

California Home Visiting Program Report Card

California Home Visiting Program (CHVP) finished its third year of the program in September 2014. CHVP was mandated to show improvement in at least four of six Benchmarks from Year 1 to Year 3. CHVP showed improvement in five of the six Benchmarks, surpassing the minimum requirement. At the close of September 2014, CHVP had enrolled 2,958 families and completed 49,744 home visits, reaching a caseload capacity of 93%. CHVP continues to be a national leader among state-run home visiting programs.

Home Visiting Benchmarks

Maternal & Newborn Health

6 OF 8

- Prenatal care
- Parental use of alcohol, tobacco, or illicit drugs
- Inter-birth intervals
- Well-child visits
