## Celebrate National Infant Immunization Week, April 21-26 and Toddler Immunization Month in May!

Stay on track for a lifetime of good health!

April 19-26, 2008  
National Infant Immunization Week  
Toddler Immunization Month

NIIW  
TIM  
2008

Your baby needs shots at

birth 2 4 6 12 15 18 months

This year, California is highlighting the importance of immunizations with the theme of "Immunizations: Stay on Track for a Lifetime of Good Health".

A complete immunization series helps provide infants and toddlers with the foundation for a lifetime of good health.

During NIIW, VFC would like to thank you for the work you do to protect California's children against vaccine-preventable diseases. Your efforts in providing timely immunizations for California's children are truly appreciated.

We encourage your office to launch special efforts to help your staff and patients focus on completing the immunization series. And remember...it is important to remind parents, babysitters, older siblings, and grandparents to receive their recommended immunizations to protect themselves, their families and community from dangerous diseases.
