CDPH Staff:

Lanette Corona, Associate Healthcare Program Analyst

Members of the Public

ACTION TAKEN:

See Attached Minutes

ACTION REQUIRED BY HAI ADVISORY COMMITTEE:

ACTION REQUIRED BY ADMINISTRATION:

Brian Lee, MD, Subcommittee Chair

TOPIC	DISCUSSION	ACTION/ OUTCOME	NEXT REVIEW
I. CALL TO ORDER <i>B. Lee</i>	The Antimicrobial Stewardship Subcommittee meeting was held on Thursday, May 29, 2014, via teleconference.	B. Lee called the meeting to order at 1:00 P.M.	
II. Welcome <i>B. Lee</i>	Brian Lee welcomed participants to the meeting, and invited all on the call to state their name and institution.		
III. Review of minutes <i>B. Lee</i>	Minutes from previous meeting held on April 24, 2014 were reviewed.	Minutes approved.	
IV. Update from CDPH: Spotlight on ASP Lynn ASP Statement	<p>May possibly have 3 or more potential candidates who have completed the survey.</p> <p>Statement was approved unanimously at the HAI committee.</p> <p>In addition the health officer position has been filled at CDPH. This person will be taking an active role in Antimicrobial Stewardship. Committee looks forward to the new hire joining the conference calls in the future.</p> <p>Dr. Lee has sent out an email to all the pharmacists on the ASP Spotlight in an attempt to find a pharmacist to serve on the subcommittee. There have been 18 applicants who responded to the invitation to fill the pharmacist vacancy on the subcommittee. It was suggested that we cut the 18 candidates down to 4 or 5.</p> <p>Committee members discussed methods of narrowing the candidate pool by looking for certain demographics in the applicant such as: location, type of facility they represent, facility size, etc.</p> <p>The committee discussed the idea of separating the candidates into two groups: one group of applicants with higher level experience and another group with community level experience. Another idea was to have a Pharmacy Advisory group made up of a number of the applicants.</p>		

TOPIC	DISCUSSION	ACTION/ OUTCOME	NEXT REVIEW
	<p>Lanette will look into whether or not a panel of pharmacists to advise the ASP subcommittee can be created. Two of the pharmacists on the panel would actually be members of the ASP subcommittee.</p> <p>It was then proposed that each committee member go through the list of applicants and pick out their top five candidates to be sent to Lanette or Brian. The idea is that hopefully there will be some that rise to the top. Each committee member should have their top 5 applicants ready by June 16th. From there, committee will discuss the top 5 at the next meeting to be held at the end of June or beginning of July</p>		
<p>V. Discussion Items</p>	<p><u>Toolkit for hospital ASPs</u></p> <p>Jeff looked at the formulary annual review in which he tried to emphasize that using the antibiogram is important for the development of a good ASP program. He included his analysis of the antibiogram and the take home message. Jeff will add a statement “no changes to formulary were indicated this year, however these guidelines should be considered when choosing antibiotics”.</p> <p>Jeff also looked at formulary restriction with pre authorization. Discussed restriction of antibiotics when appropriate, examples of restricted antibiotics, and establishing a working system to accomplish this. Also he listed a number of sources for education on treatment guidelines. Members will provide feedback directly to Jeff, and the modified version will be made available at the next meeting.</p> <p>The idea is that eventually this information will be made available on the website.</p> <p>A more practical way of approaching the tools is to provide a brief description followed by an example. Committee members will continue to work on developing the toolkit.</p> <p>Next main task will be to select some additional</p>
