

Chronic Disease...a season of change

Greg Oliva, M.P.H.
California Department of Public Health

A Falling Leaf?

- Prevention Block Grant
 - Funds numerous CDPH chronic disease prevention programs (heart disease and stroke, nutrition and physical activity, water fluoridation, built environment)
 - Currently zeroed out in President and House budget proposals

New Buds...

- Community Transformation Grants
 - Amazing opportunity for California to coalesce around the leading preventable causes of death
 - CDPH working closely with PHI and local health departments and many other partners
 - Primed for success on obesity prevention strategic direction largely due to your contributions!

New Buds...

- Coordinated Chronic Disease
 - 5-year CDC grant to CDPH (\$1.9M/year)
 - Focus on coordination, and not categorical
 - Heart Disease, Cancer, Diabetes, Stroke, Arthritis
 - Obesity, Physical Activity, Nutrition, Tobacco
 - Develop/Implement Coordinated Chronic Disease Prevention & Health Promotion Plan (2011–2014)
 - Organize Chronic Disease Prevention & Health Promotion Coalition
 - Establish Chronic Disease Prevention & Health Promotion Training and Technical Assistance

Other trees in the forest...

- Heart disease, Diabetes, other federal grants
- Building Healthy Communities
- Healthy Eating Active Communities
- Healthy Eating Active Living
- ARRA-CPPW
- California Cancer Research Act (June 2012)

A time to gain, a time to build up...

- Incumbent upon us to:
 - create a solid and lasting chronic disease infrastructure
 - carry by our side those who did not benefit directly from the CTG largesse
 - accelerate the rate of achievement in reducing morbidity and mortality associated with chronic disease risk factors
