

Table 1. Number of CLIP observations and 100% bundle adherence by ICU type in general acute care hospitals, California, January 1, 2009 through March 31, 2010.

Hospital location of central line insertion	Number of CLIP observations, n (% of total)	Number of CLIP observations with 100% bundle adherence, n (%)
Adult-only ICU	65851 (83.5)	61421 (93.3)
NICU	9903 (12.5)	9168 (92.6)
Pediatric ICU	3142 (4.0)	2906 (92.5)

CLIP = central line insertion practices

ICU = intensive care unit

NICU = neonatal intensive care unit
