis for ID" (basis for identification) cites the authoritative body that listed the chemical. In cases where the chemical was listed under Proposition 65 as well as by other authoritative bodies, only Proposition 65 was noted.

Note to consumers: Some cosmetic products may not contain any of these chemicals. Also note, the likelihood of a cosmetic product leading to cancer or reproductive harm depends on many factors, including but not limited to the amount and type of exposure to chemicals in the product. The chemicals are listed here because of findings from research on the chemicals and not on cosmetic products.

	Chemical	INCI Name	CAS #	Type of Toxicity	Basis for ID
1	A-alpha-C (2-Amino-9H-pyrido[2,3-b]indole)		26148-68-5	cancer	Proposition 65
2	Acetaldehyde	Acetaldehyde	75-07-0	cancer	Proposition 65
3	Acetamide		60-35-5	cancer	Proposition 65

Note: The California Safe Cosmetics Act of 2005 lists the following authoritative bodies, all of which were used as sources of information in creating this list:

- Proposition 65 List of Chemicals Known to Cause Cancer or Reproductive Toxicity – California Office of Environmental Health Hazard Assessment (OEHHA)
- U.S. Environmental Protection Agency (U.S. EPA)
- National Toxicology Program (NTP), including the Center for the Evaluation of Risks to Human Reproduction (CERHR)
- International Agency for Research on Cancer (IARC)

This list is current as of 8/1/09; review of the sources listed above was last conducted on 8/1/09.
