SNAP-Ed Trainings for NEOP Grantees & Partners

February 2014

[An Overview of the SNAP-Ed Local Implementing Agency Forum \(LIAF\): Preparing Attendees for Success](#)

Date: February 5th 10:00am - 11:00am

The purpose of the webinar is to provide attendees an overview of the goals and expectations of the February 27-28, 2014 SNAP-Ed Local Implementing Agency Forum. All SNAP-Ed Local Implementing Agency staff that plan to attend the Forum are highly encouraged to join this webinar in order to prepare for the work ahead as we begin to design coordinated and collaborative SNAP-Ed efforts across California. Participants will also have an opportunity to ask questions in order to prepare for the Forum. The webinar will cover: - The importance and vision of coordinated and collaborative SNAP-Ed efforts across California; - The goals and expectations of the Forum; - Agenda highlights and pertinent logistical information; and - How to prepare prior to attending the Forum.

SNAP-Ed Local Implementing Agency Forum

Date: February 27-28, 2014 8:30am – 5:00pm

Description: The purpose of the conference is to bring all five Supplemental Nutrition Assistance Program-Education (SNAP-Ed) Implementing Agencies and subcontractors together to increase coordination, cohesion and collaboration statewide and at the local level to maximize resources, expertise and impact so that eligible recipients of the SNAP-Ed increase their ability to make healthy food choices within a limited budget and choose physically active lifestyles.

The Forum will provide attendees an environment conducive to planning and developing an integrated SNAP-Ed workplan for local jurisdictions while providing training opportunities on evidence and practice based SNAP-Ed interventions. Both components provide the tools needed to successfully implement local SNAP-Ed activities in a coordinated and collaborative fashion.

There are two distinct sessions that will take place at the Forum concurrently: 1) SNAP-Ed Integrated Work Plan Sessions and 2) SNAP-Ed Intervention Training Sessions. Each of the sessions has its own primary target audience.

SNAP-Ed Integrated Work Plan Sessions: These sessions are focused on facilitated work to move forward on planning and developing an integrated workplan for local jurisdictions. Strongly recommended for at least one Local Implementing Agency staff to attend these sessions.

SNAP-Ed Interventions Training Sessions: These sessions focus on training to build knowledge, skills and capacity around evidence and practice based SNAP-Ed interventions.
