TULARE REGIONAL MEDICAL CTR	0	1	-----	-----	+
UNIVERSITY OF CALIFORNIA DAVIS MED CTR, SACRAMENTO	1	305	3.28	(0.08,18.27)	⊙
WATSONVILLE COMMUNITY HOSP	0	57	0.00	(0.00,52.56)	⊙

* Hospitals with only one acute care campus associated with their license were listed by the campus name; hospitals with more than one campus associated with their license were listed by licensee names with acute care campus name(s) indented below

**Statistical interpretation indicates hospital-specific rates that were statistically higher (●), lower (○), or no different (⊙) than California average rates, or rates that were not tested due to too few central line-days or too few hospitals reported (+)

† Hospital reported infection data aggregated over all acute care campuses

‡ Hospital reported infection data separately by acute care campus

Notes: Rate per 1000 central line days; 95% confidence interval calculated for rates based on exact Poisson distribution; ----- indicates data not shown due to too few central line-days reported; neonatal step down general care locations specialize in preterm and/or ill infants with birth weight ≥1500 grams requiring resuscitation and stabilization before transfer to a facility at which newborn intensive care is provided
