

Diabetes Age-Adjusted Death Rates, 2000-2008  
Kern County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

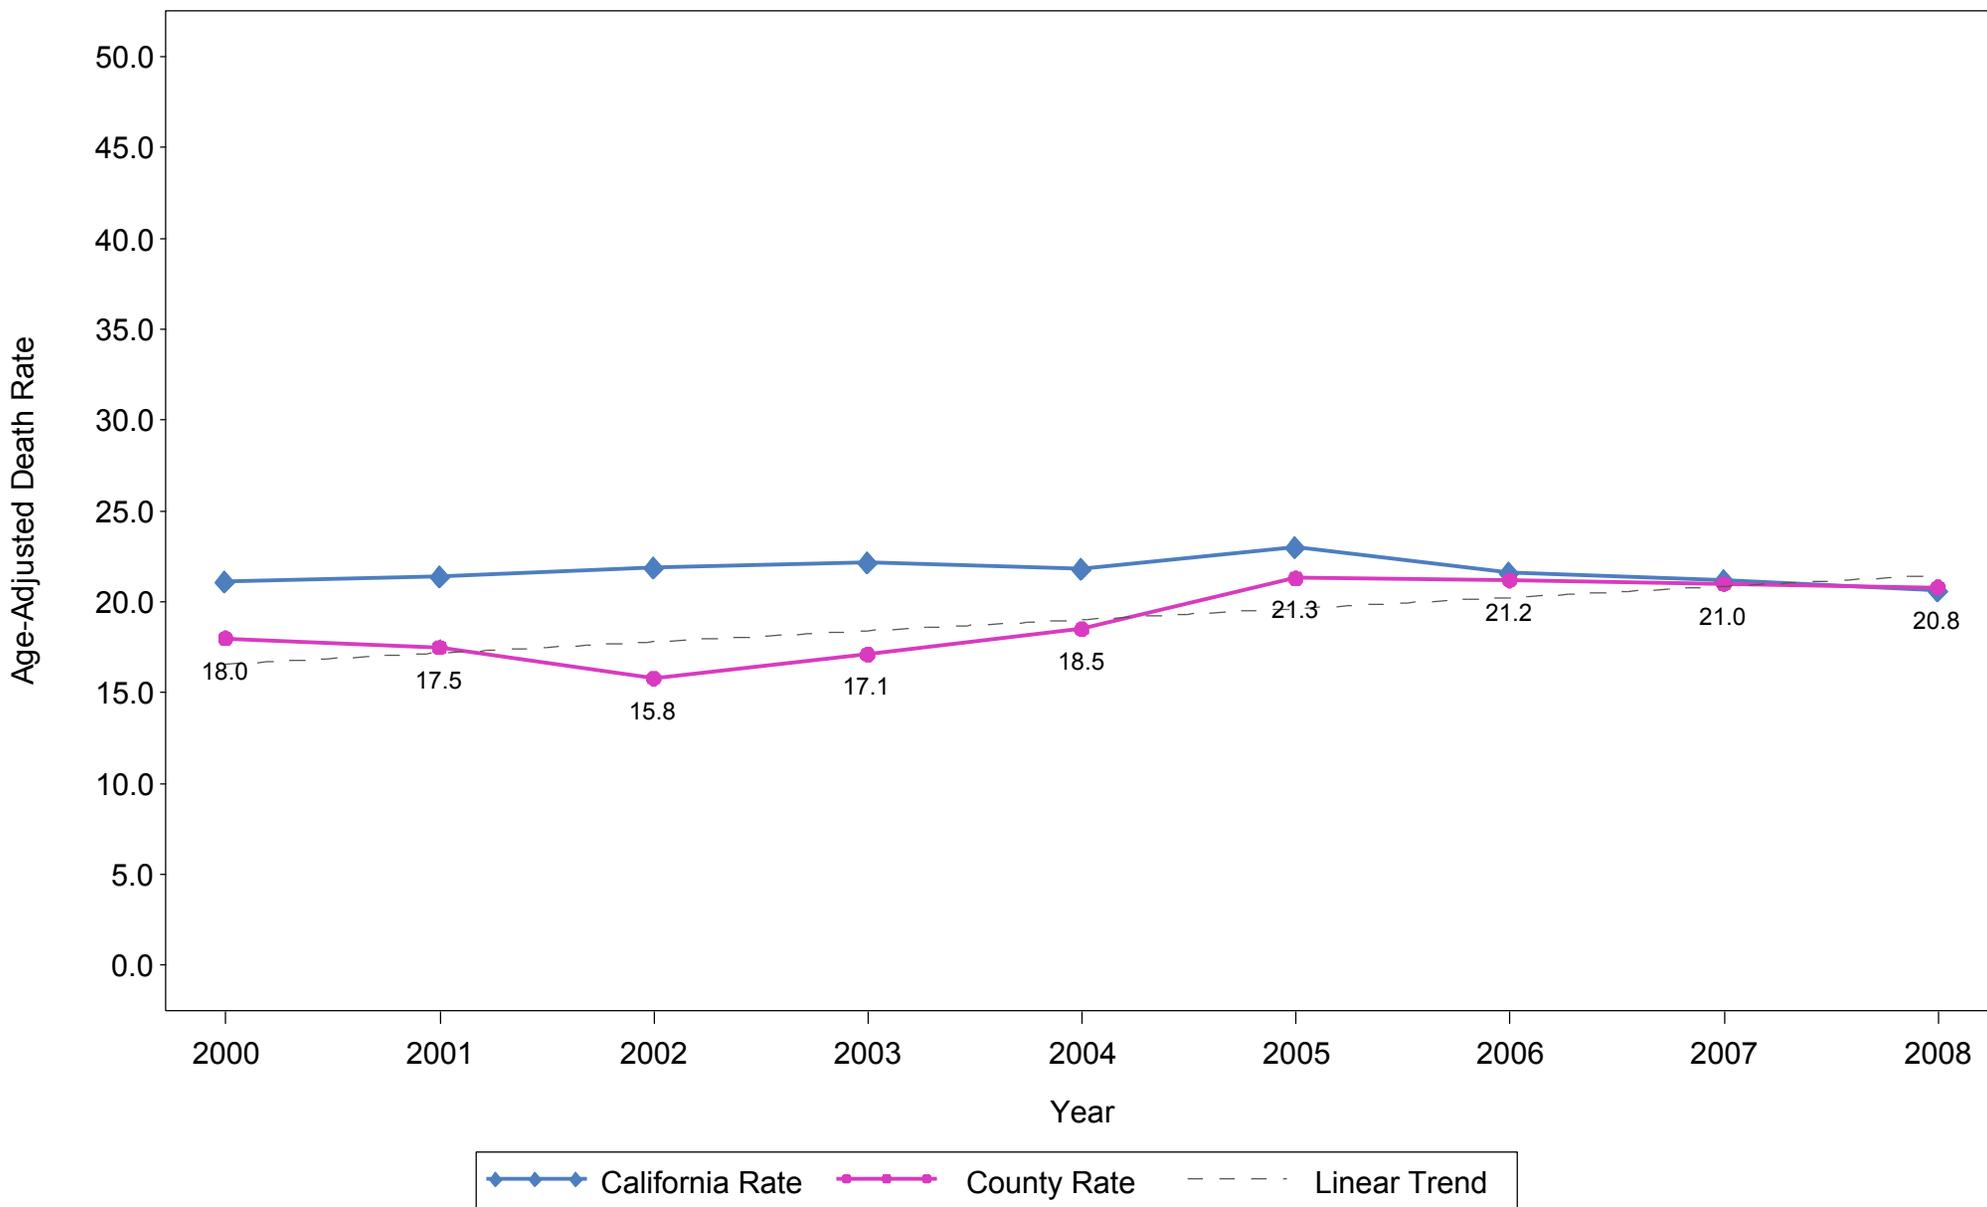

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Francisco County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

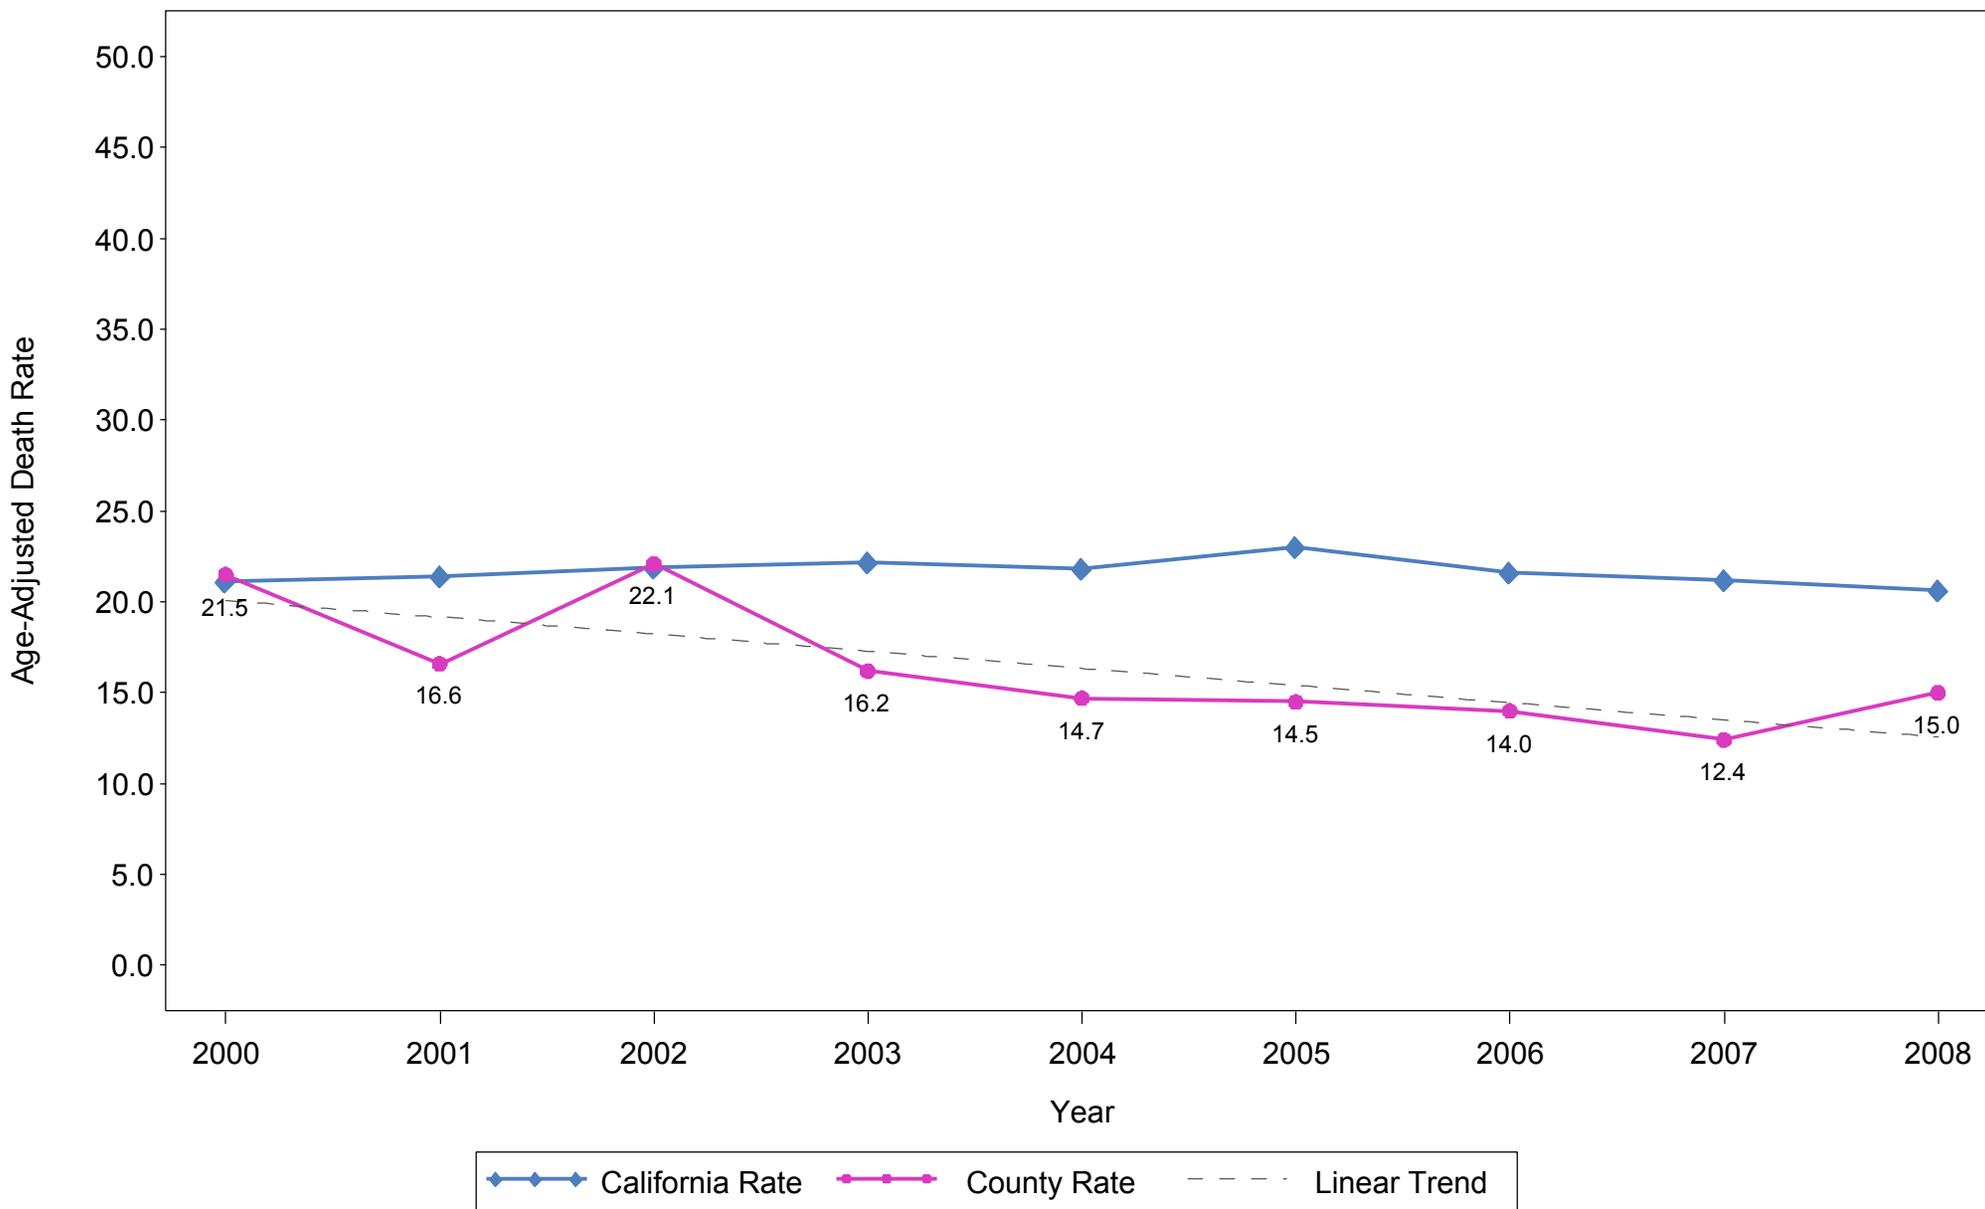

Diabetes Age-Adjusted Death Rates, 2000-2008  
Santa Clara County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

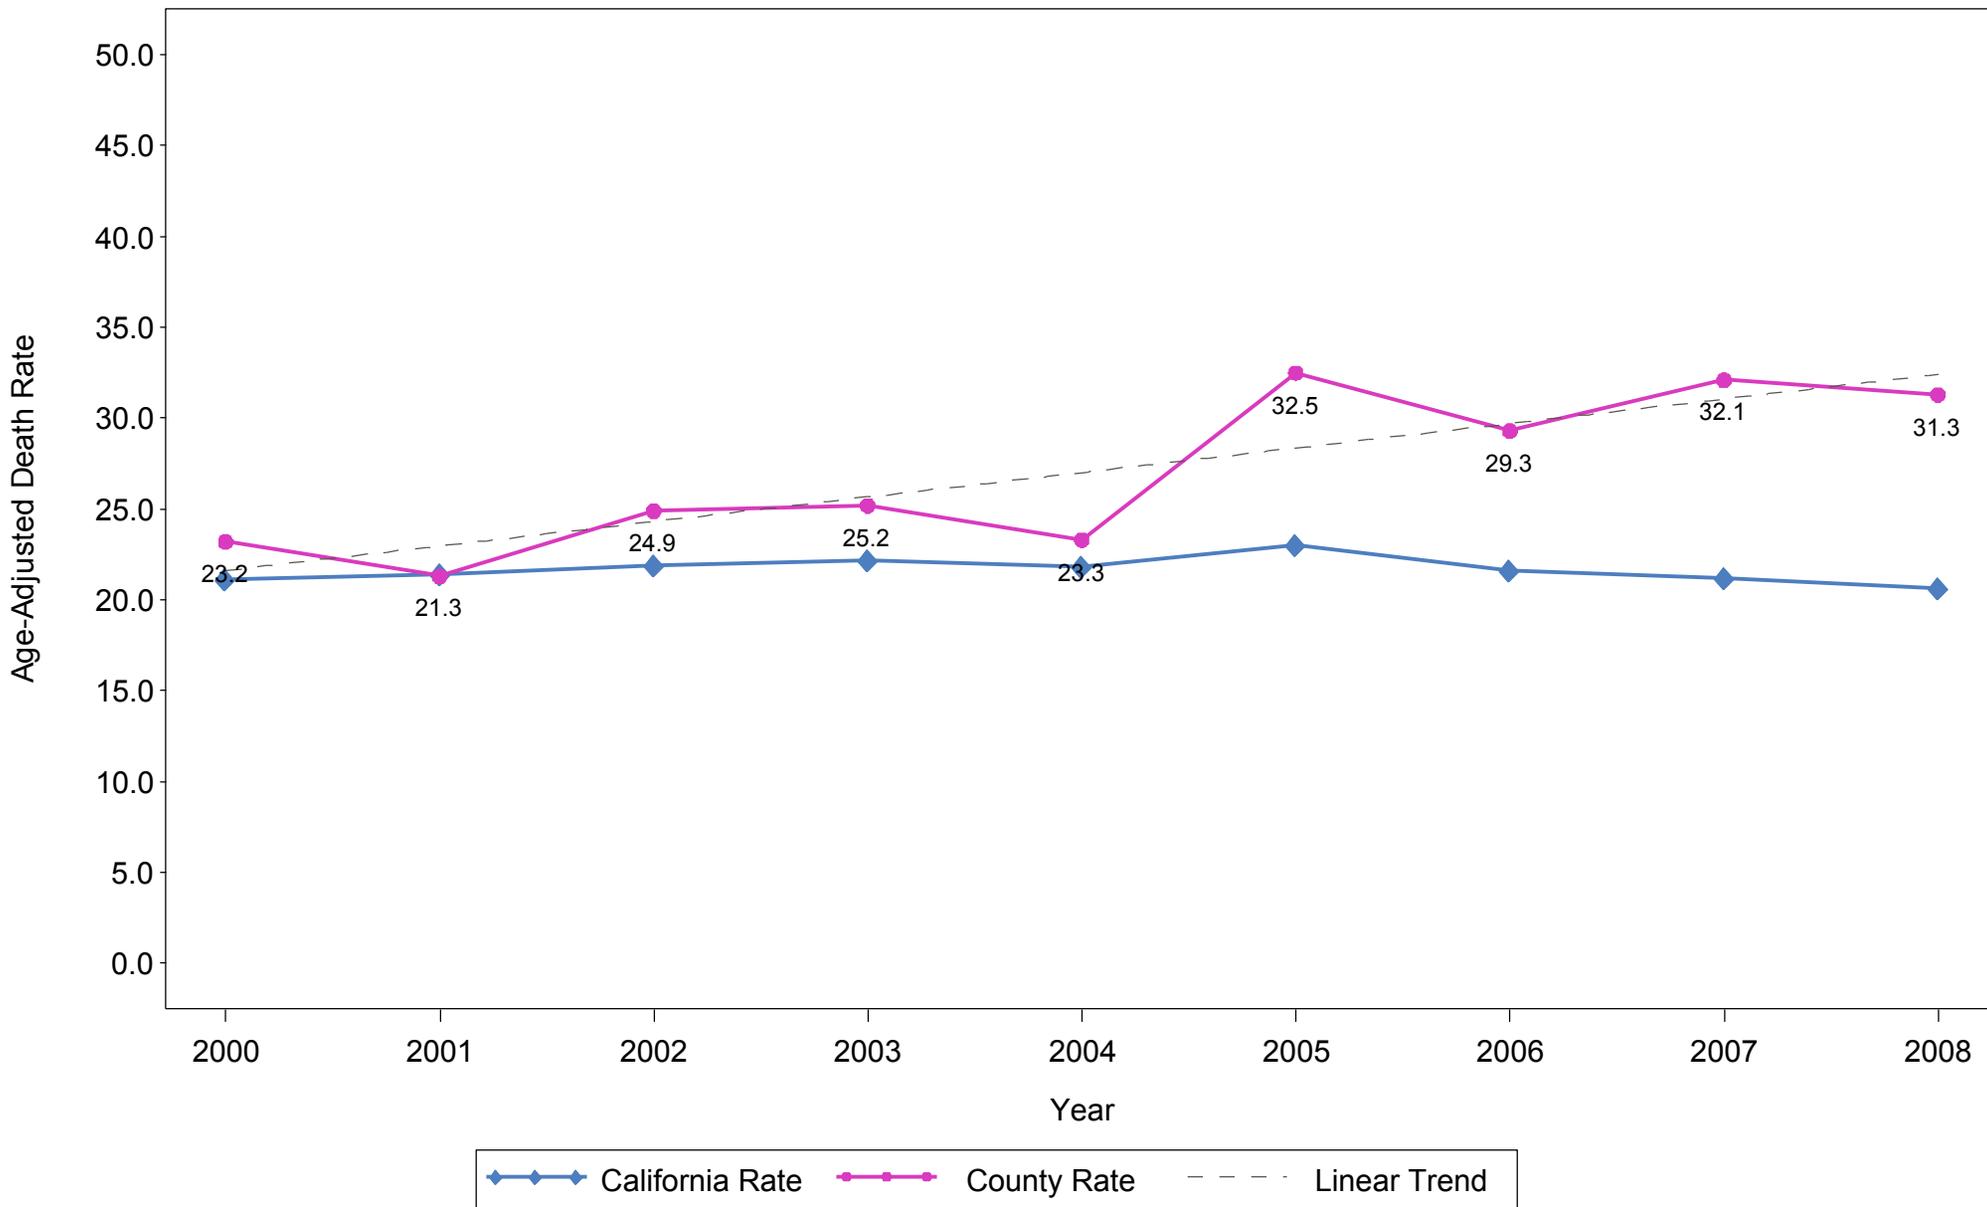

### Diabetes Age-Adjusted Death Rates, 2000-2008 Shasta County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

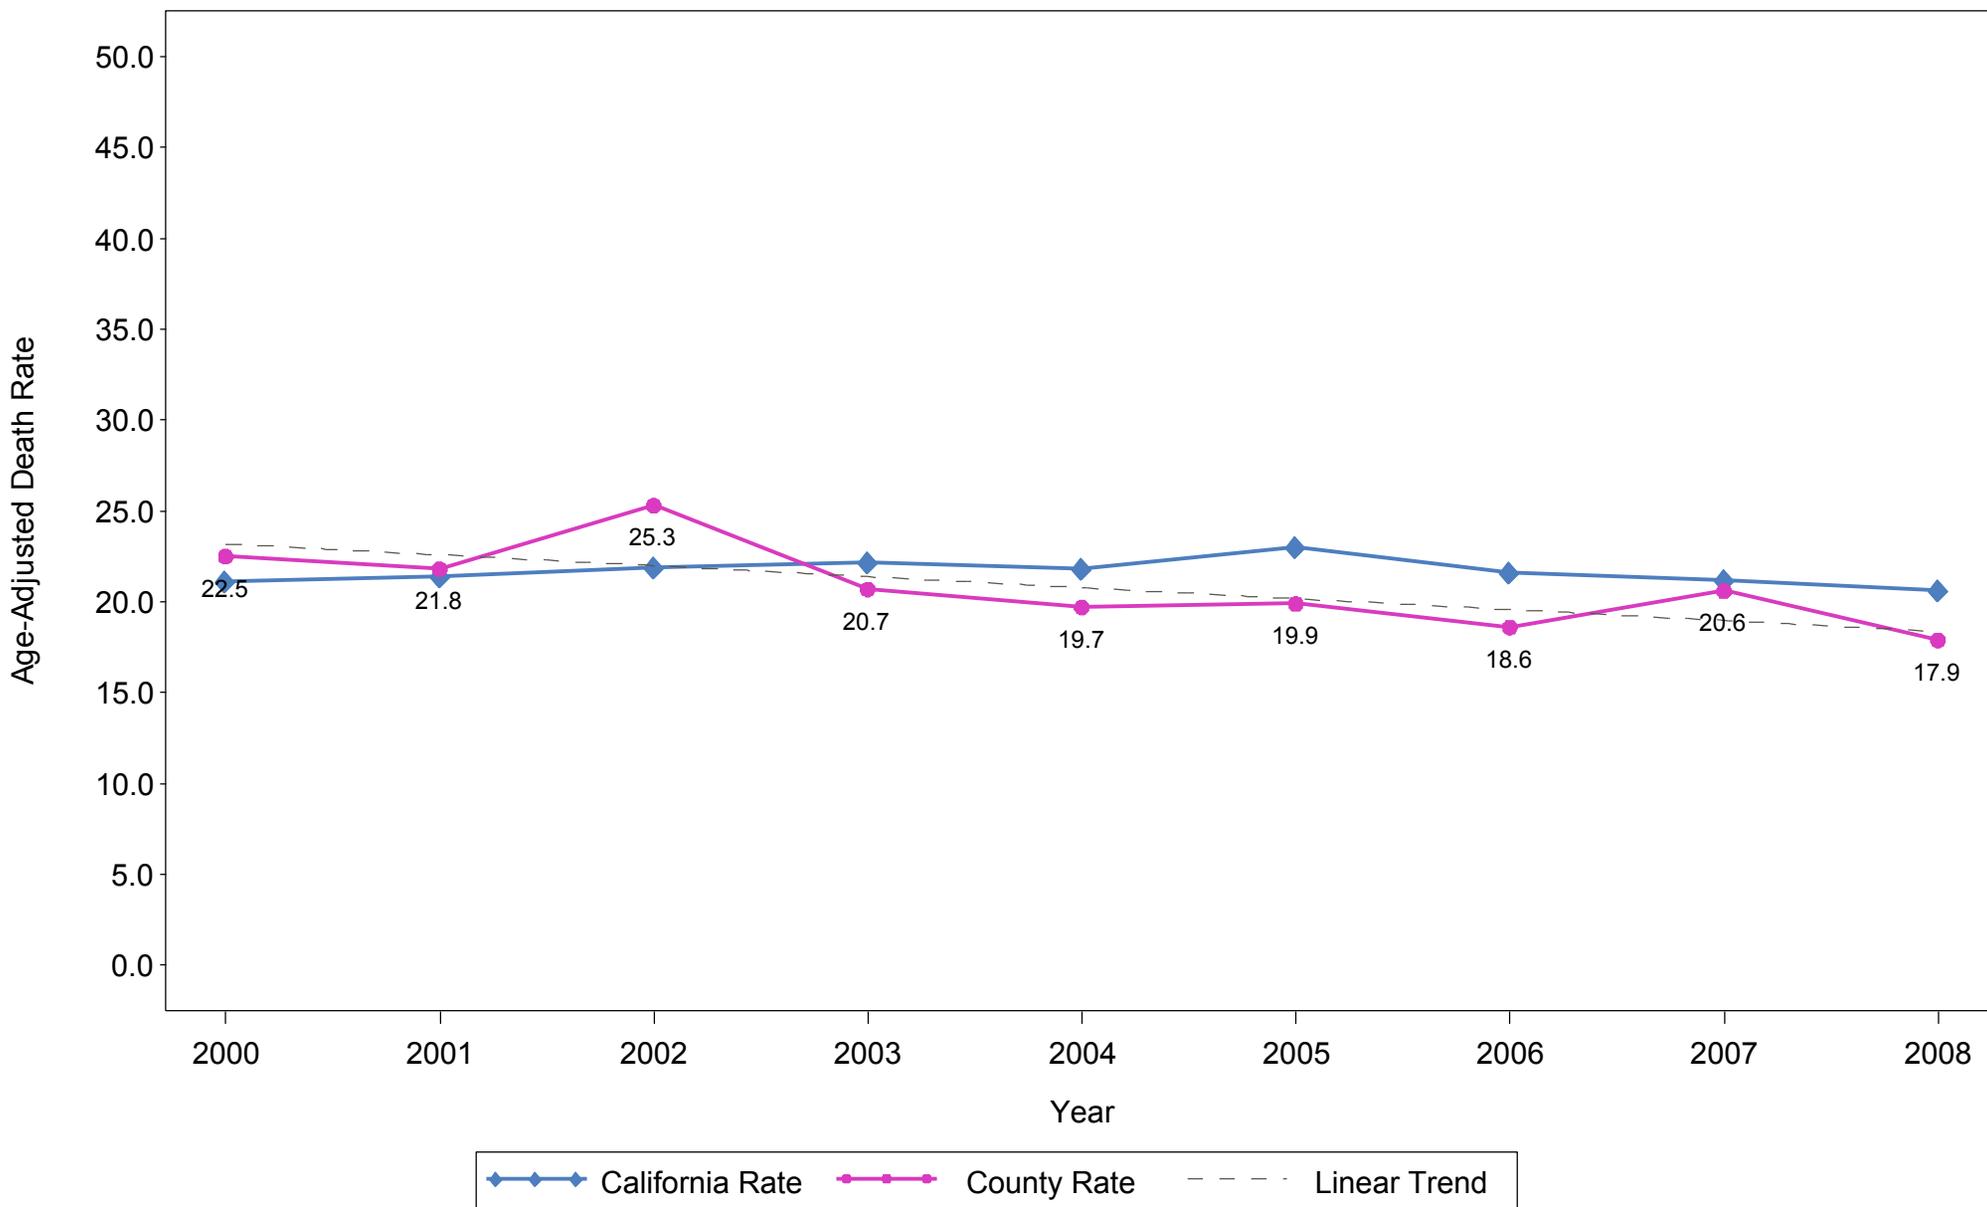

Diabetes Age-Adjusted Death Rates, 2000-2008  
Solano County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

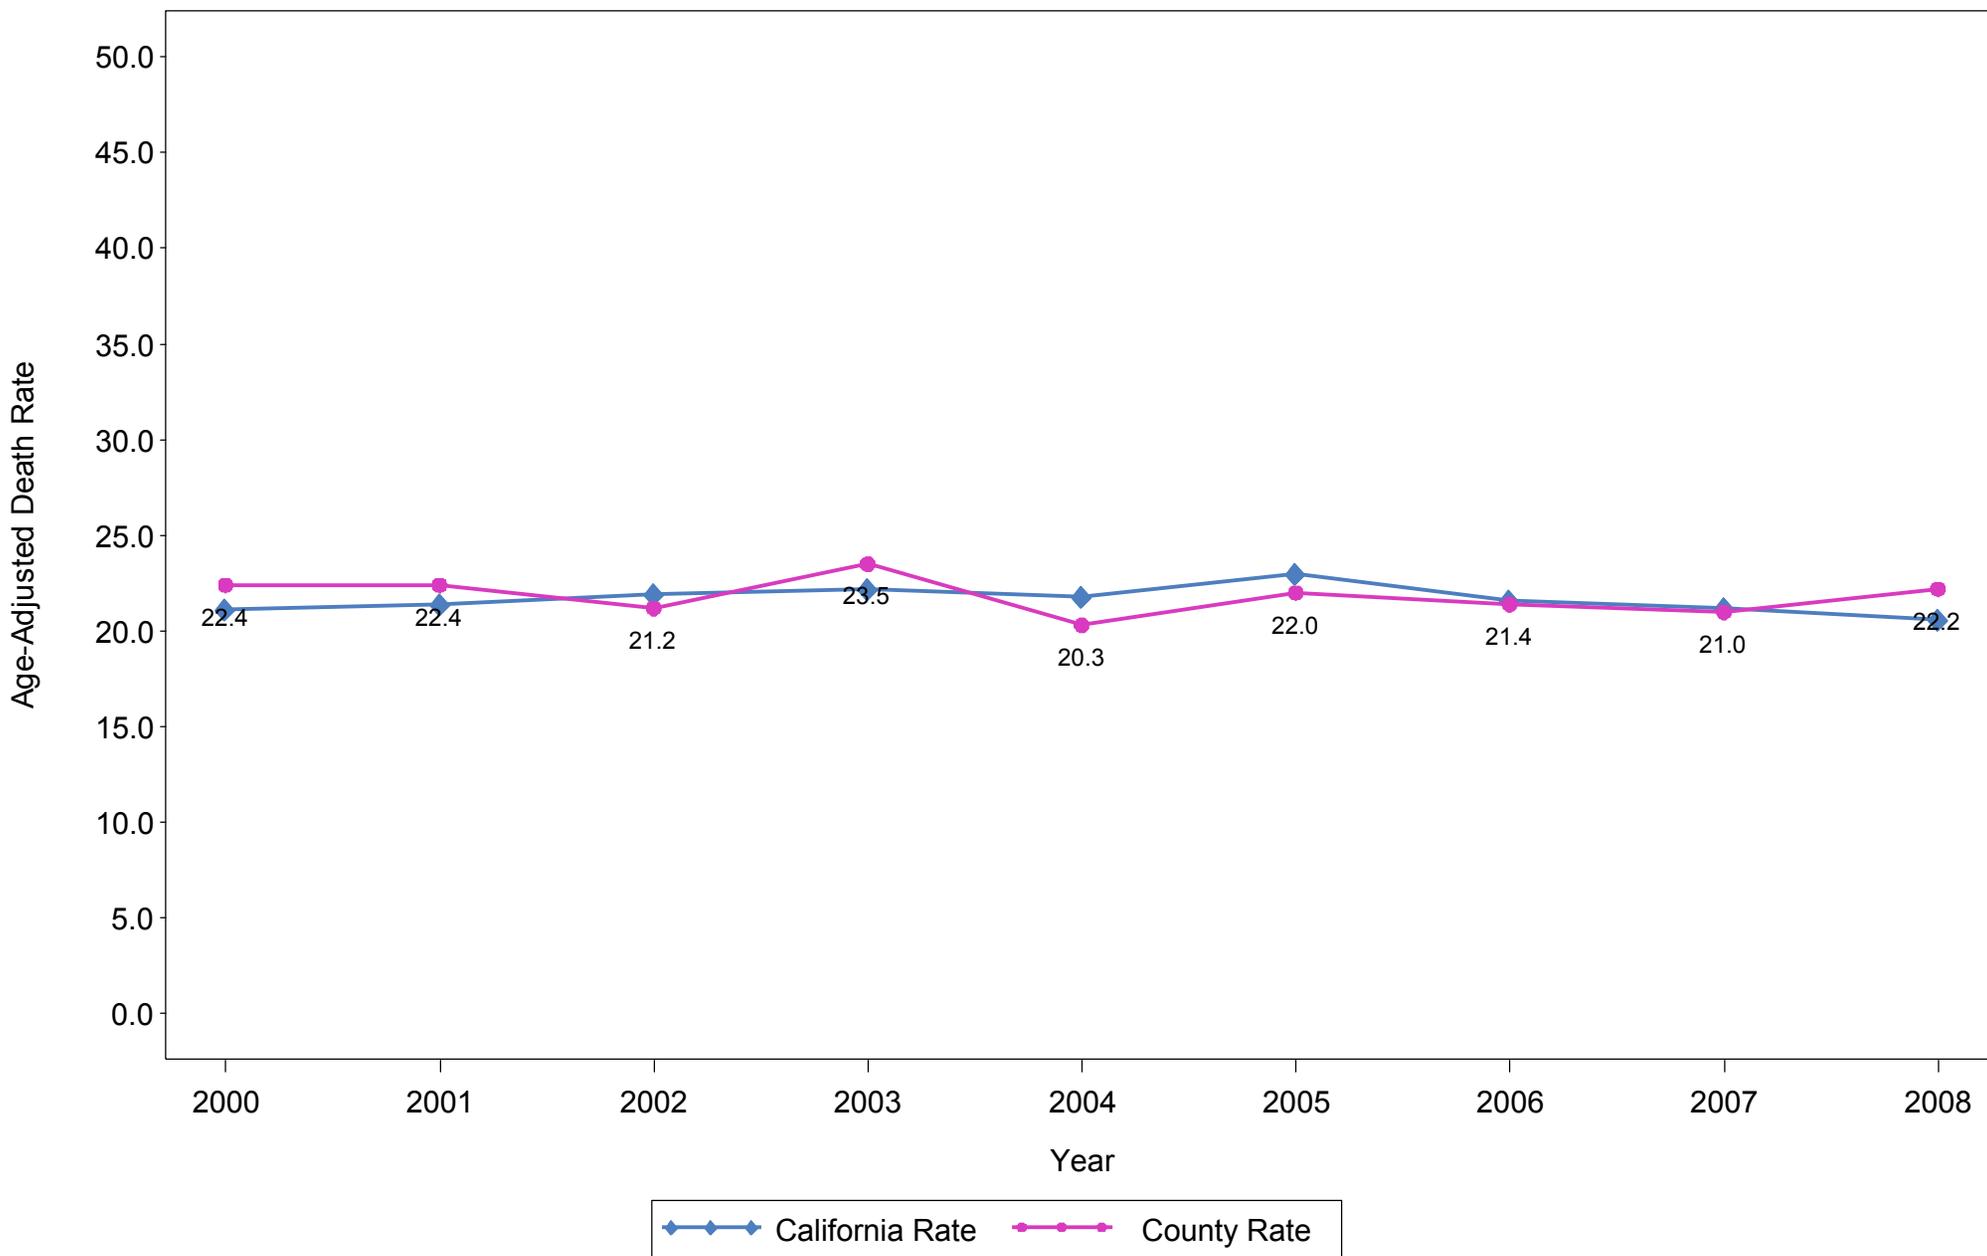

### Diabetes Age-Adjusted Death Rates, 2000-2008 Ventura County

County showed a statistically significant trend over the period examined. See Technical Notes for information about statistical significance.

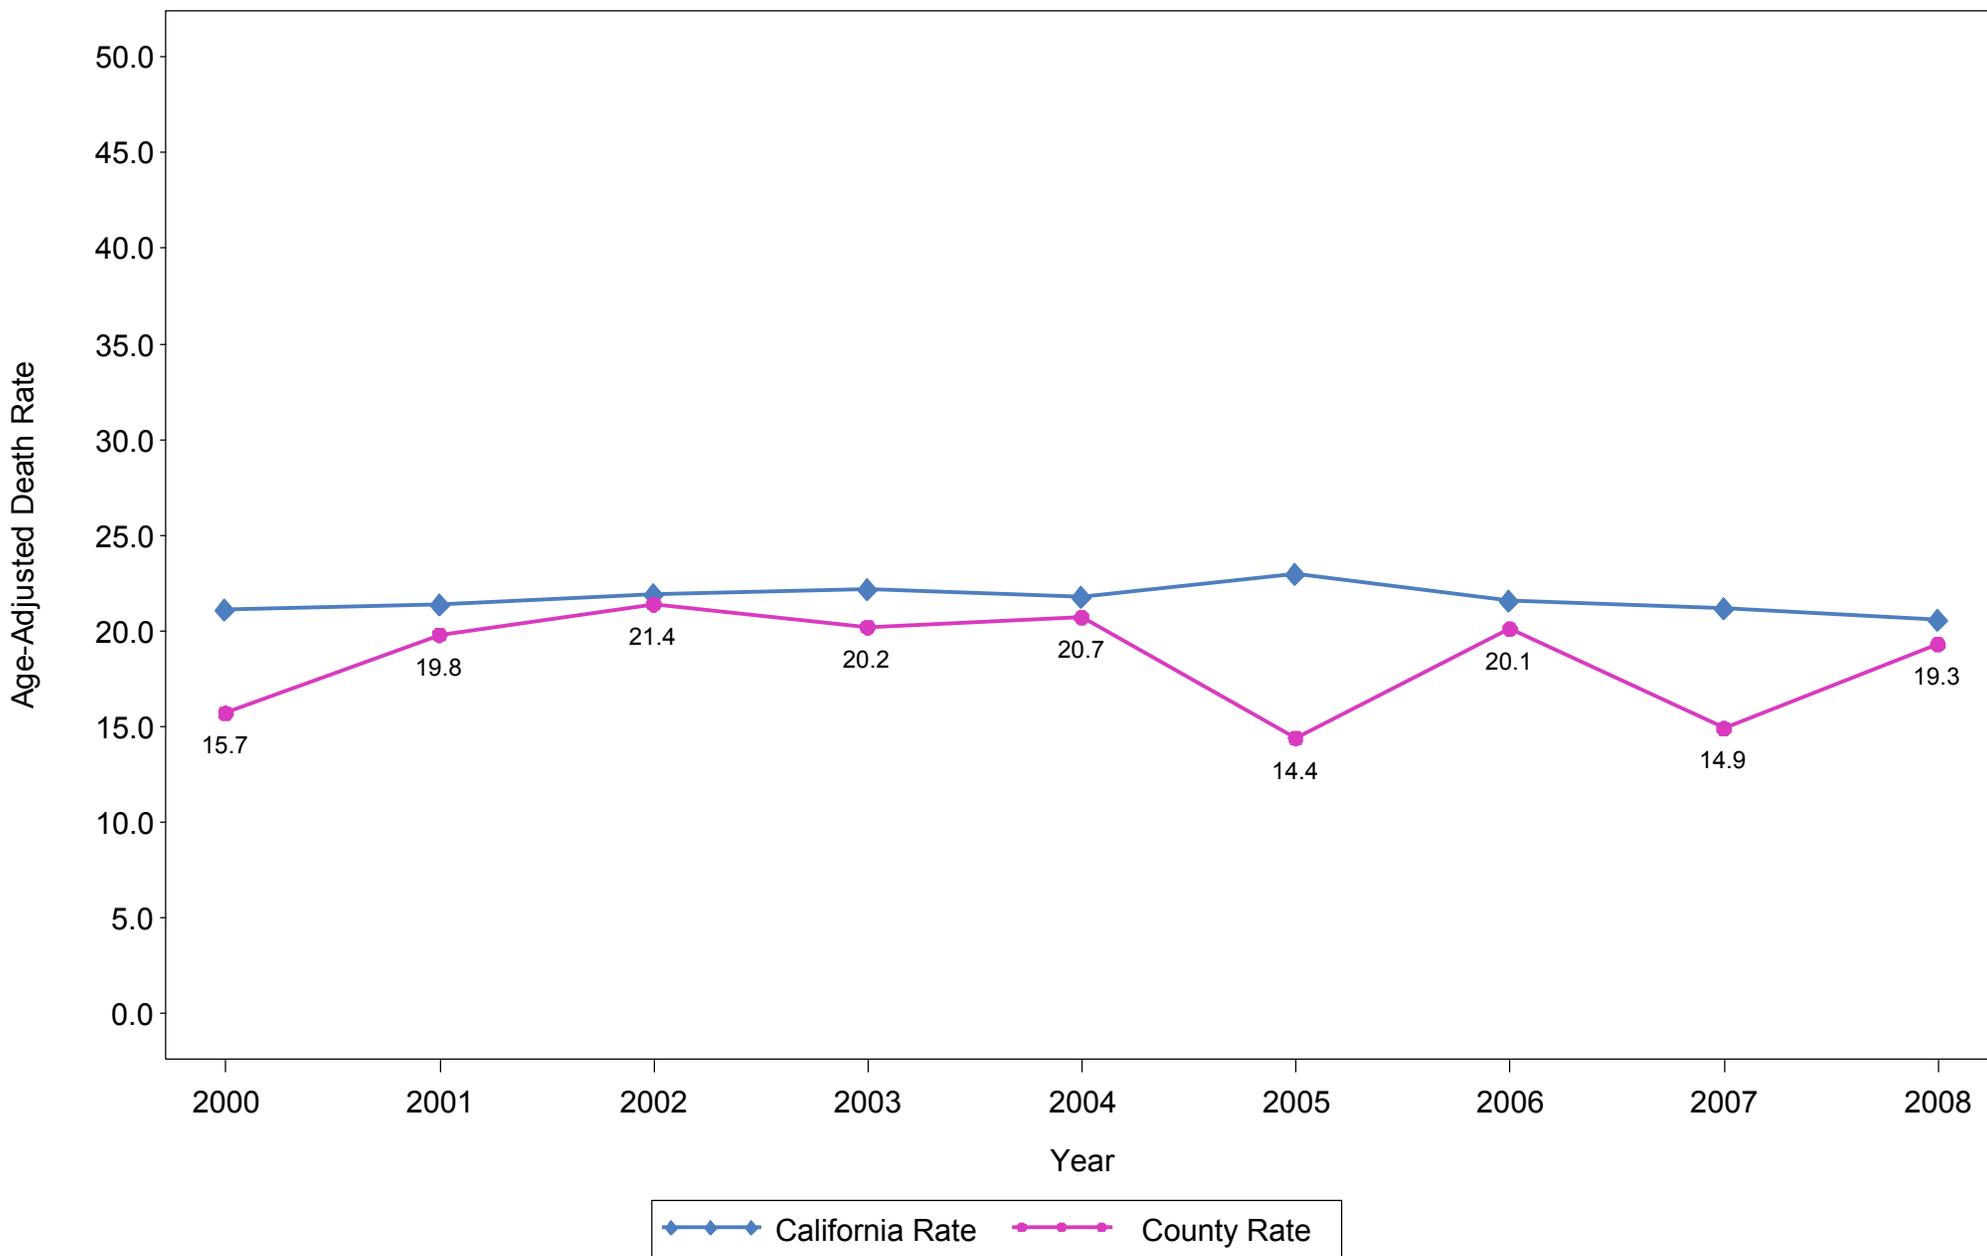

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Alameda County

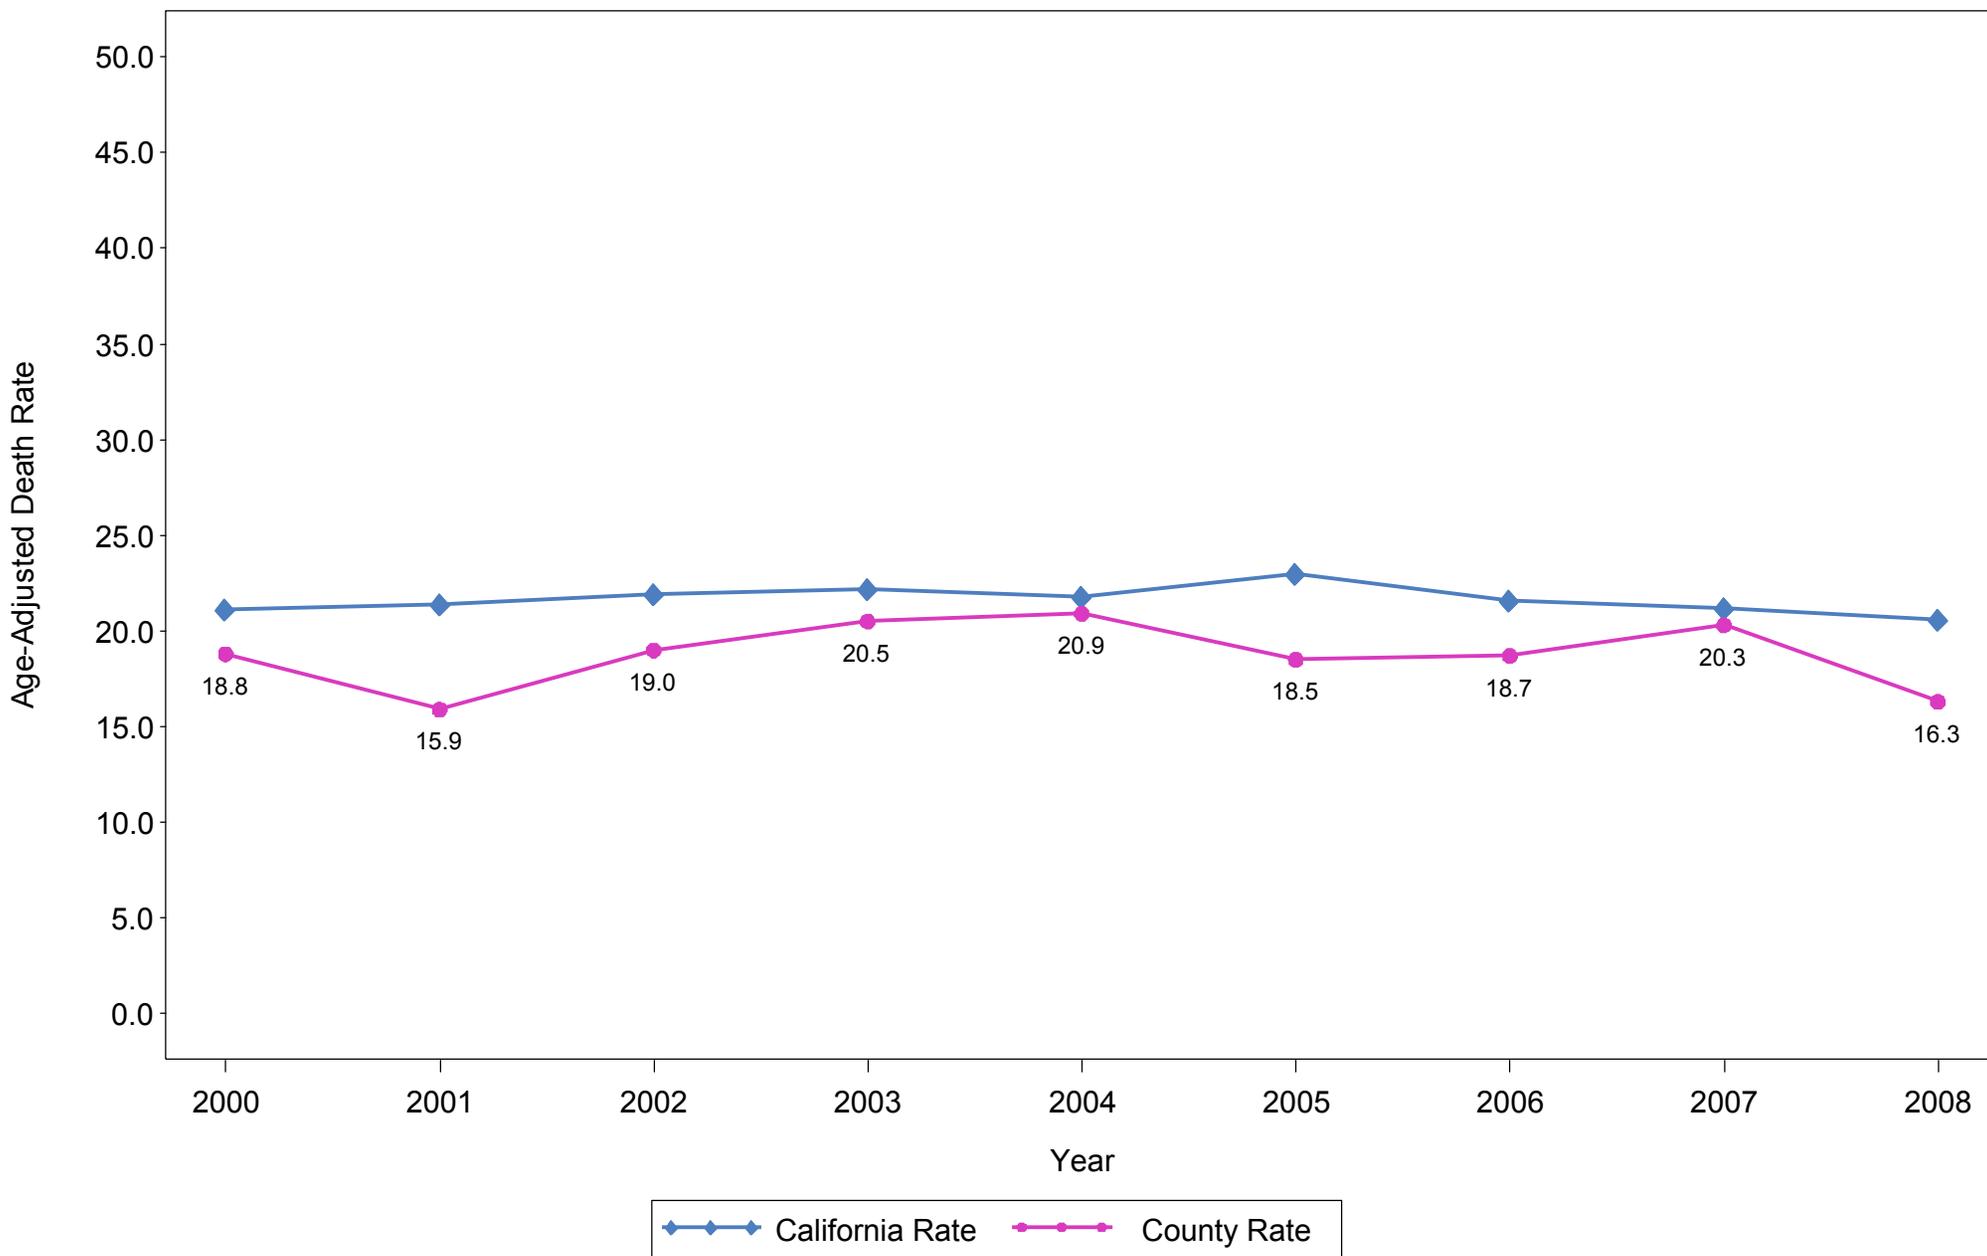

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Butte County

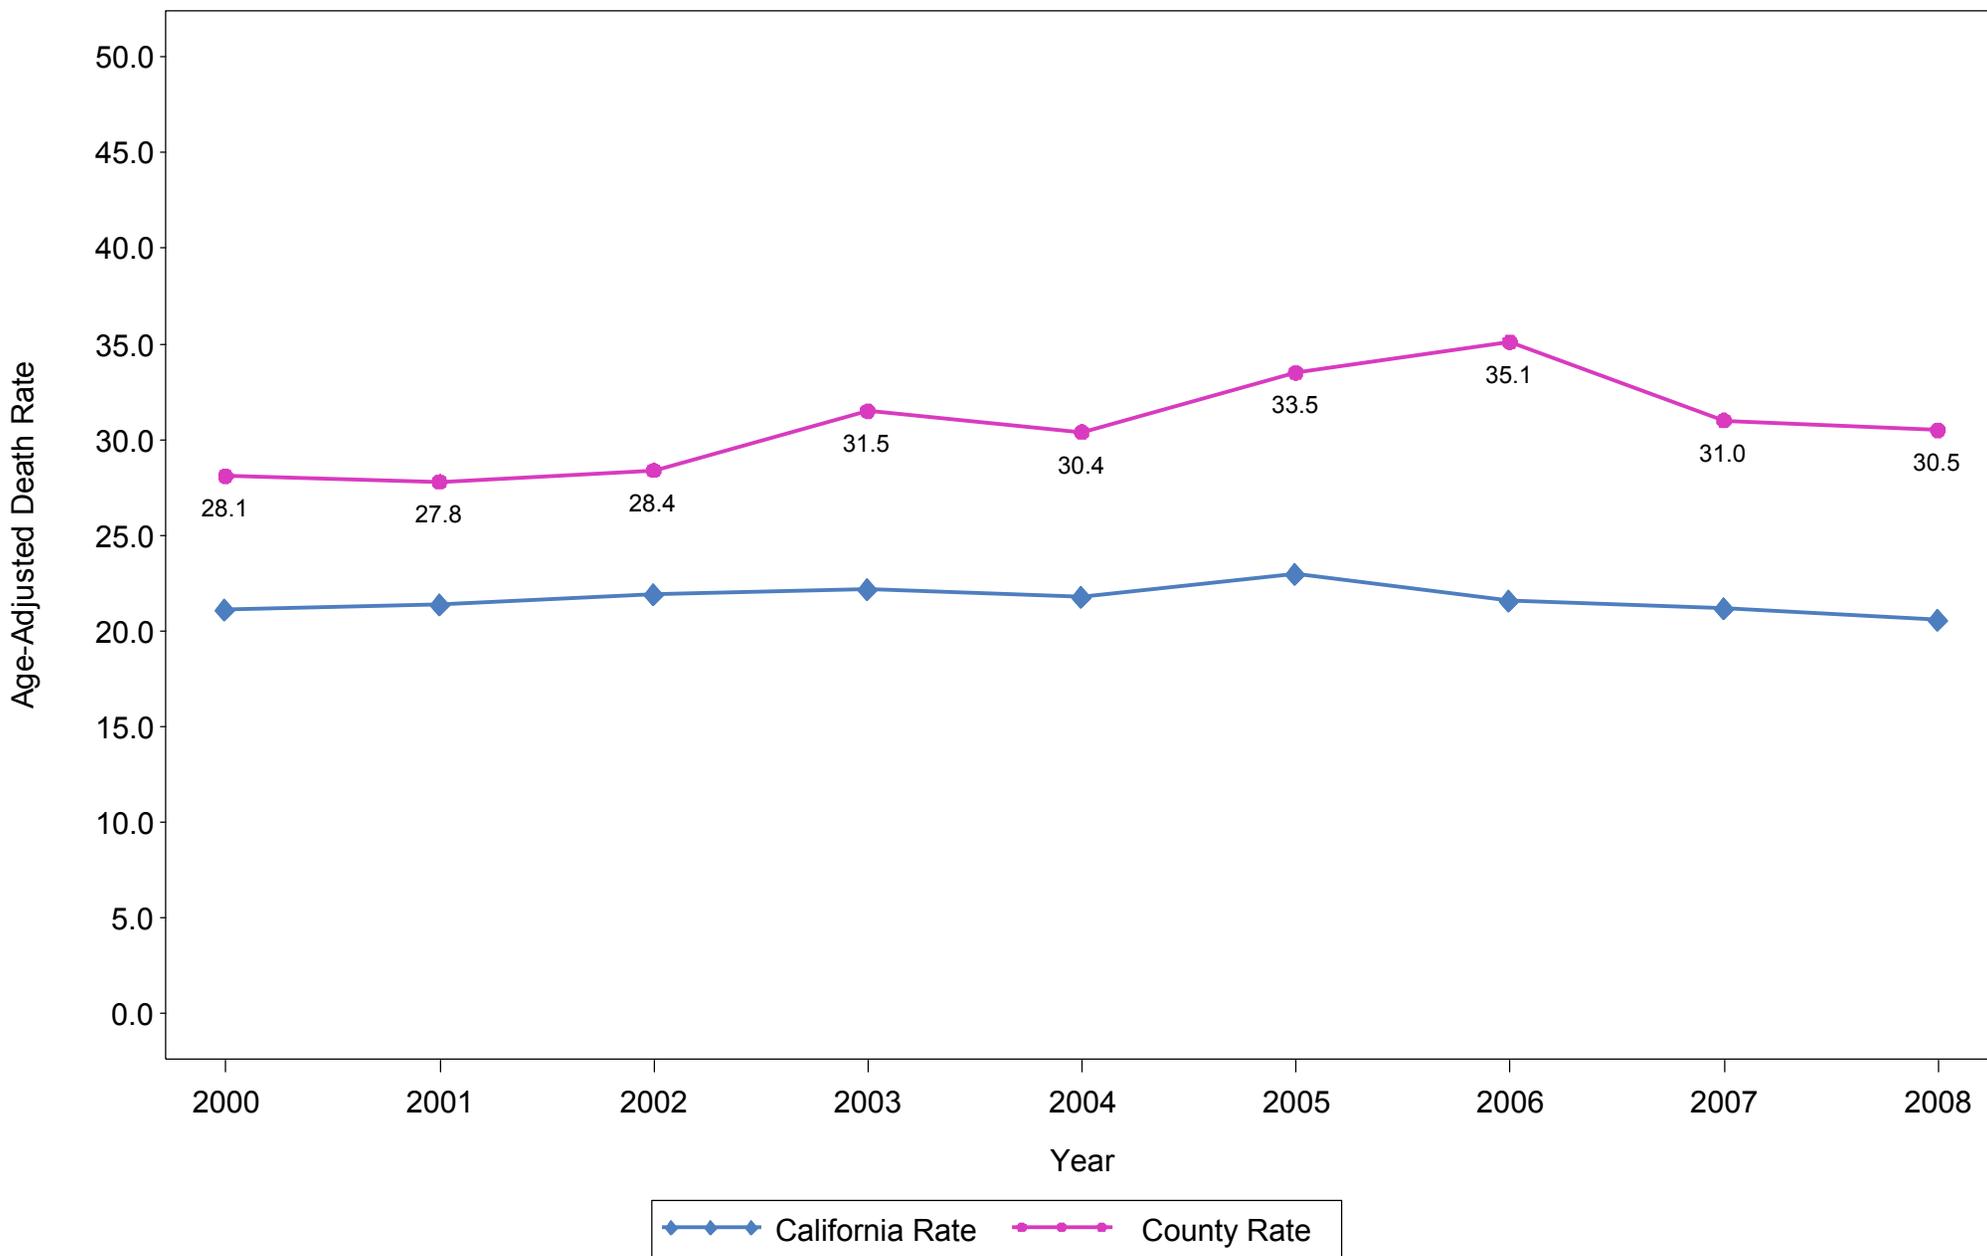

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Contra Costa County

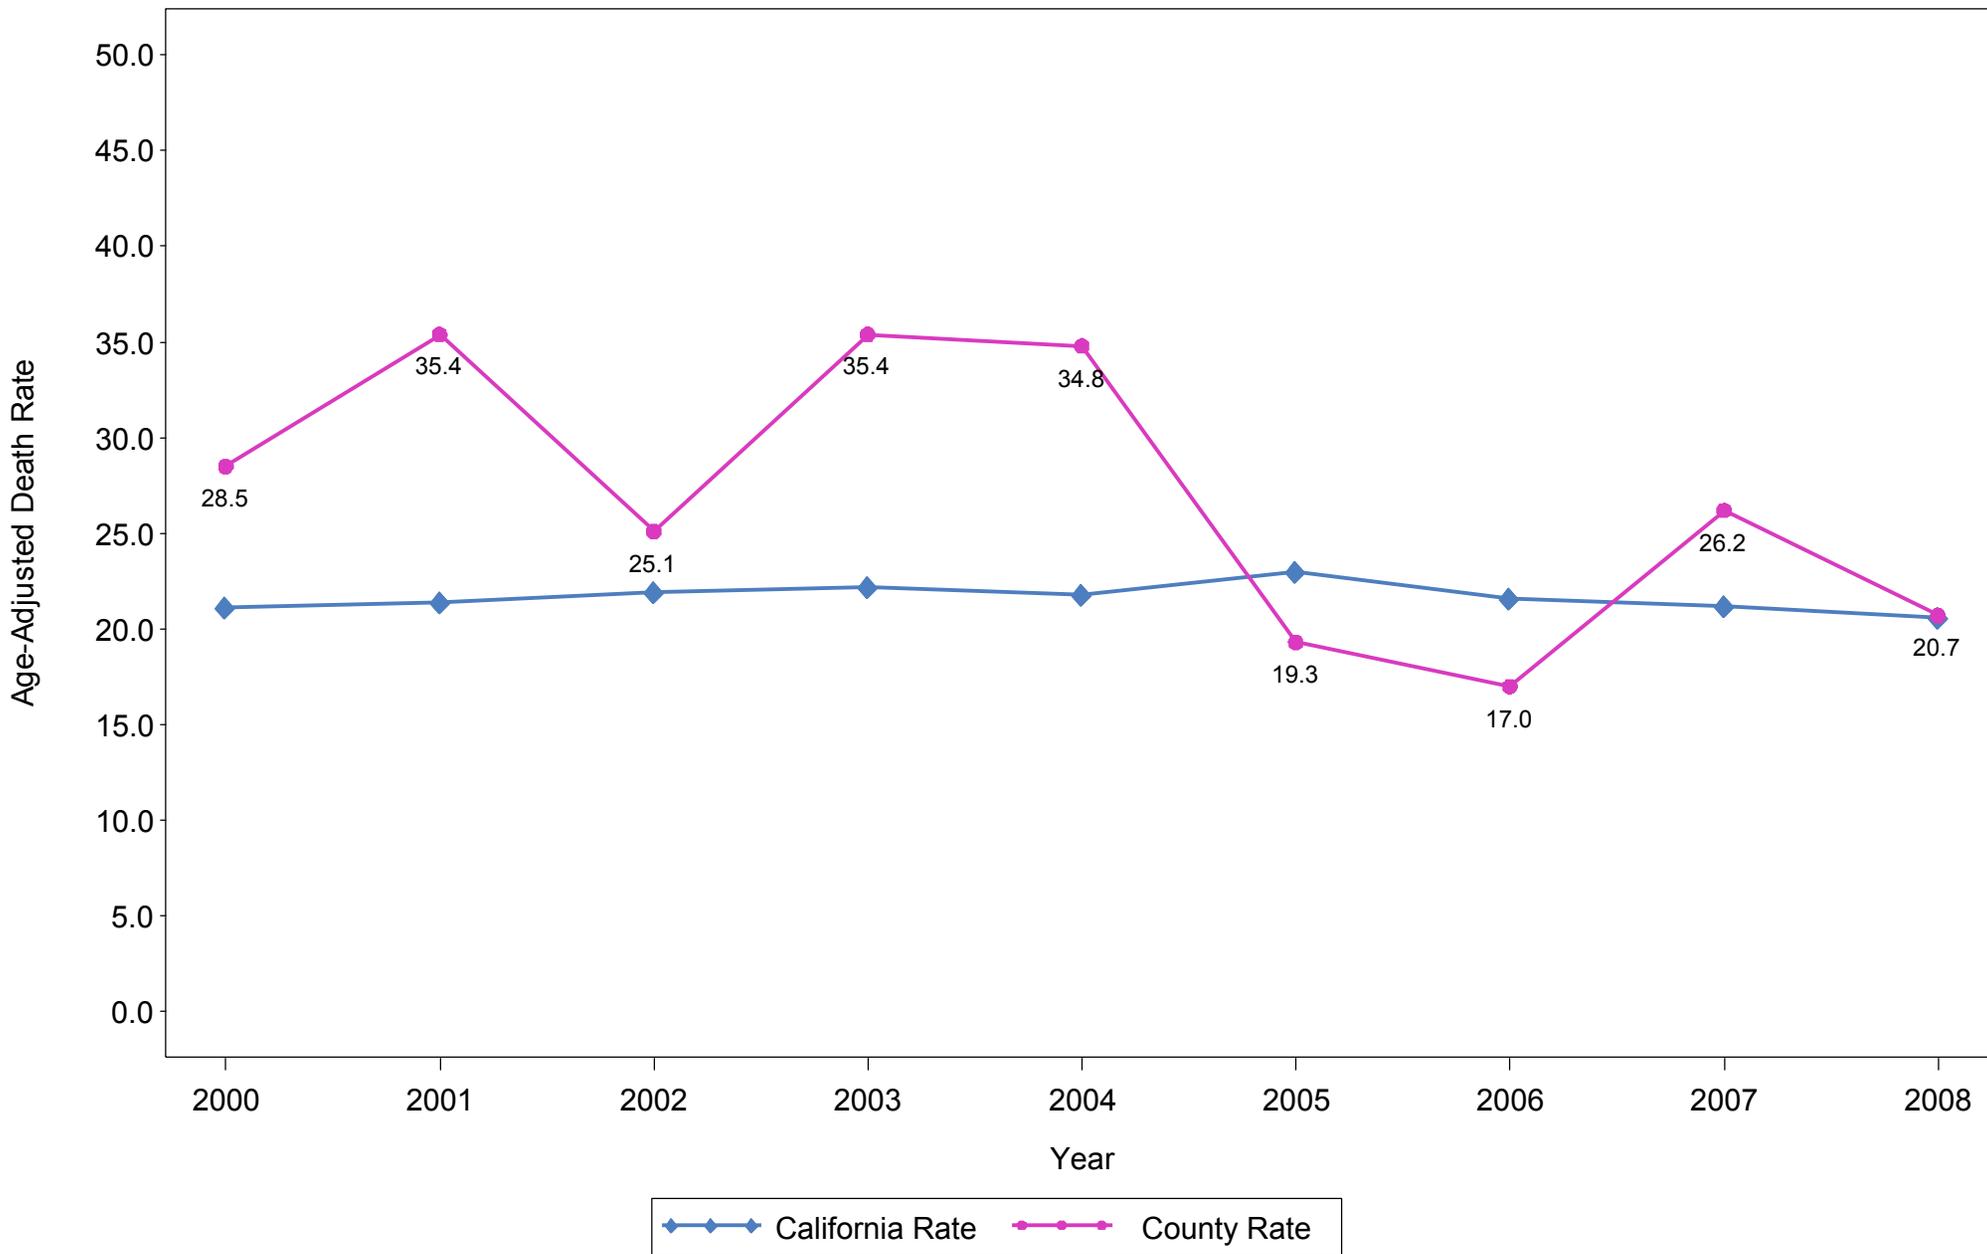

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Fresno County

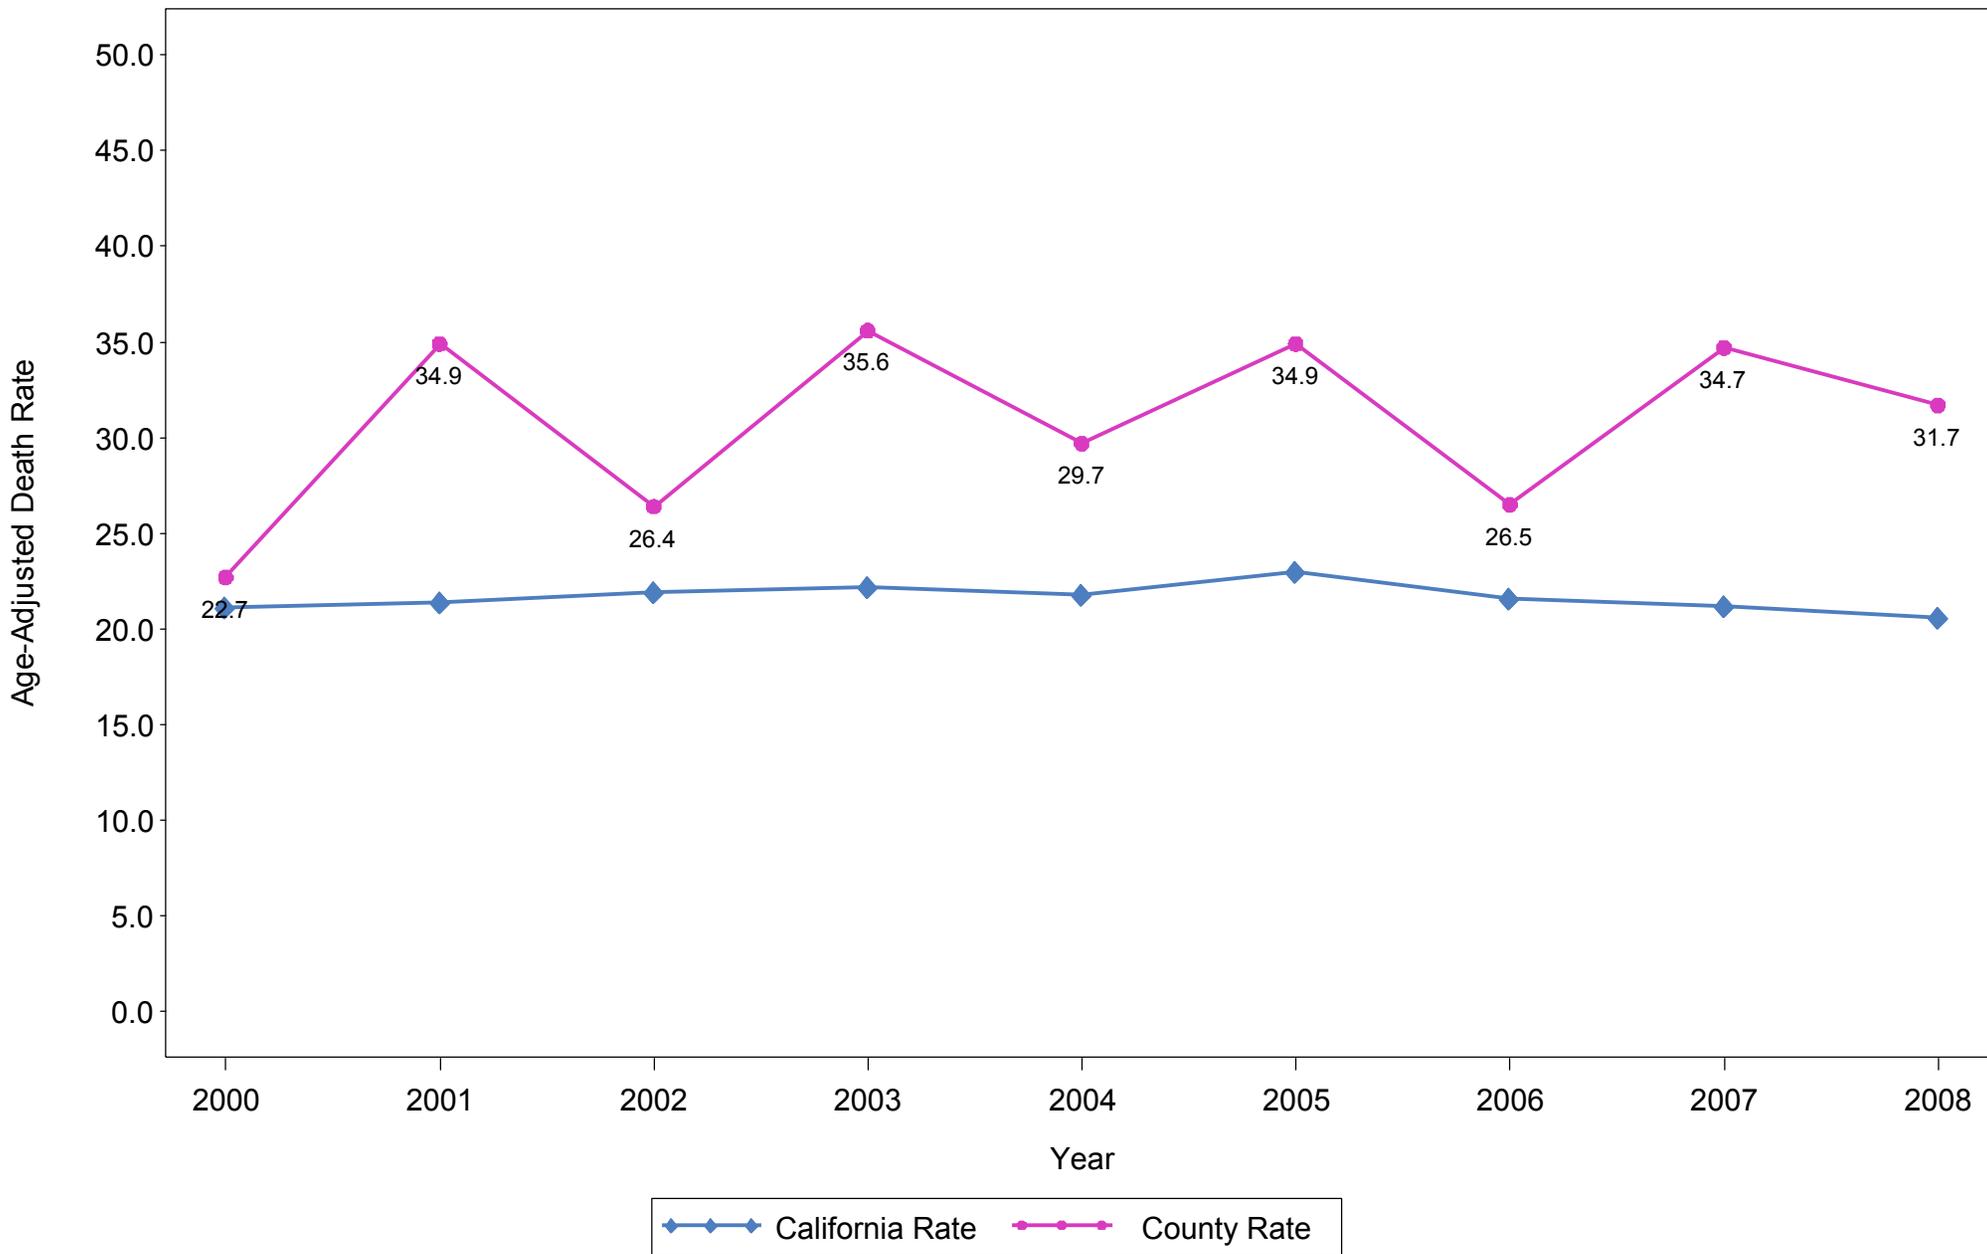

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Humboldt County

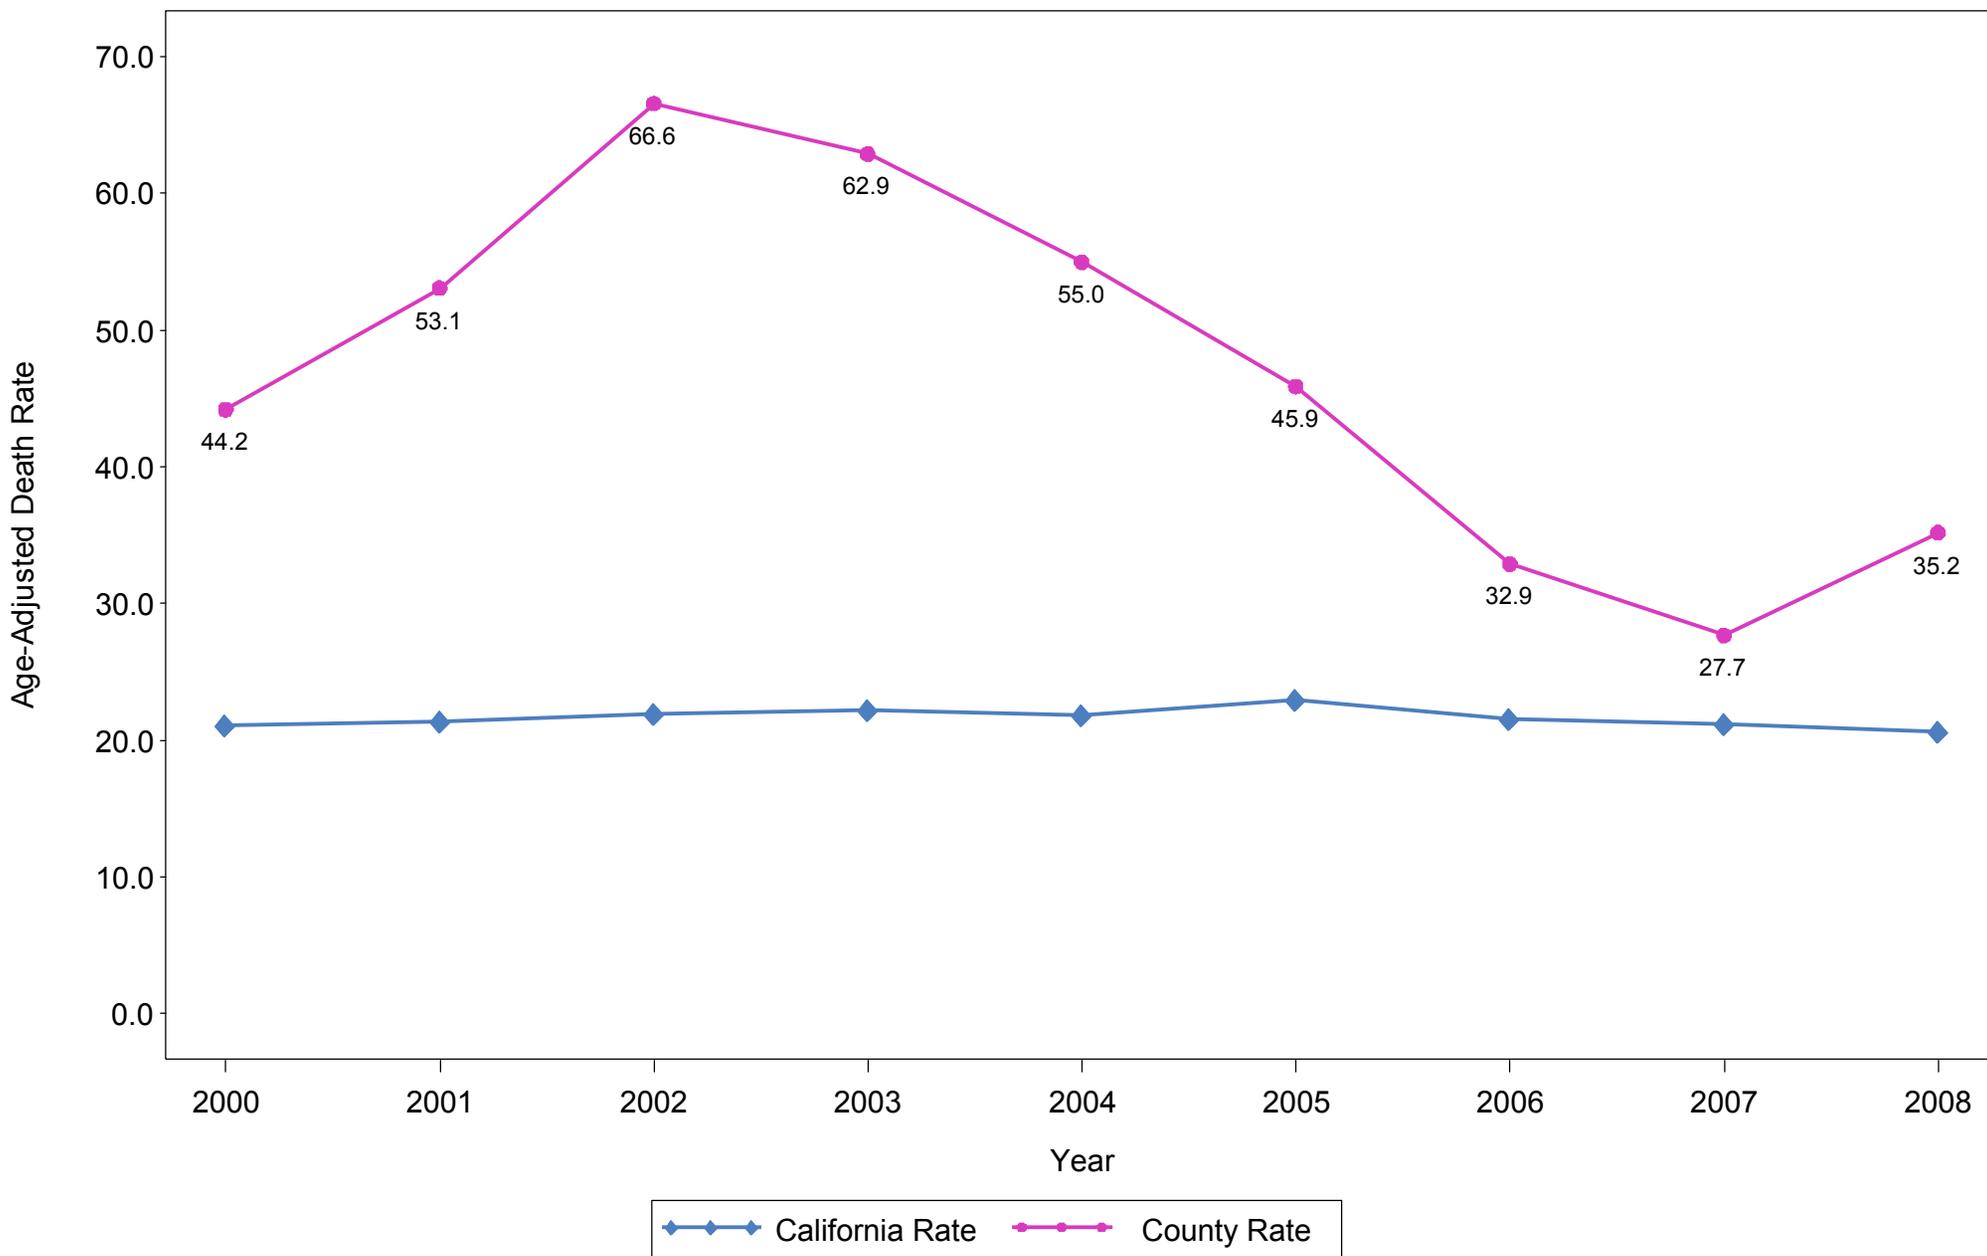

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Imperial County

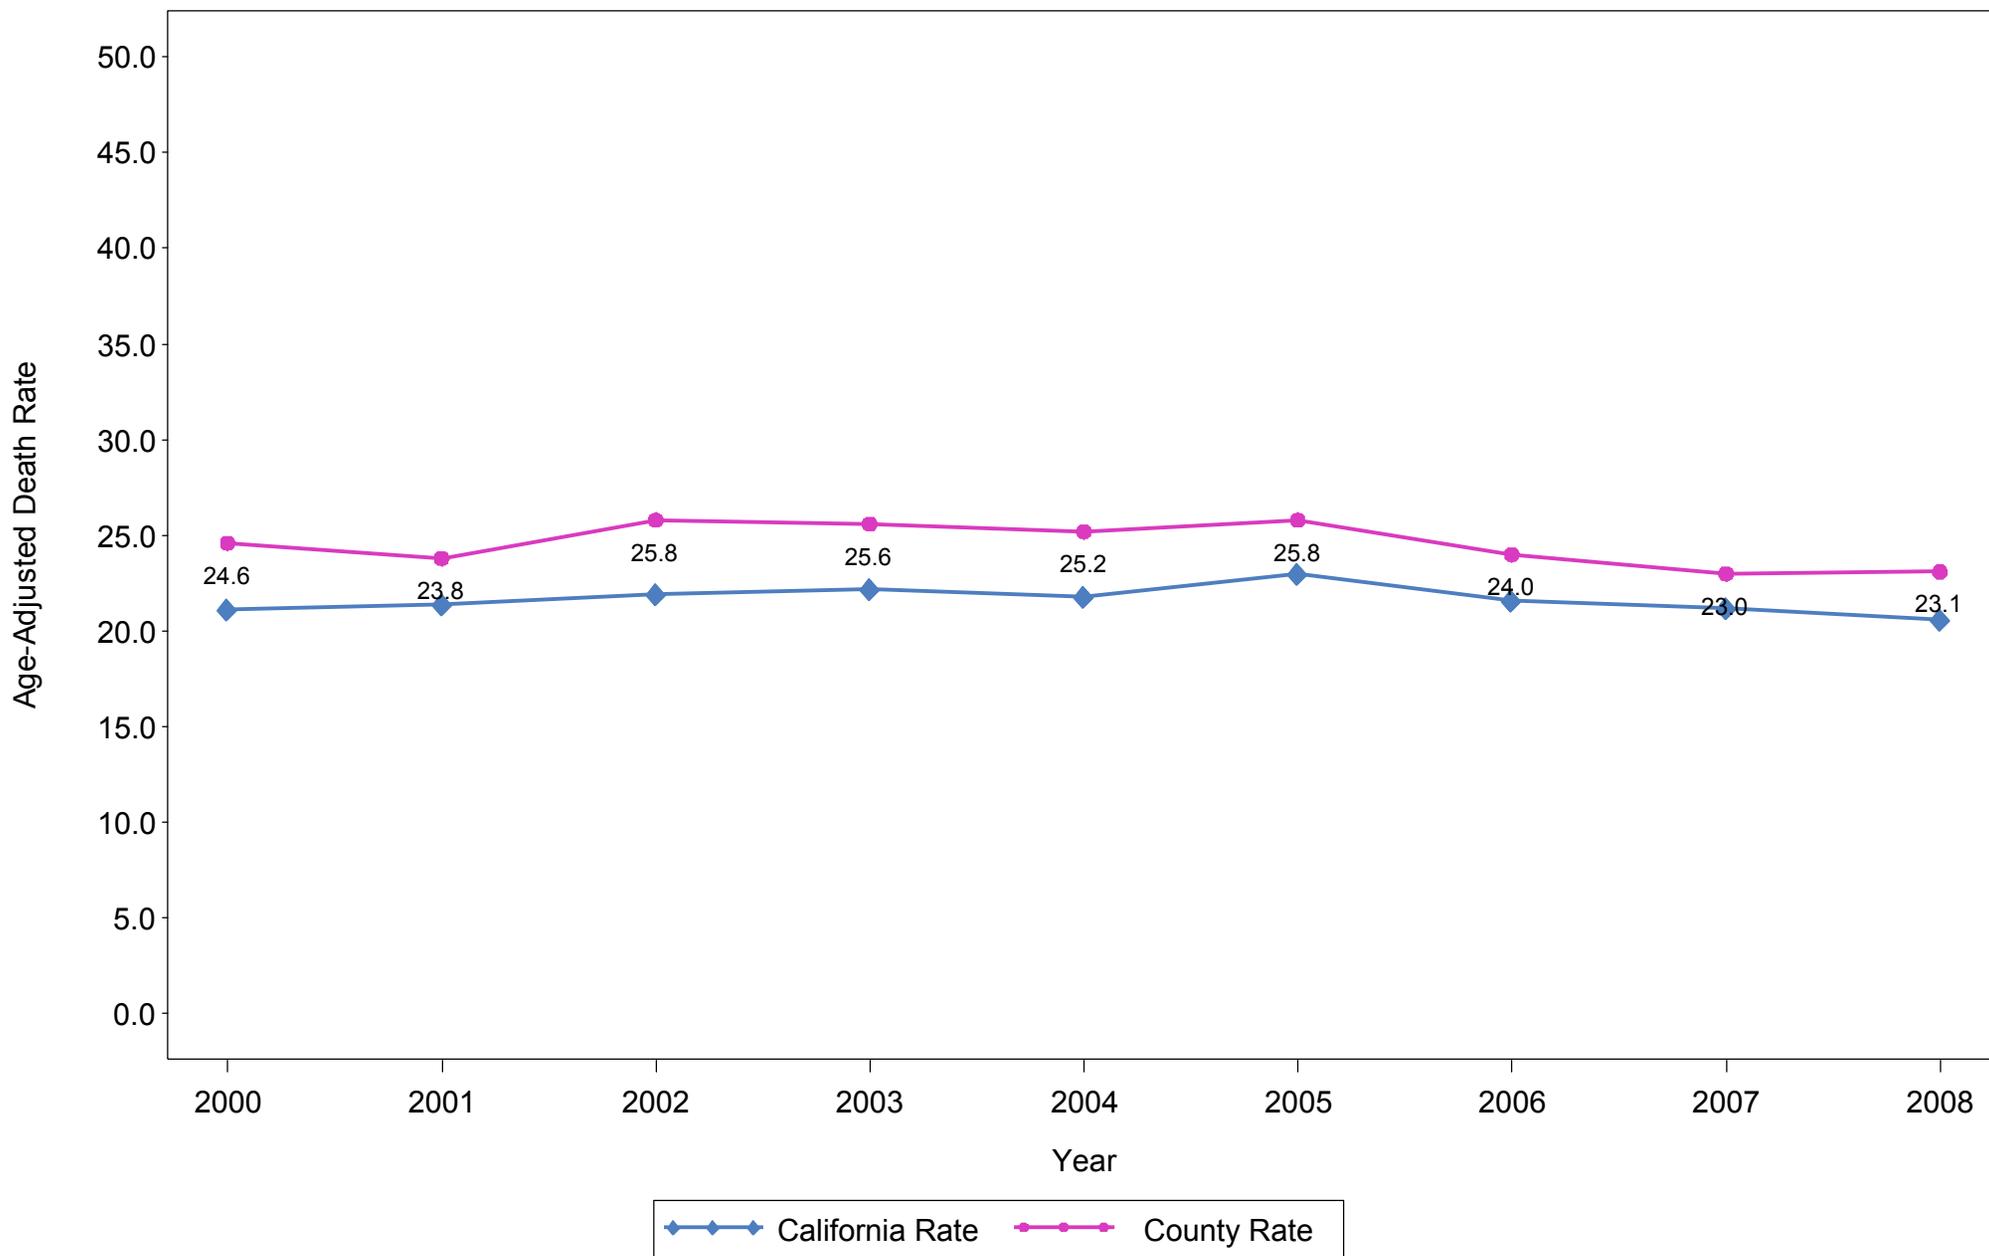

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

### Diabetes Age-Adjusted Death Rates, 2000-2008 Kings County

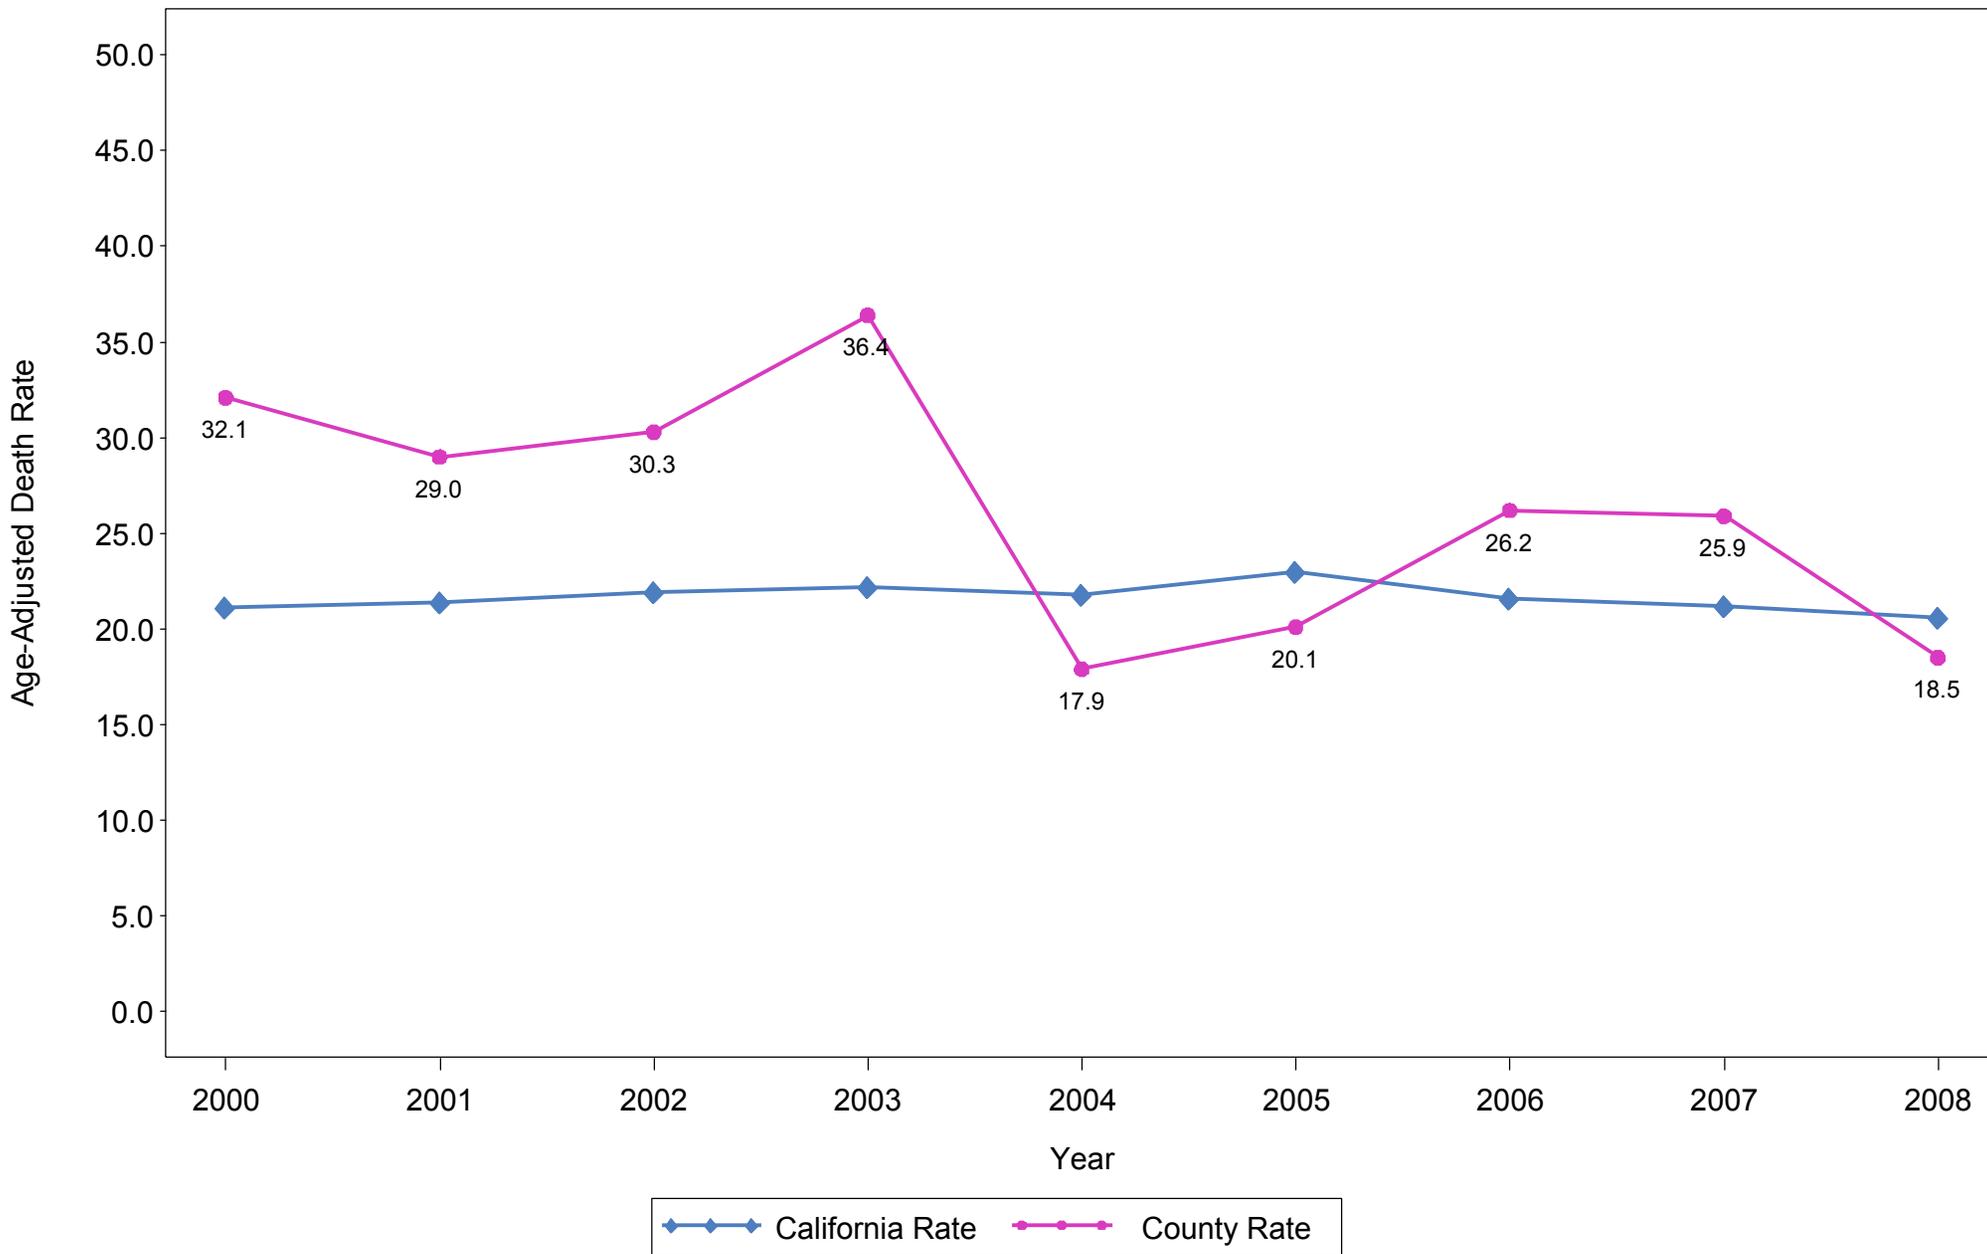

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Los Angeles County

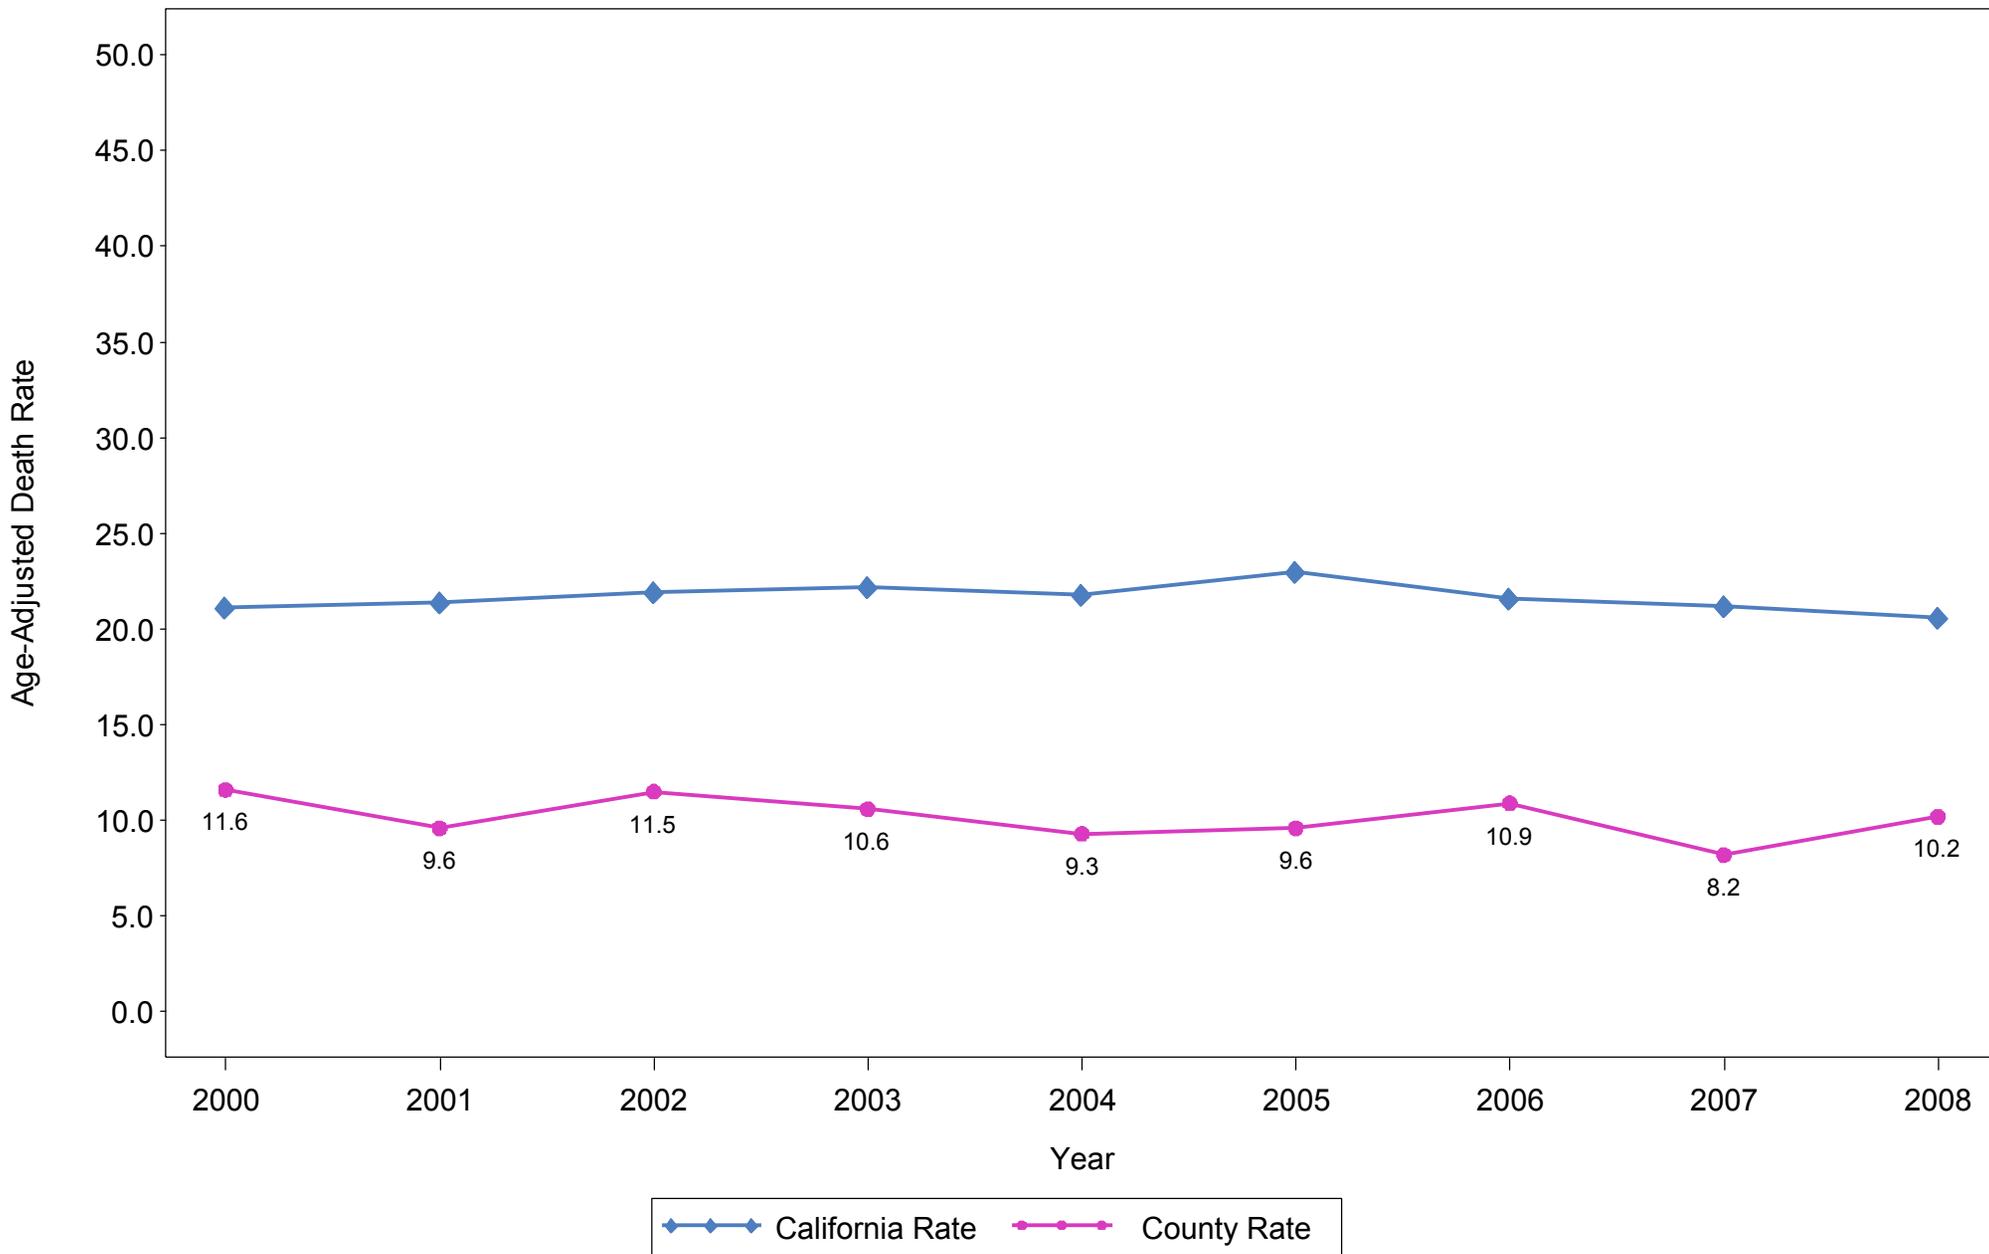

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Madera County

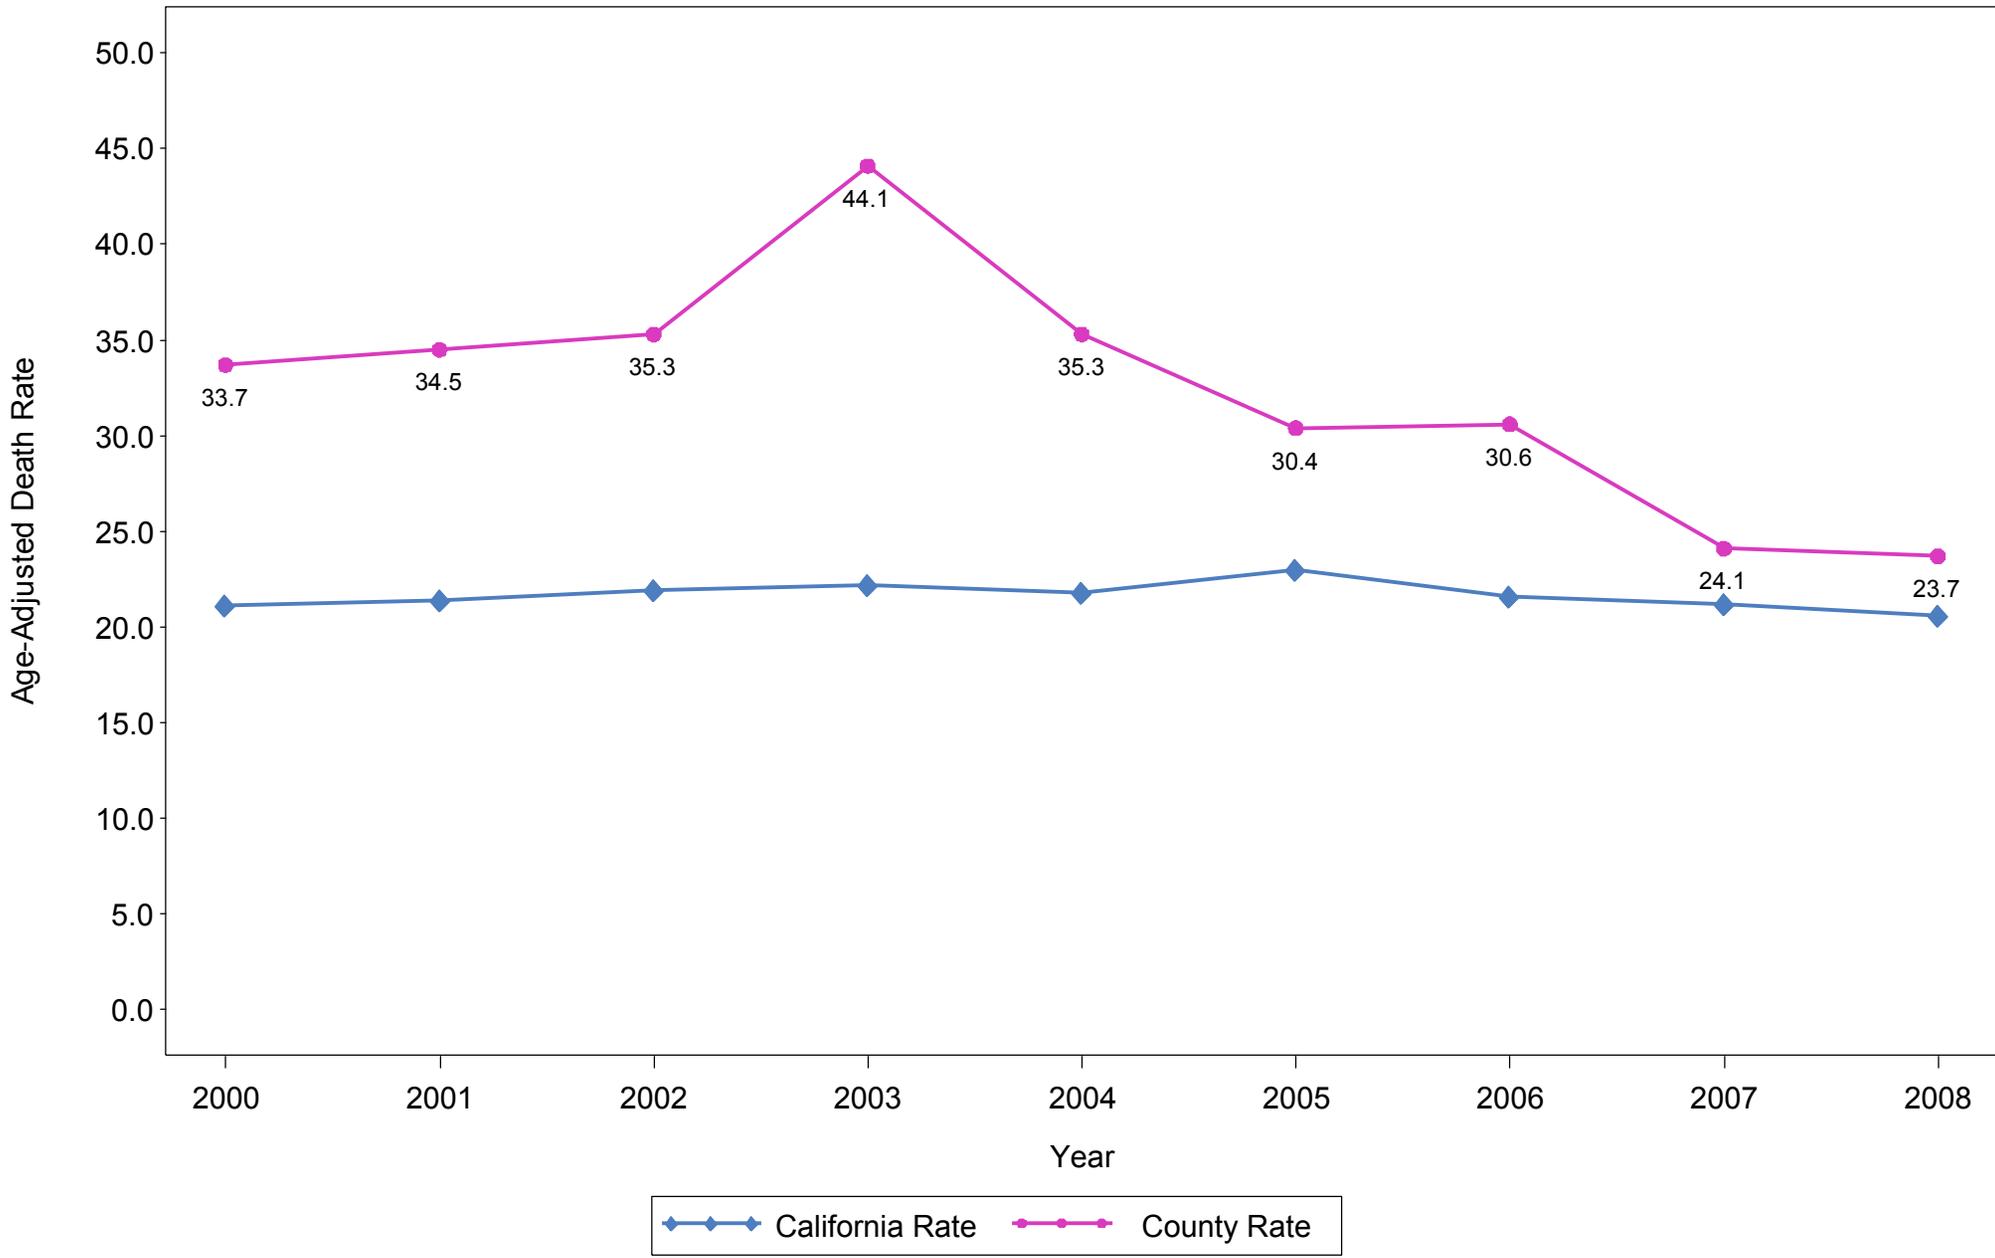

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Marin County

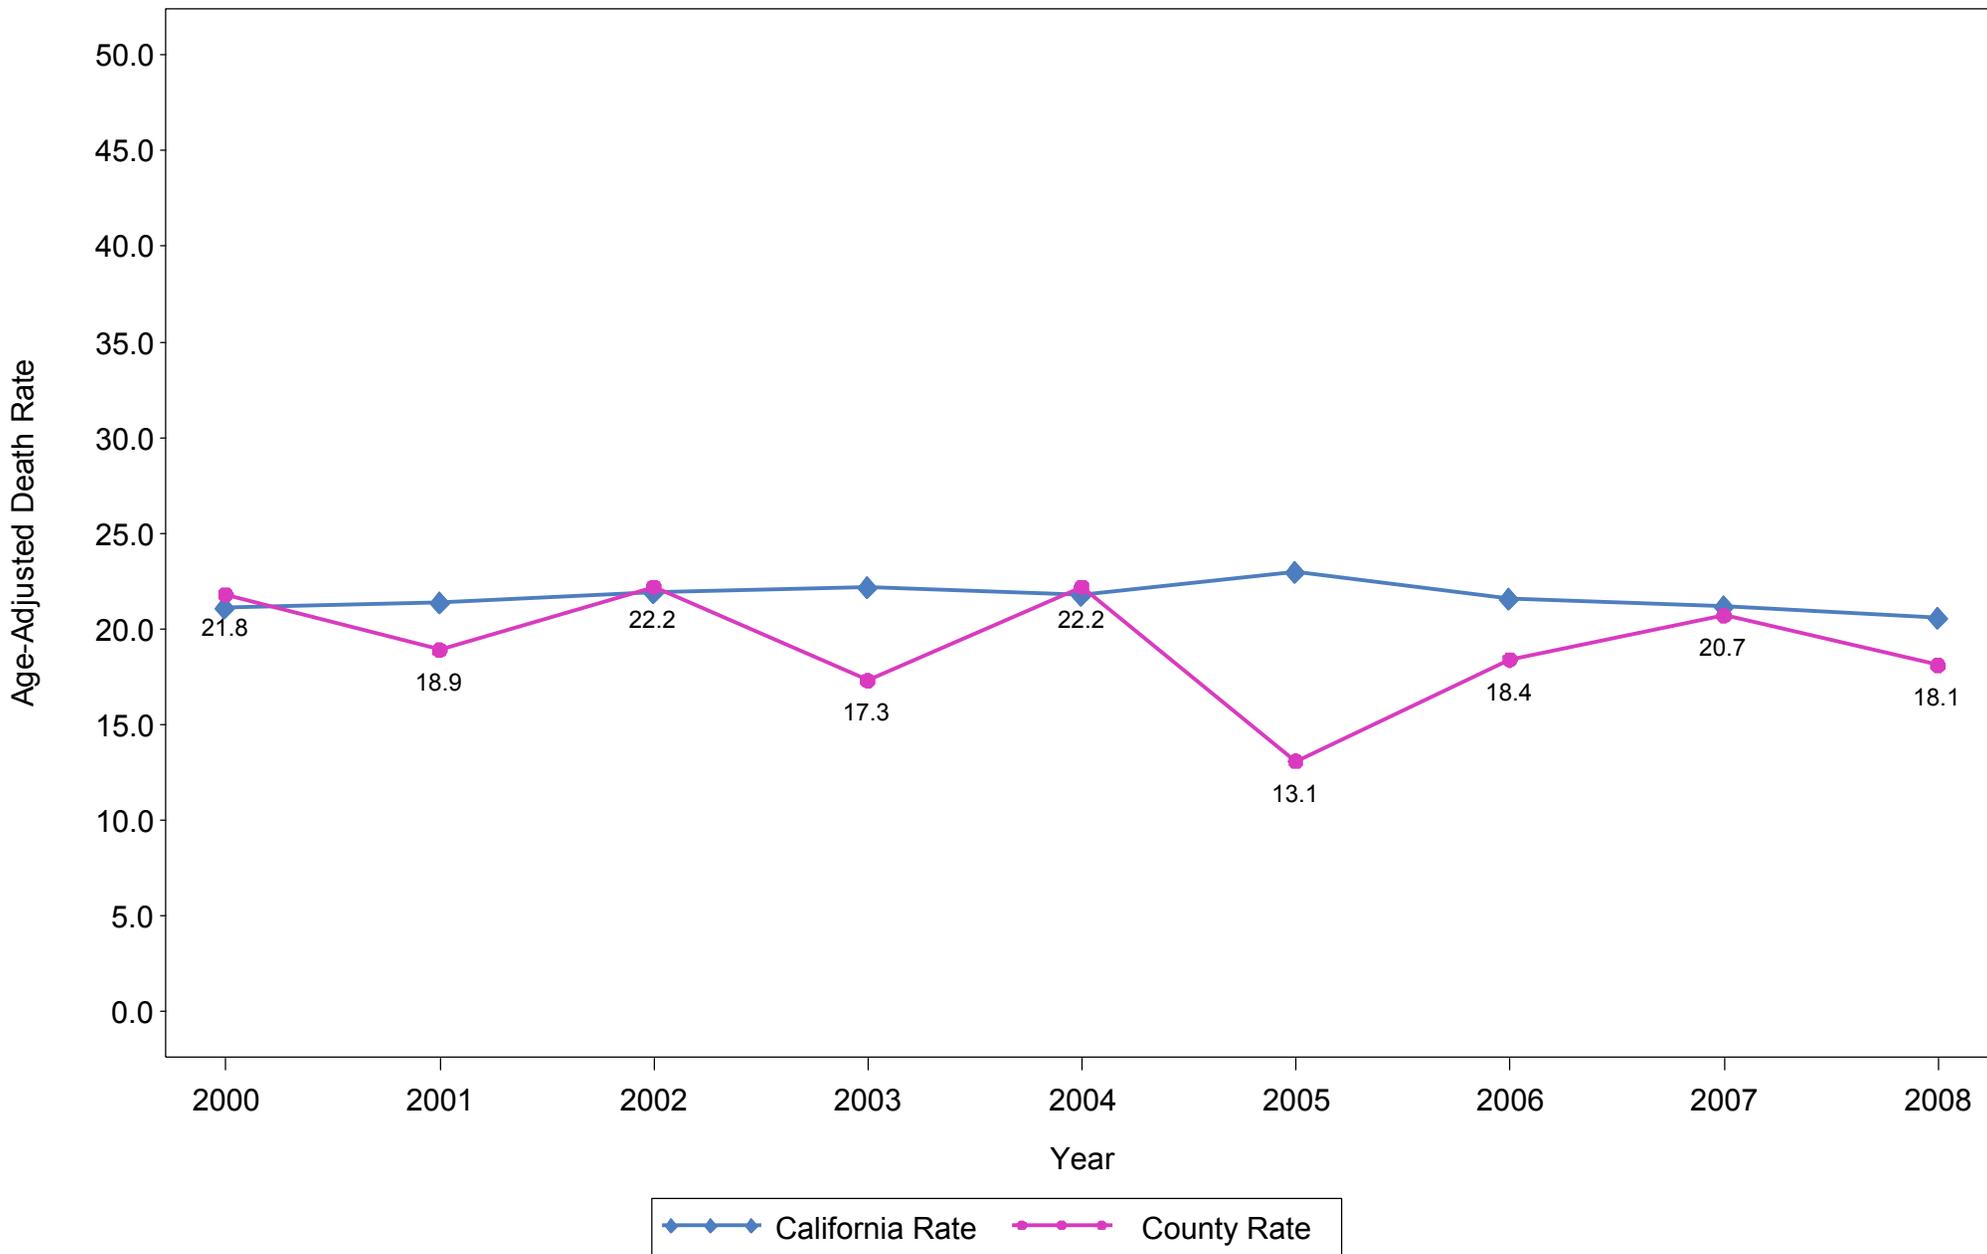

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Merced County

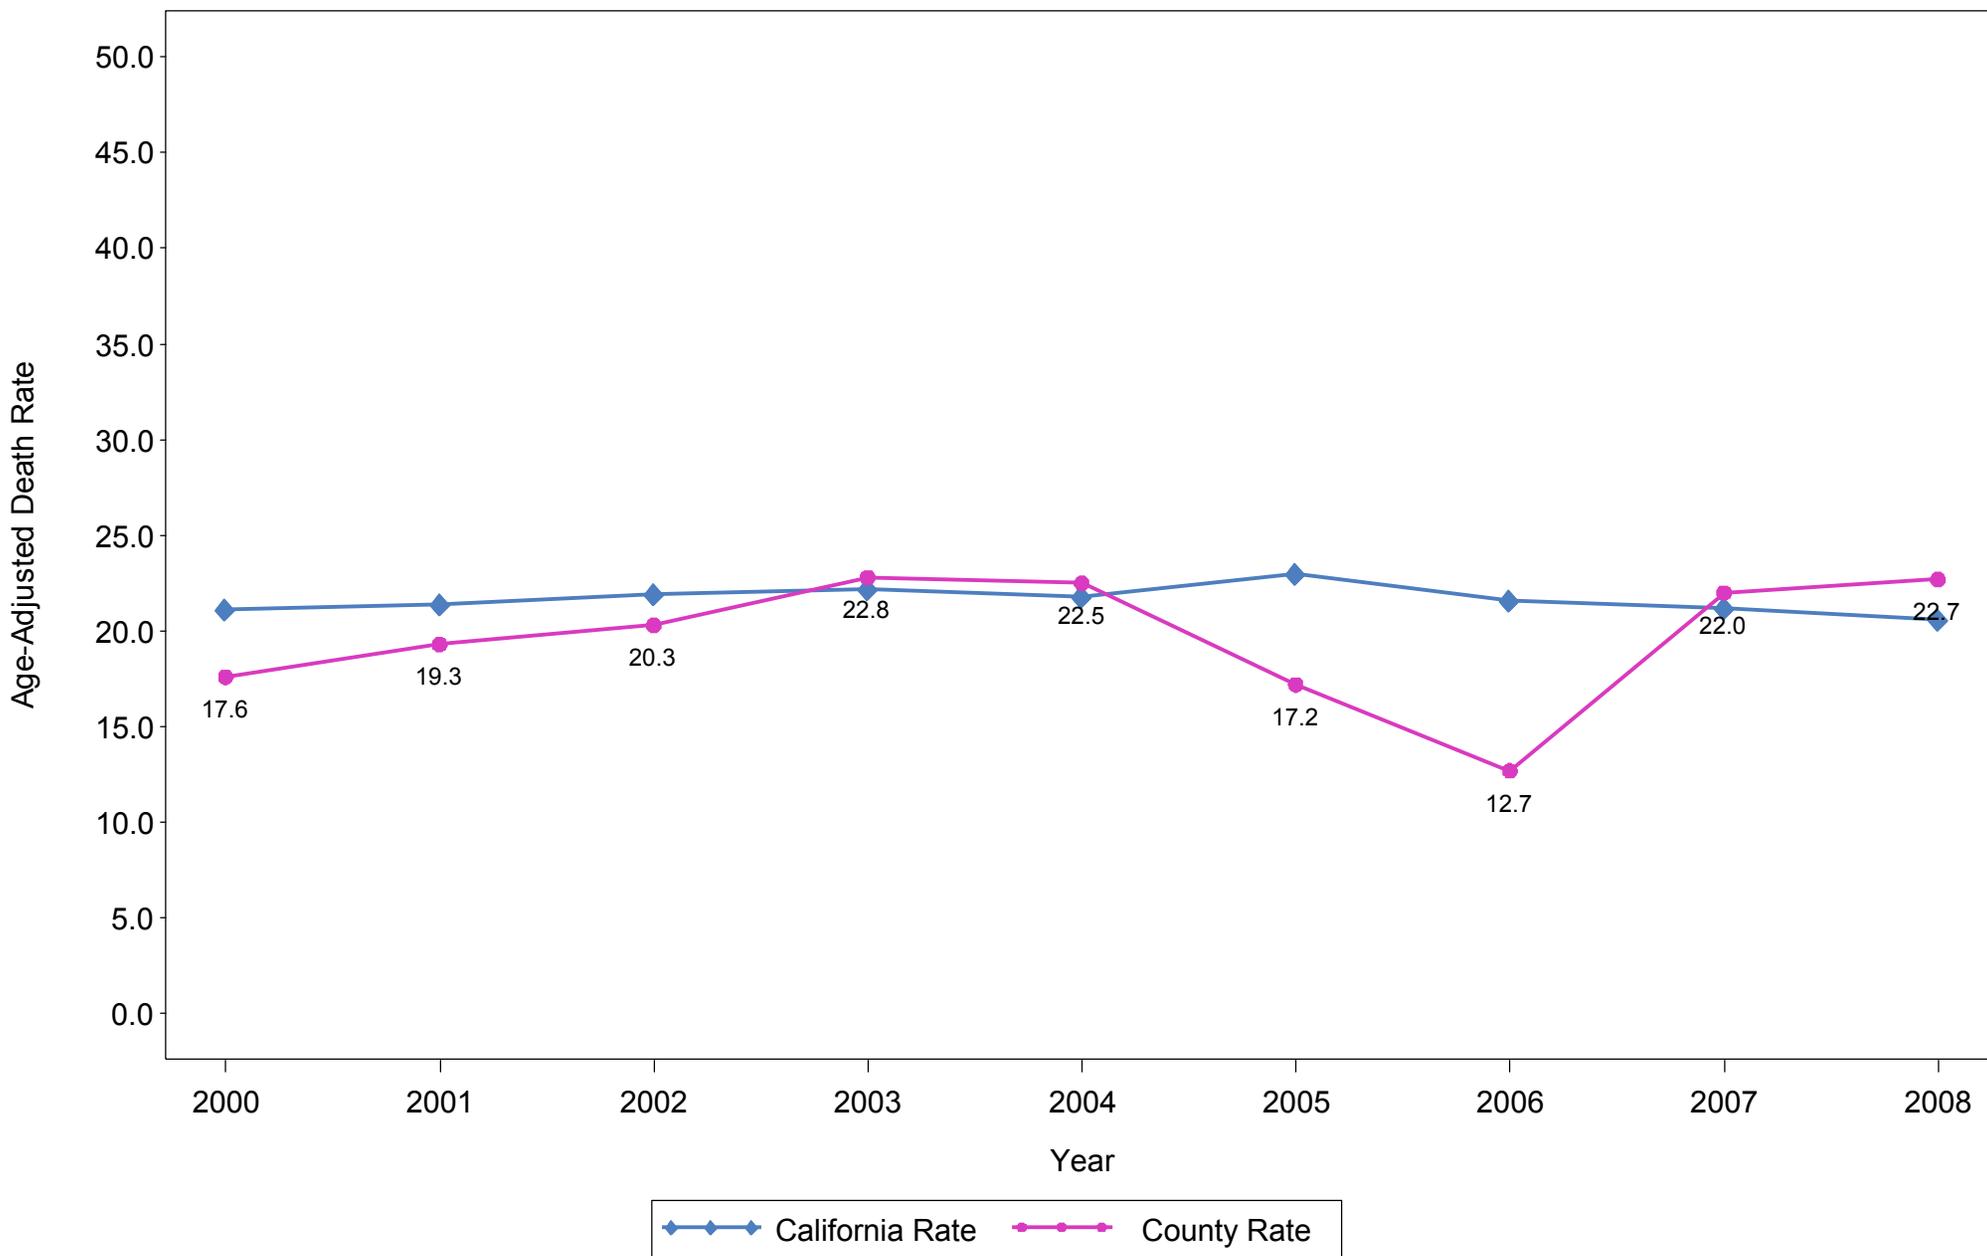

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Monterey County

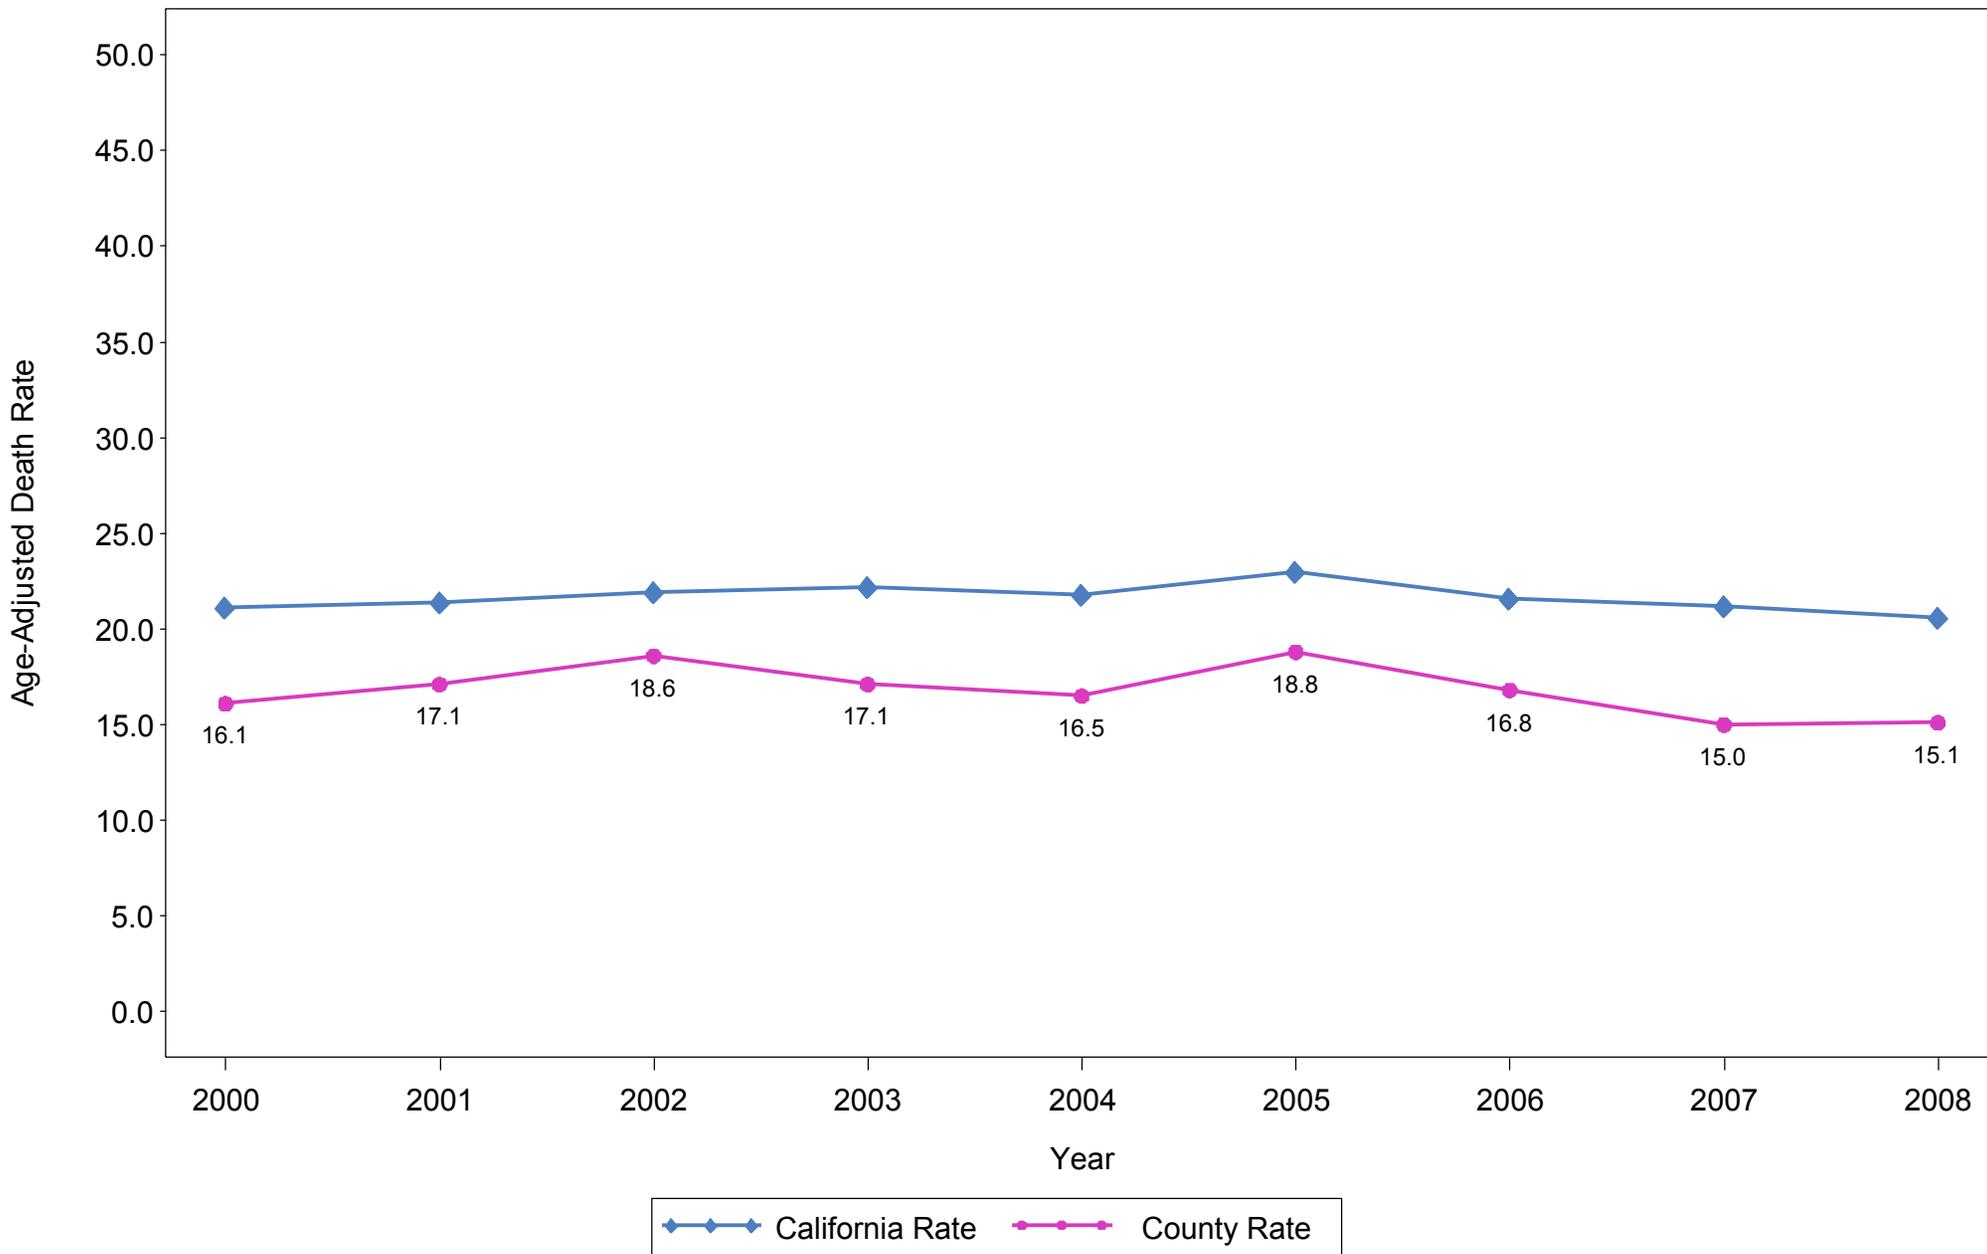

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Napa County

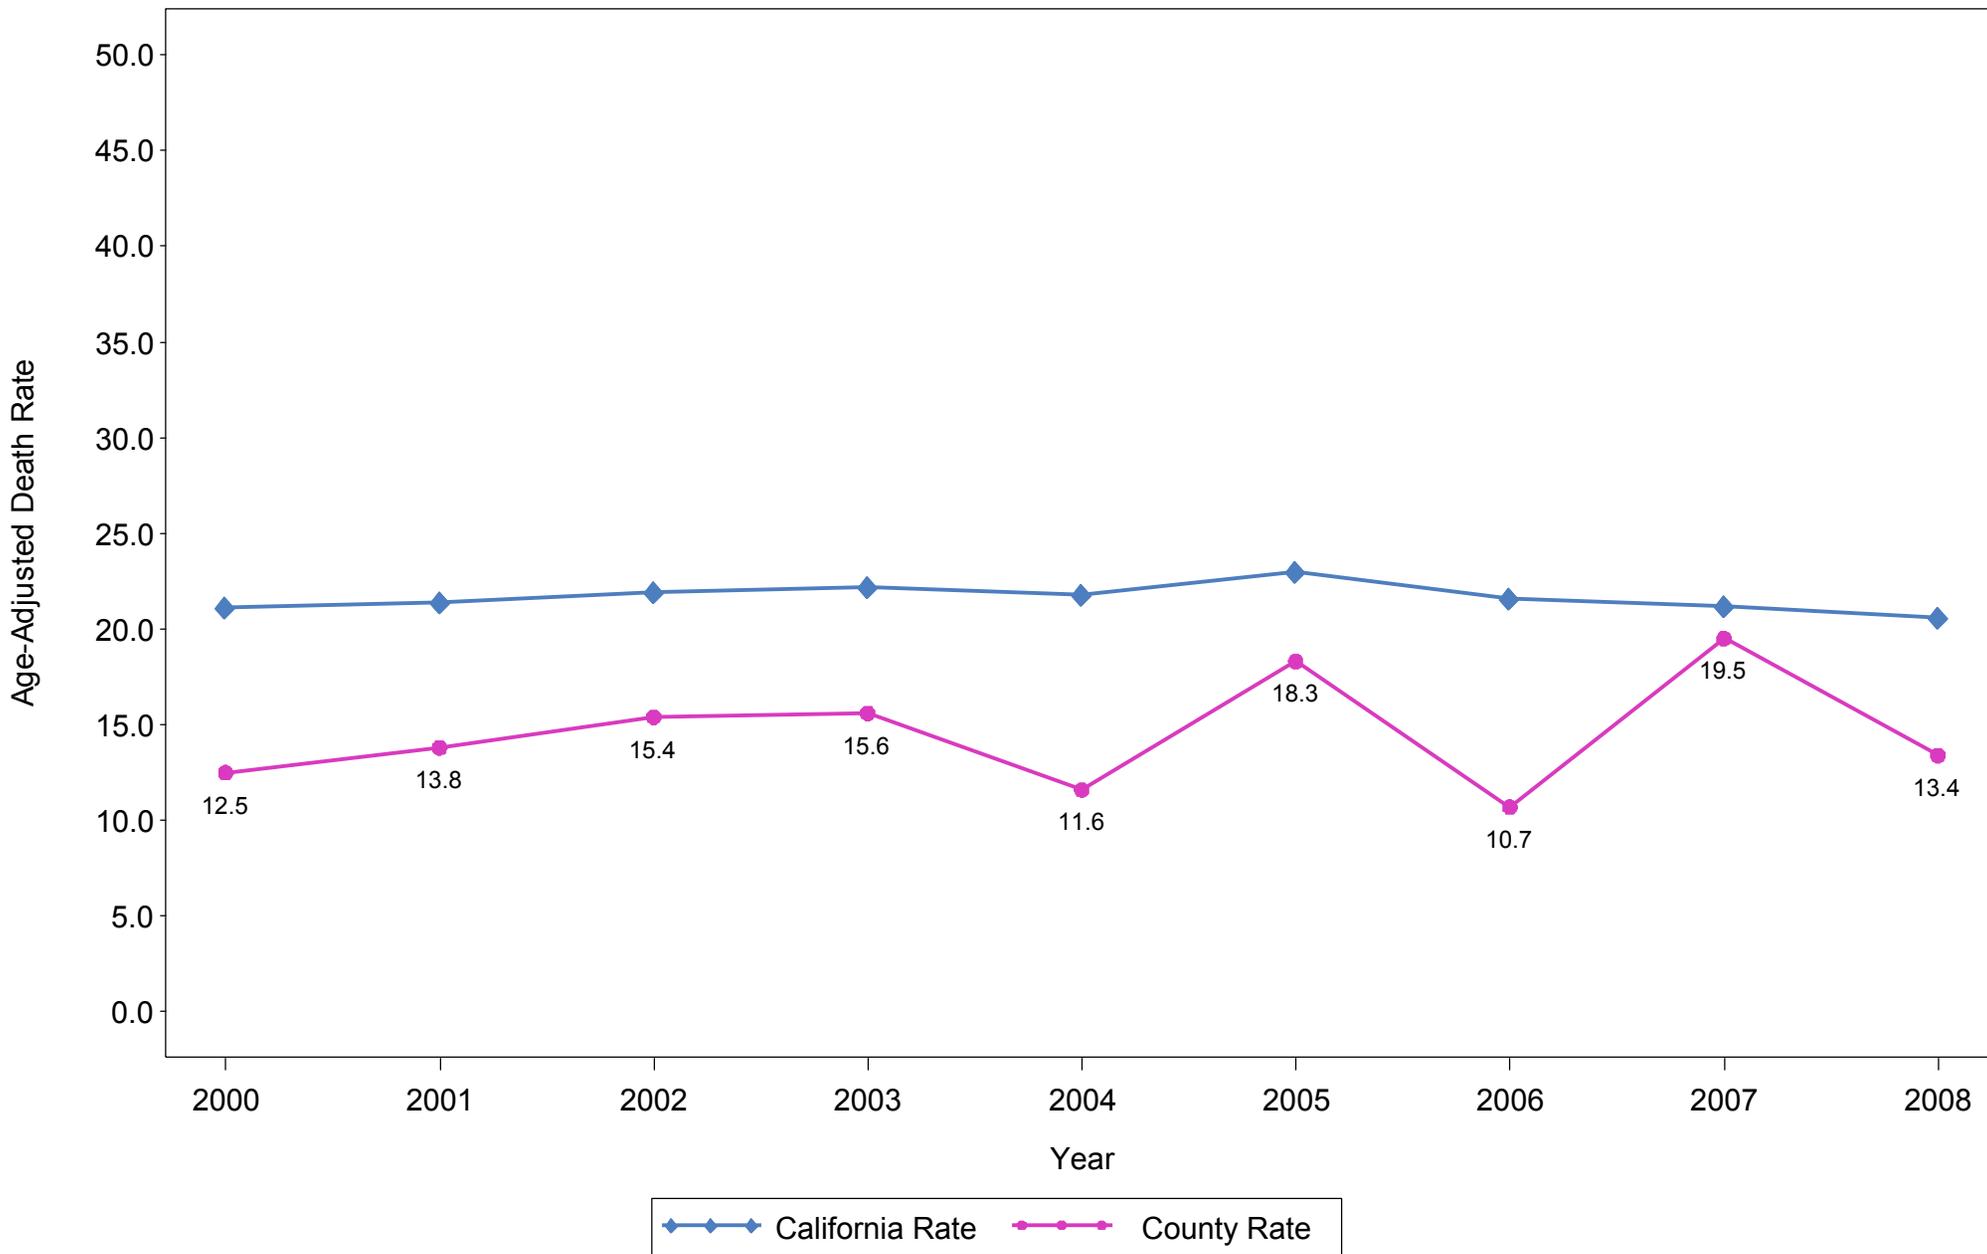

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Orange County

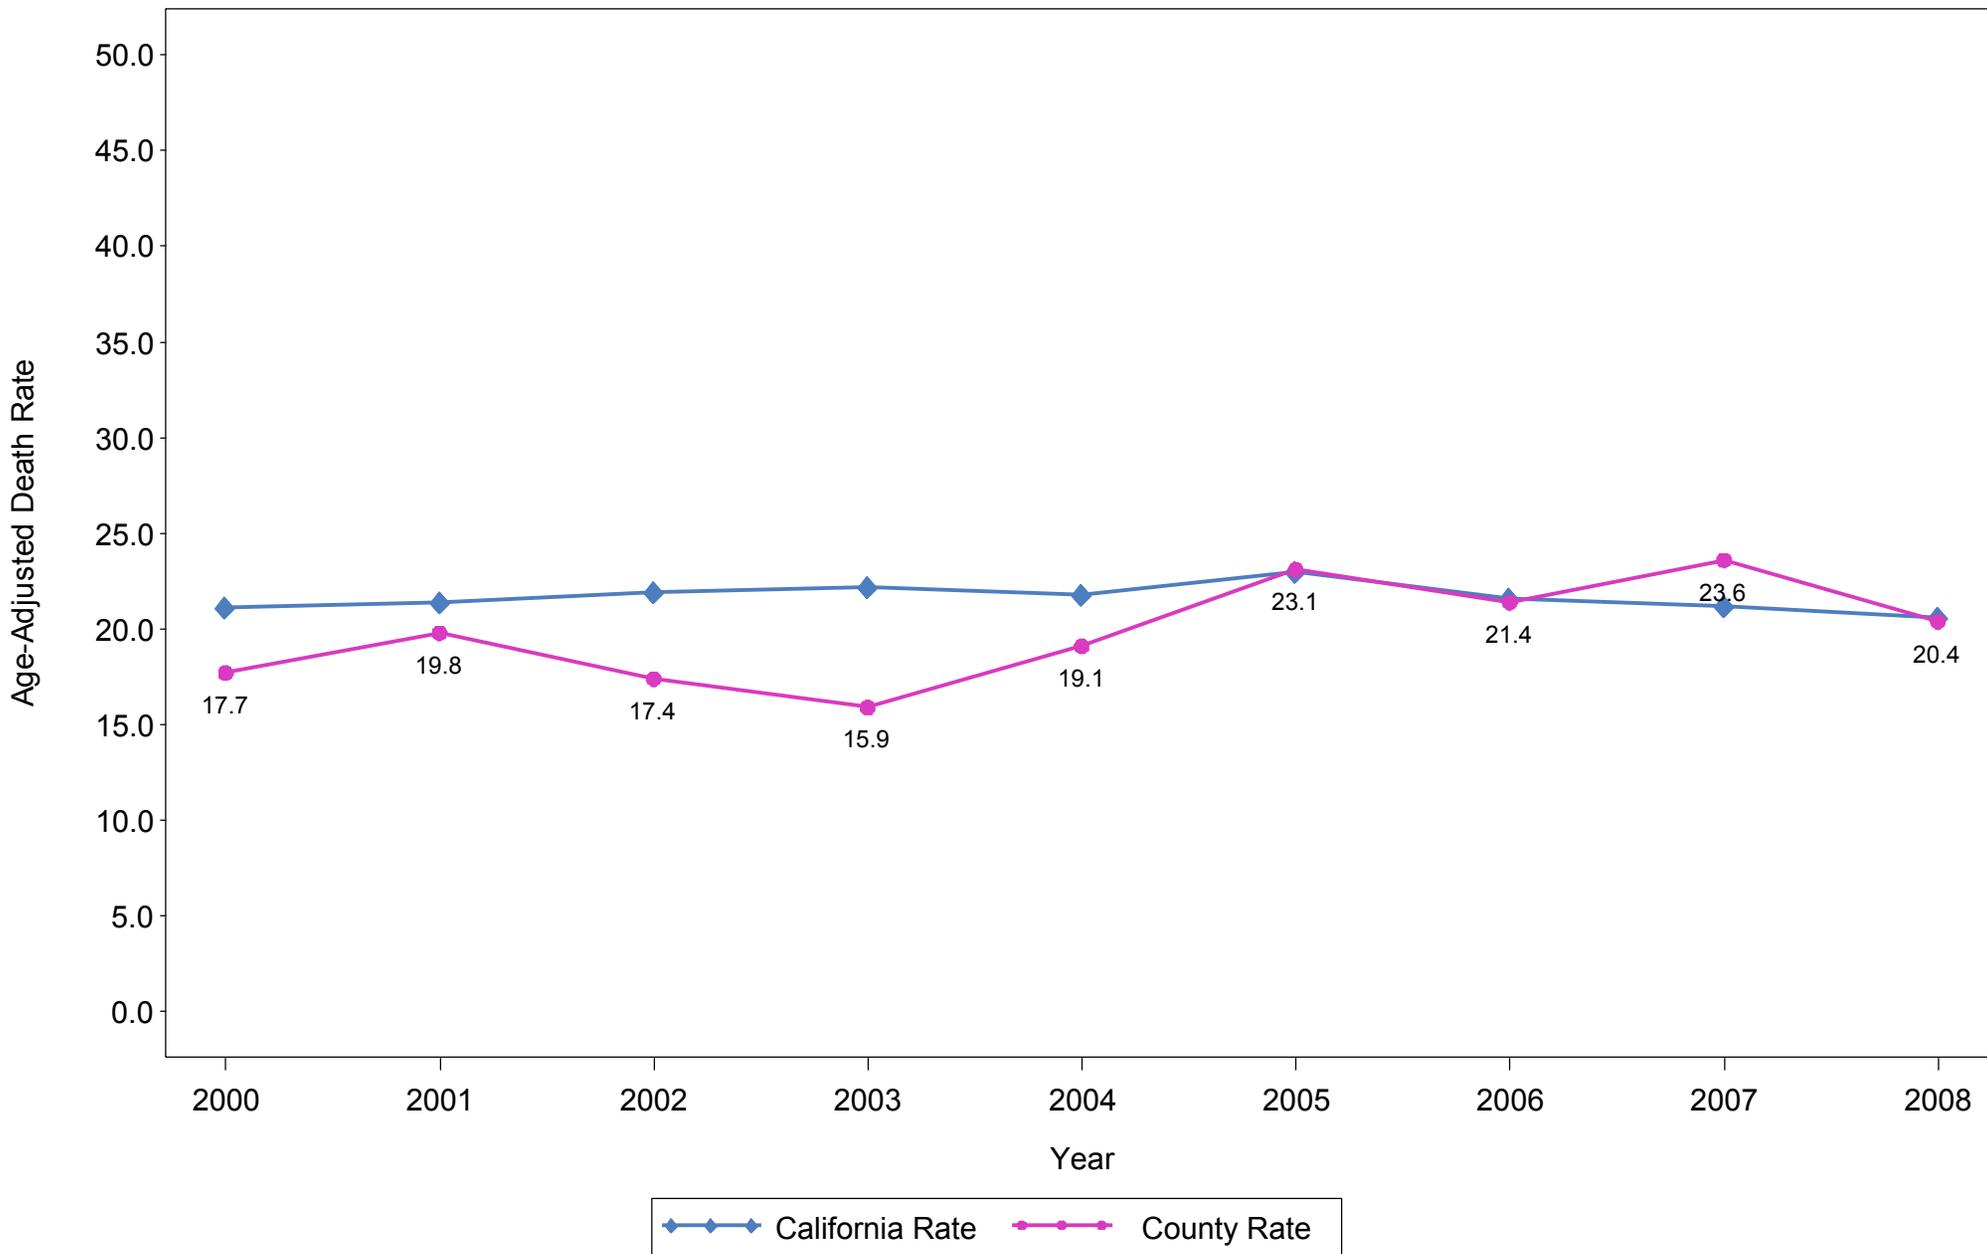

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Placer County

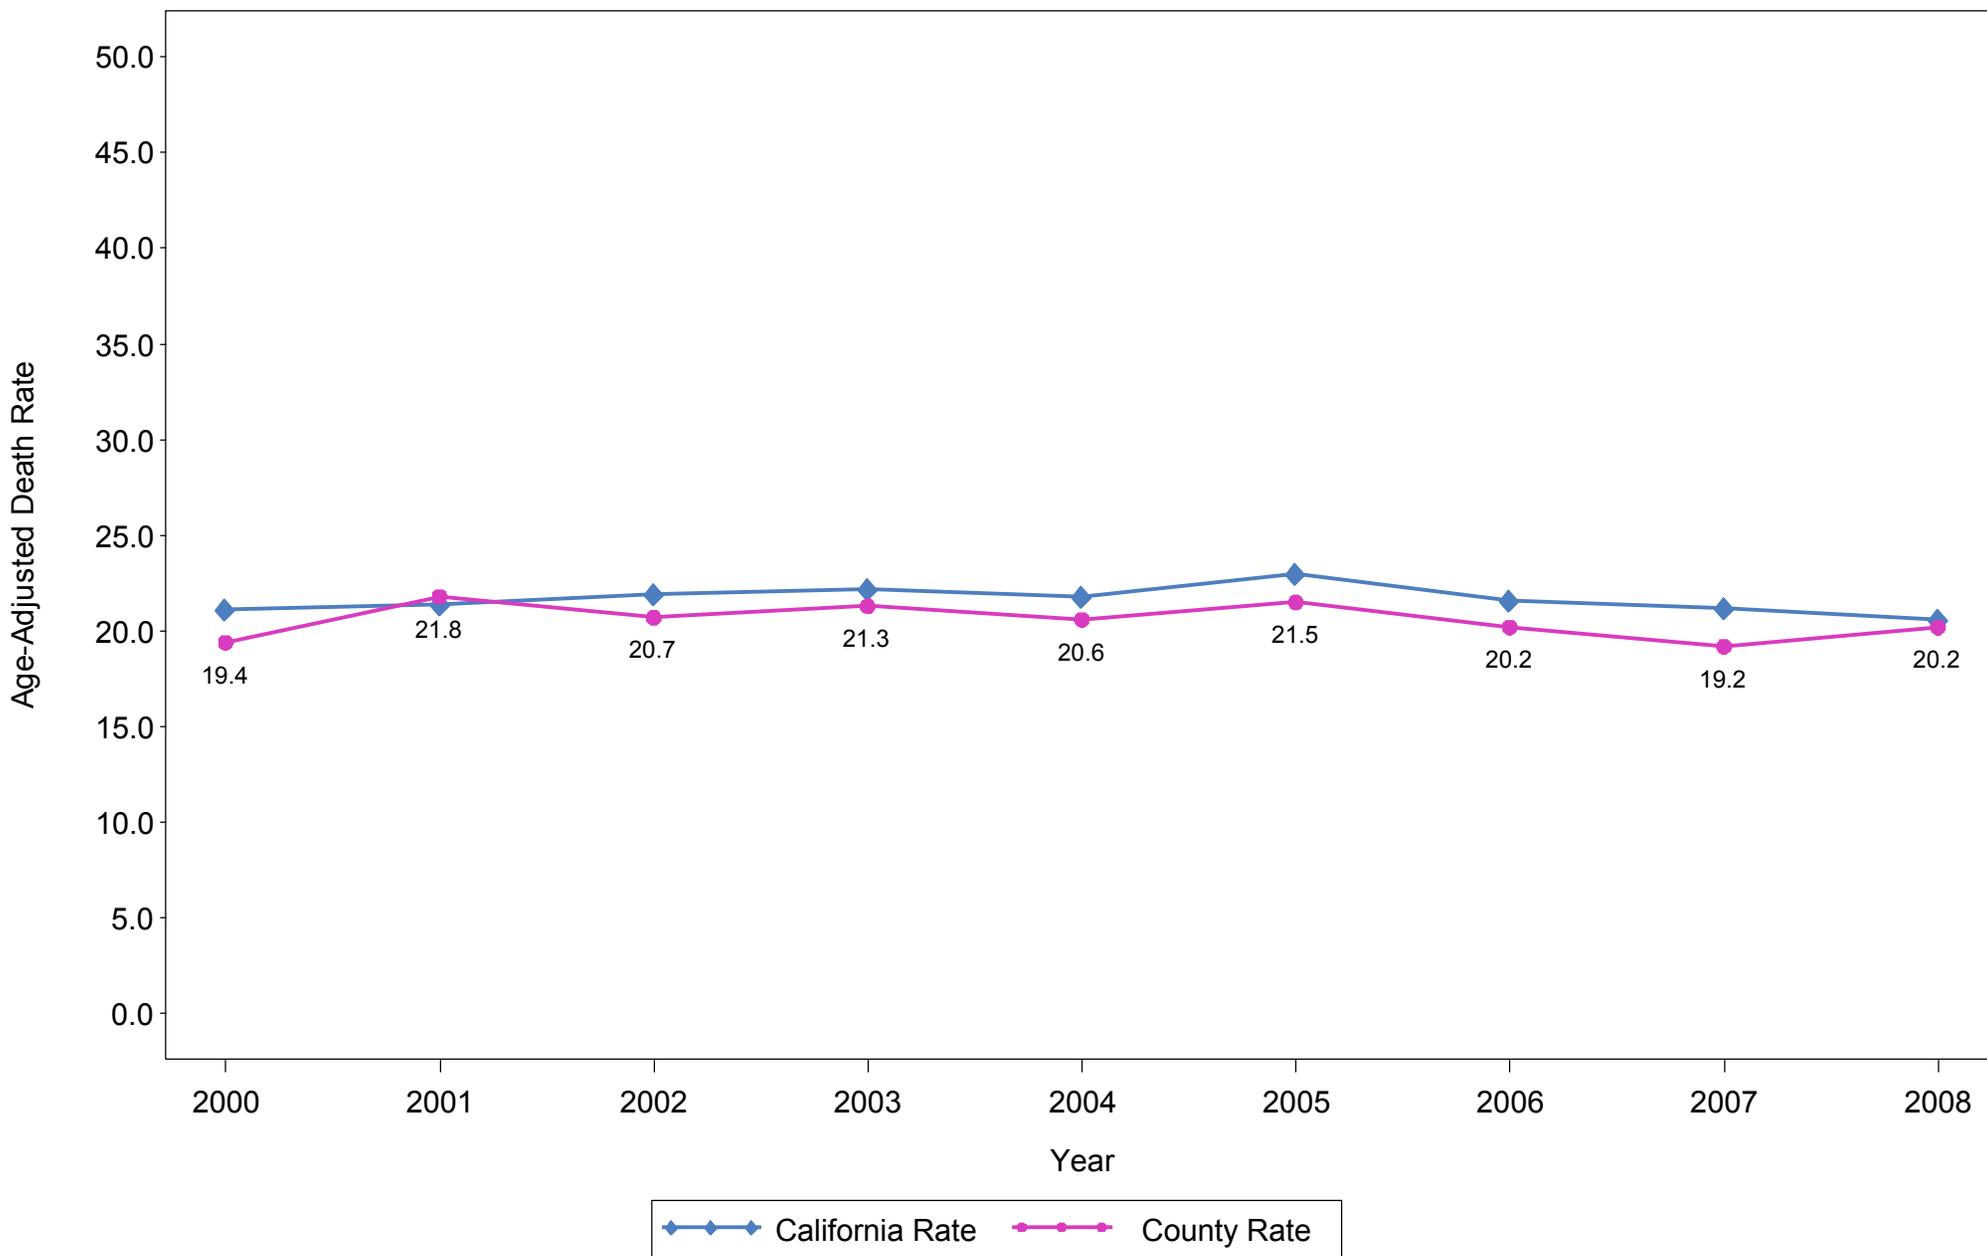

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Riverside County

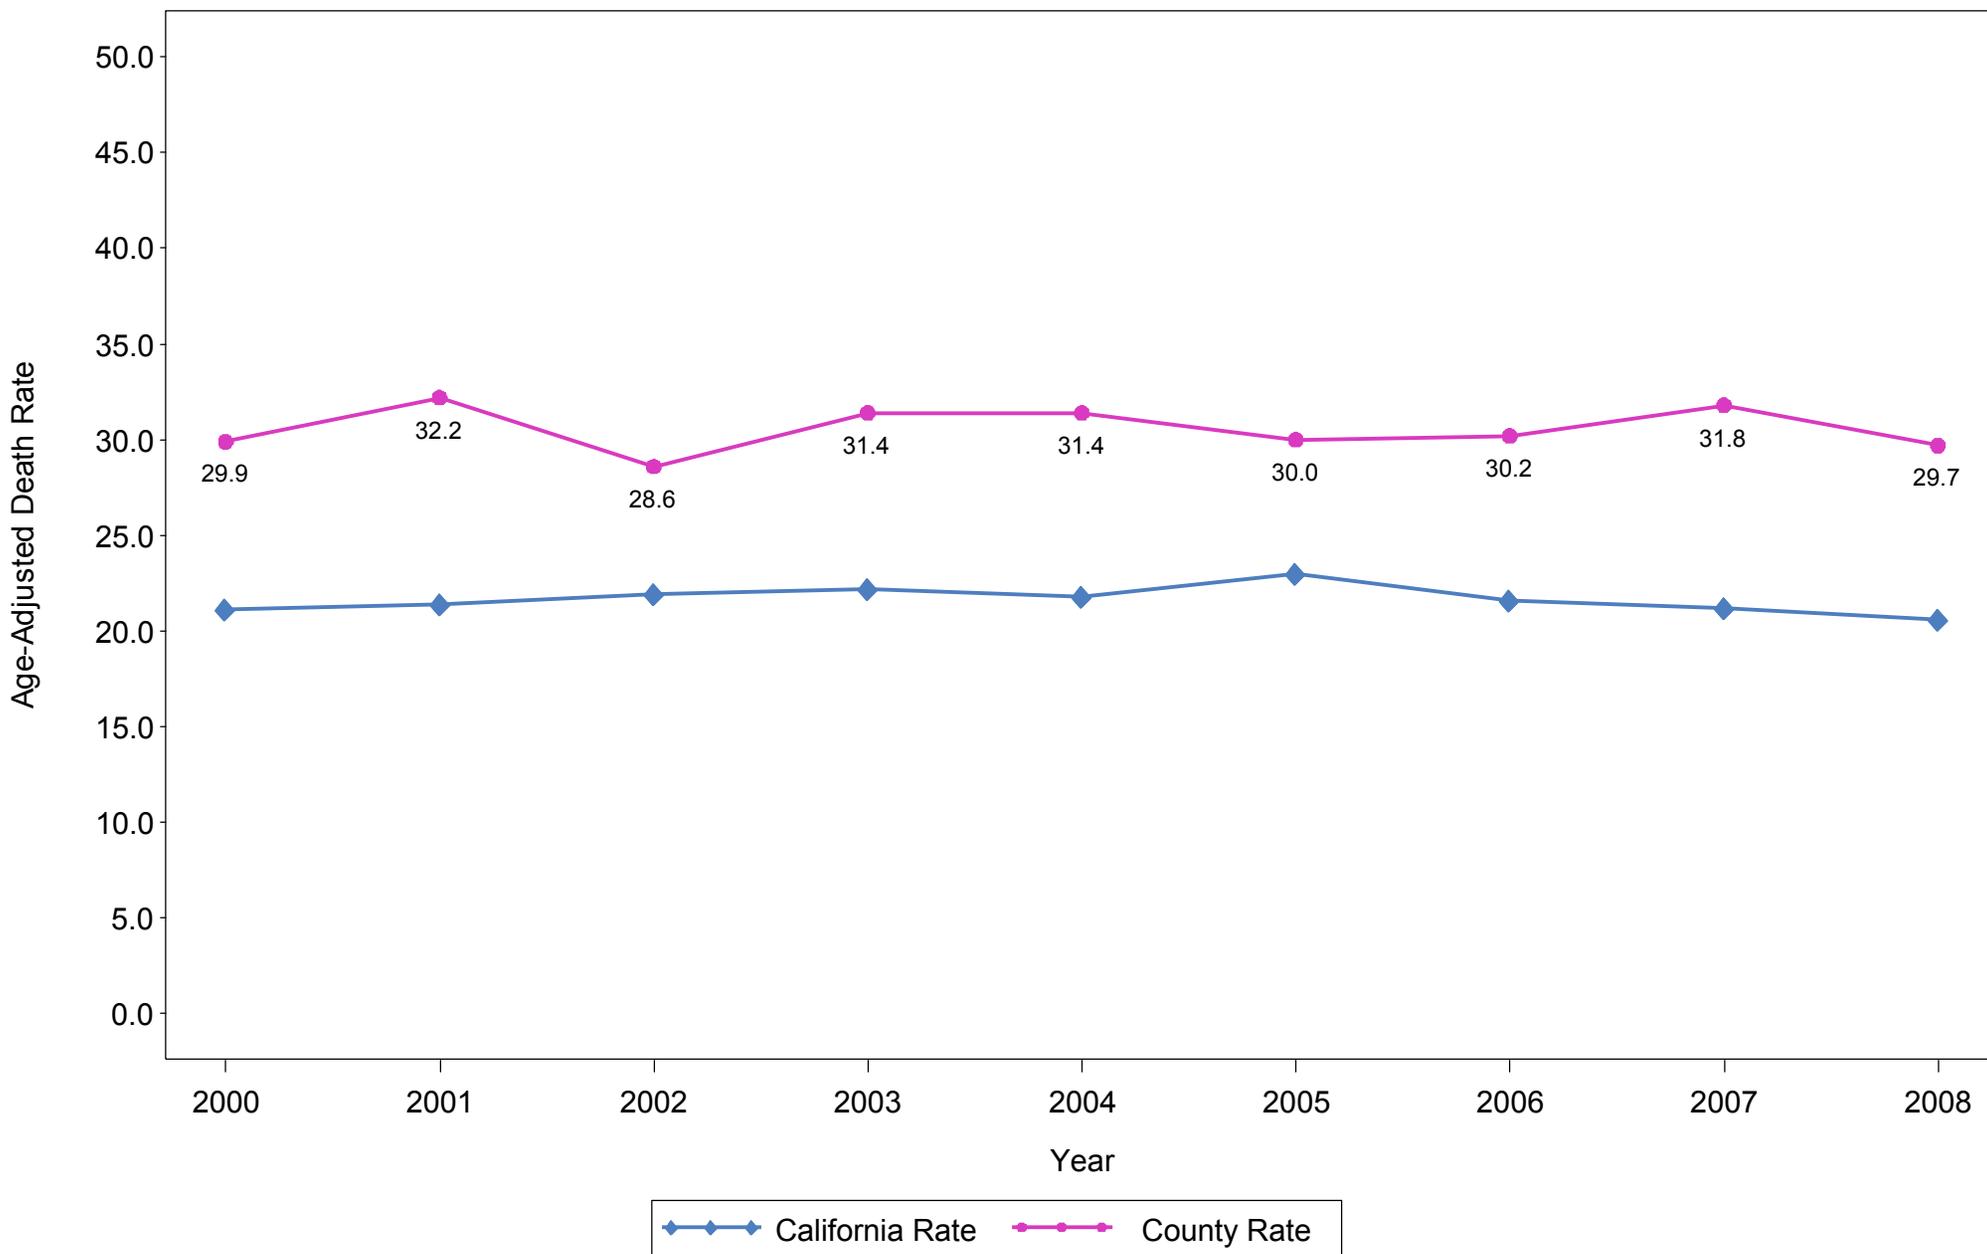

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Sacramento County

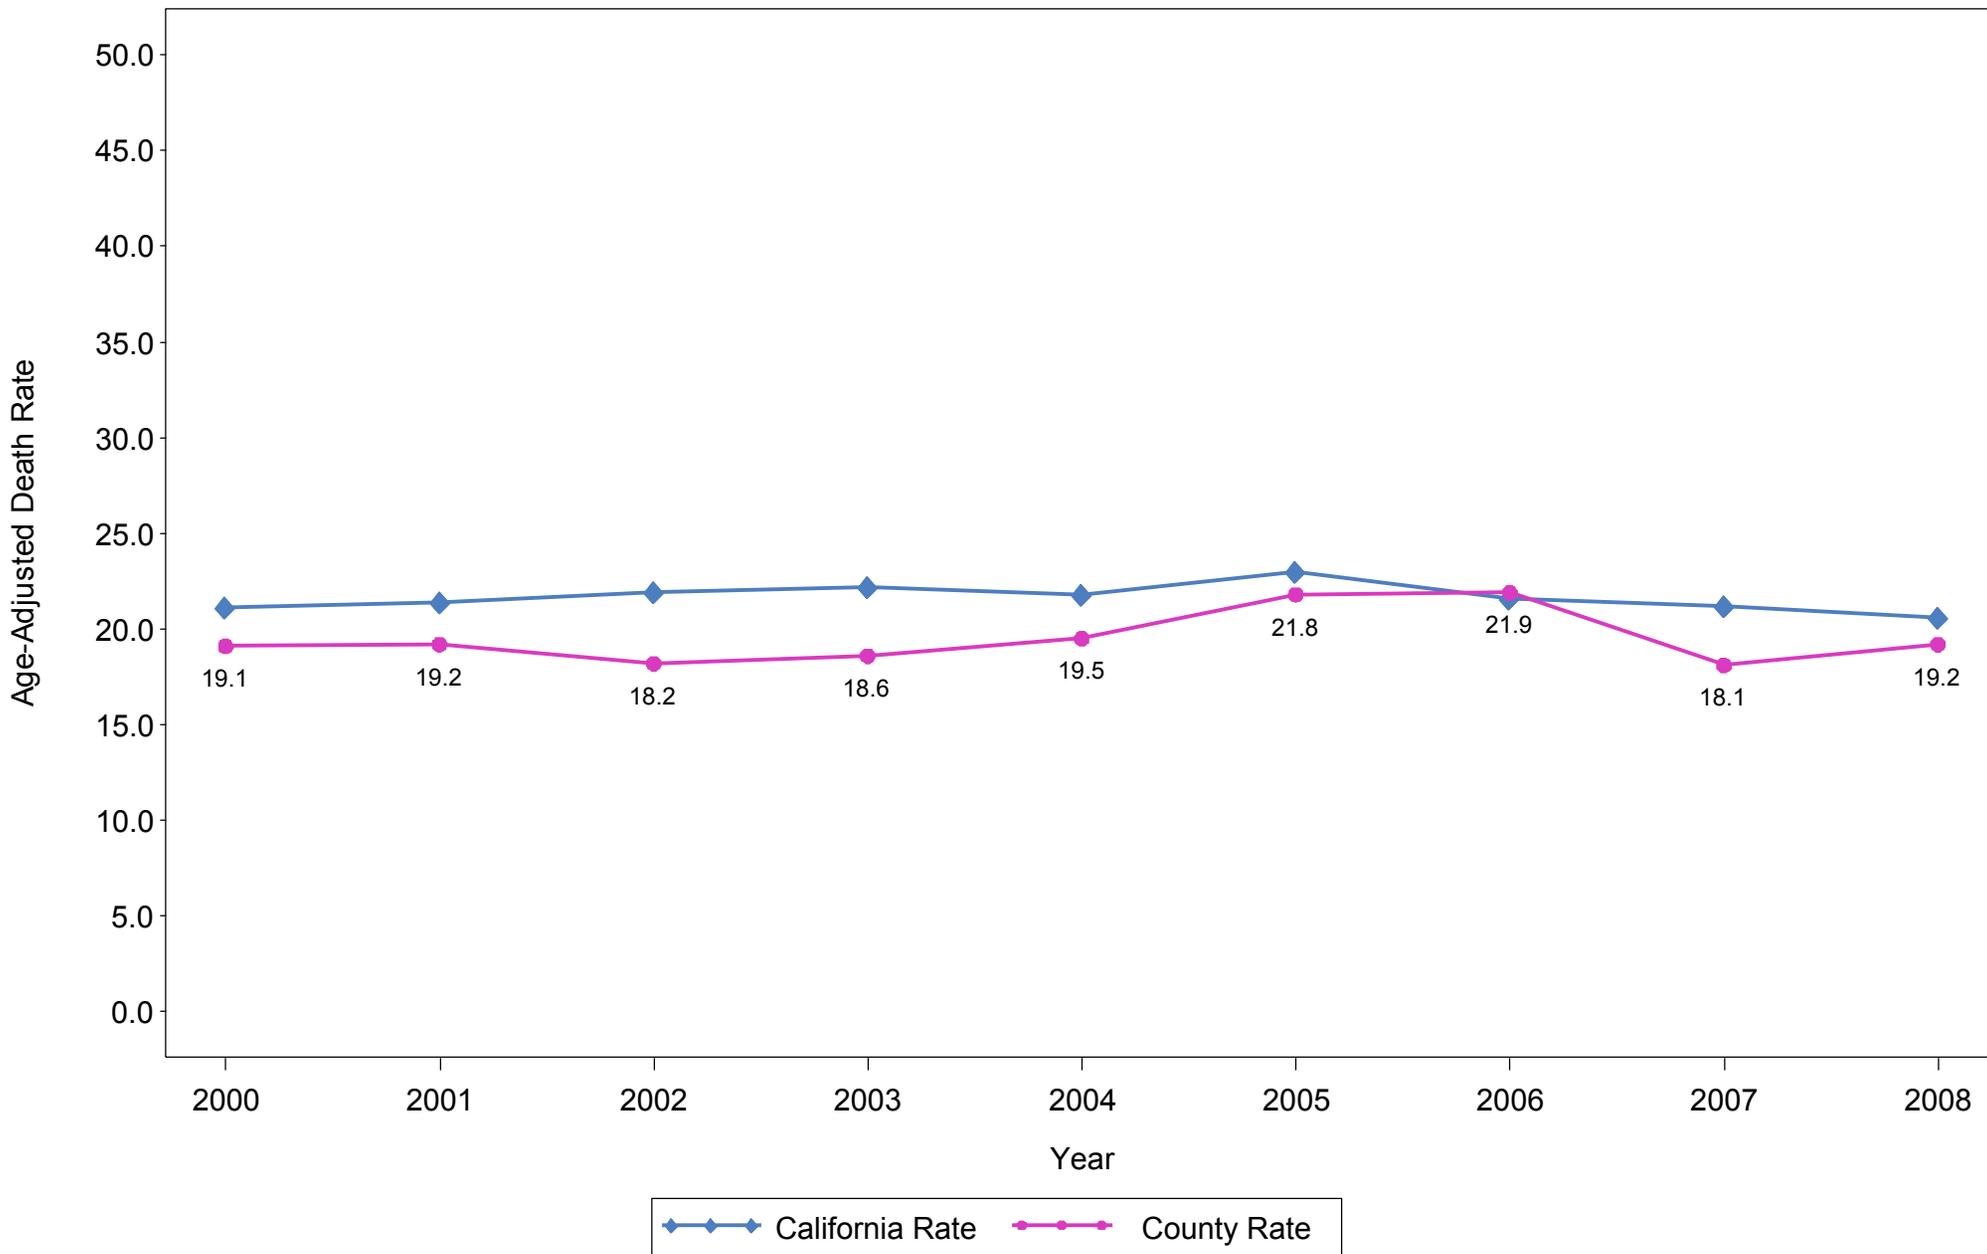

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Bernardino County

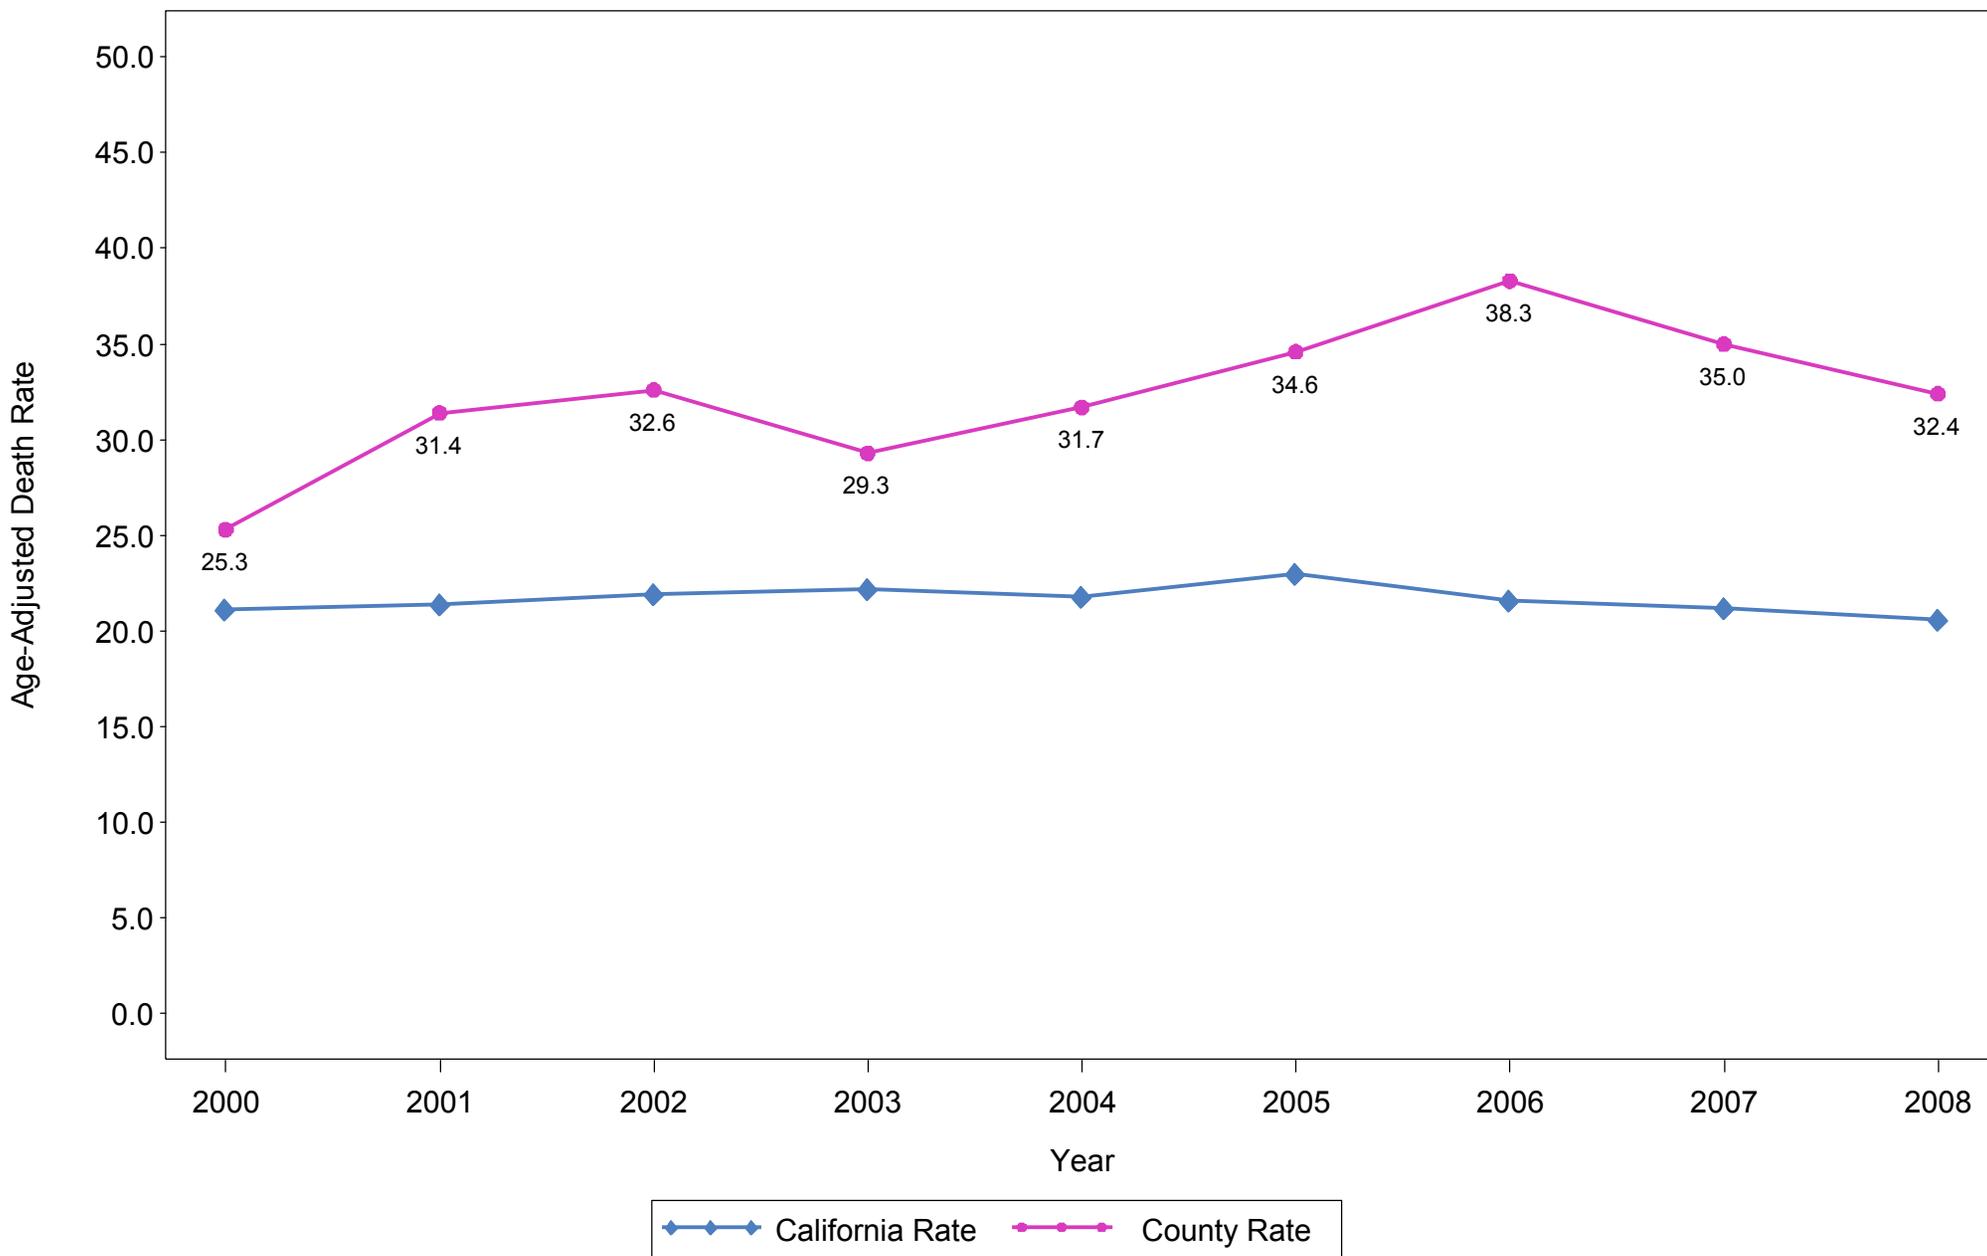

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Diego County

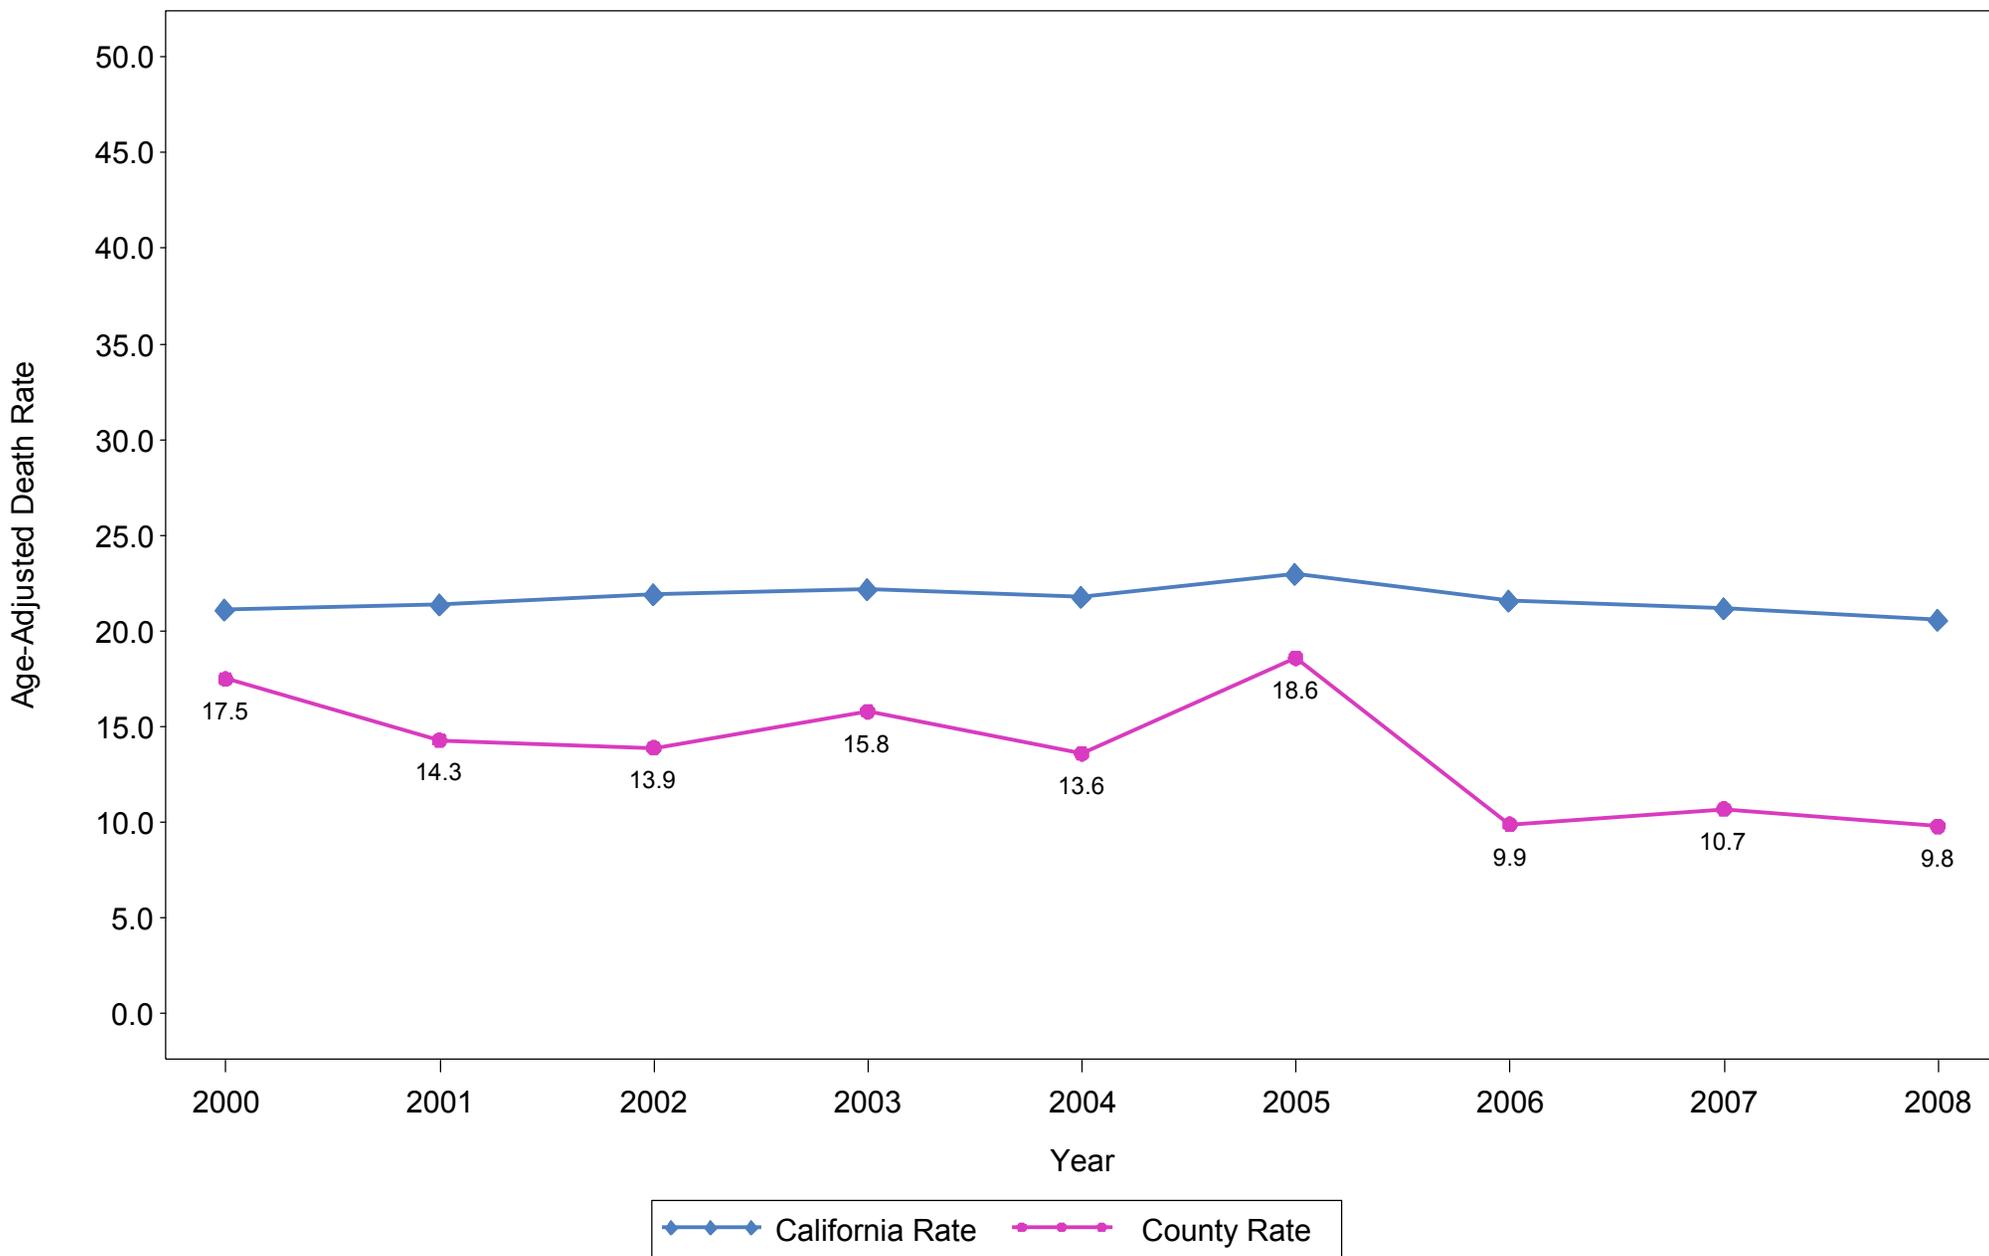

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Joaquin County

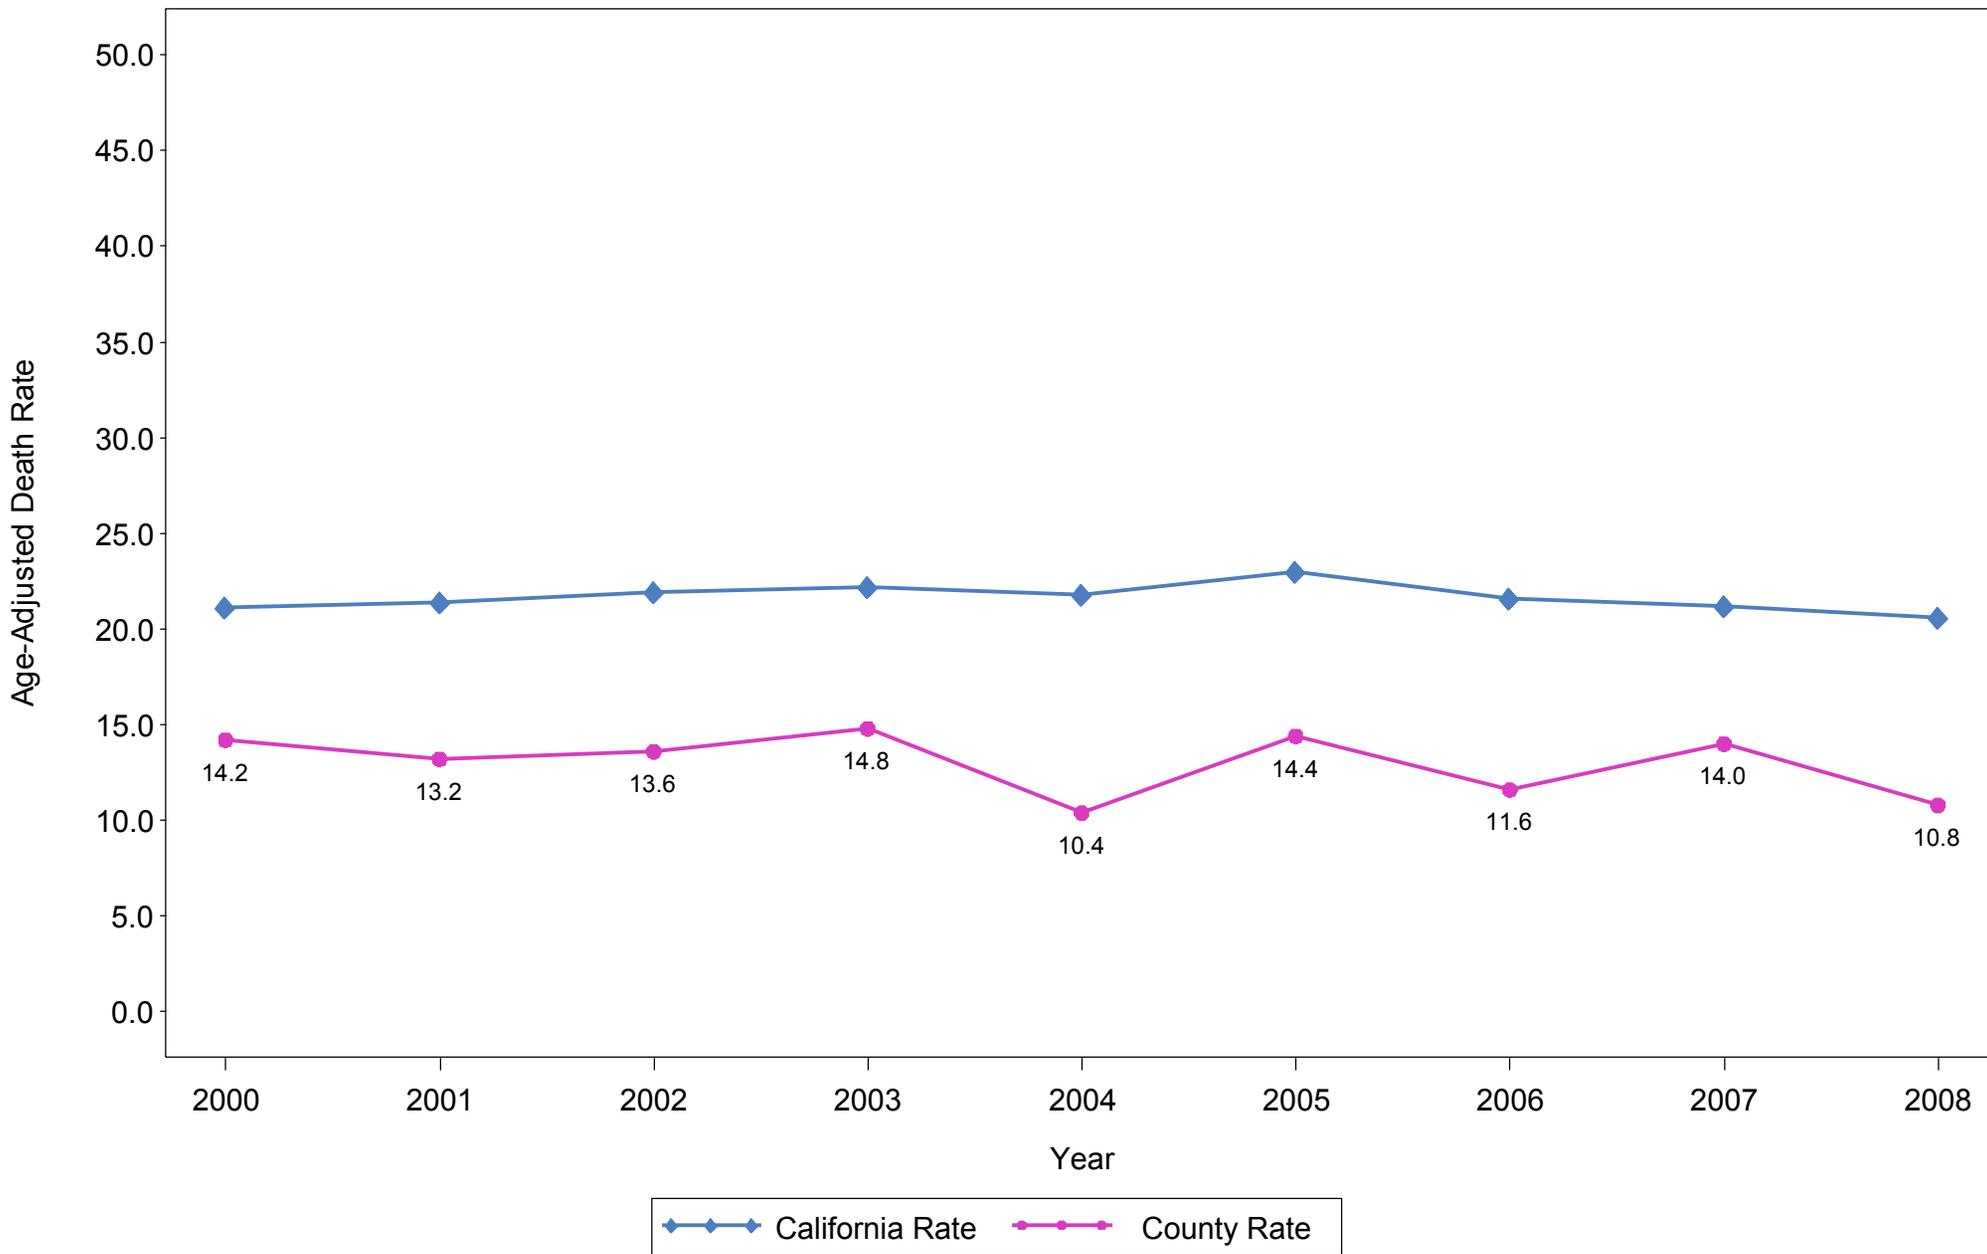

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Luis Obispo County

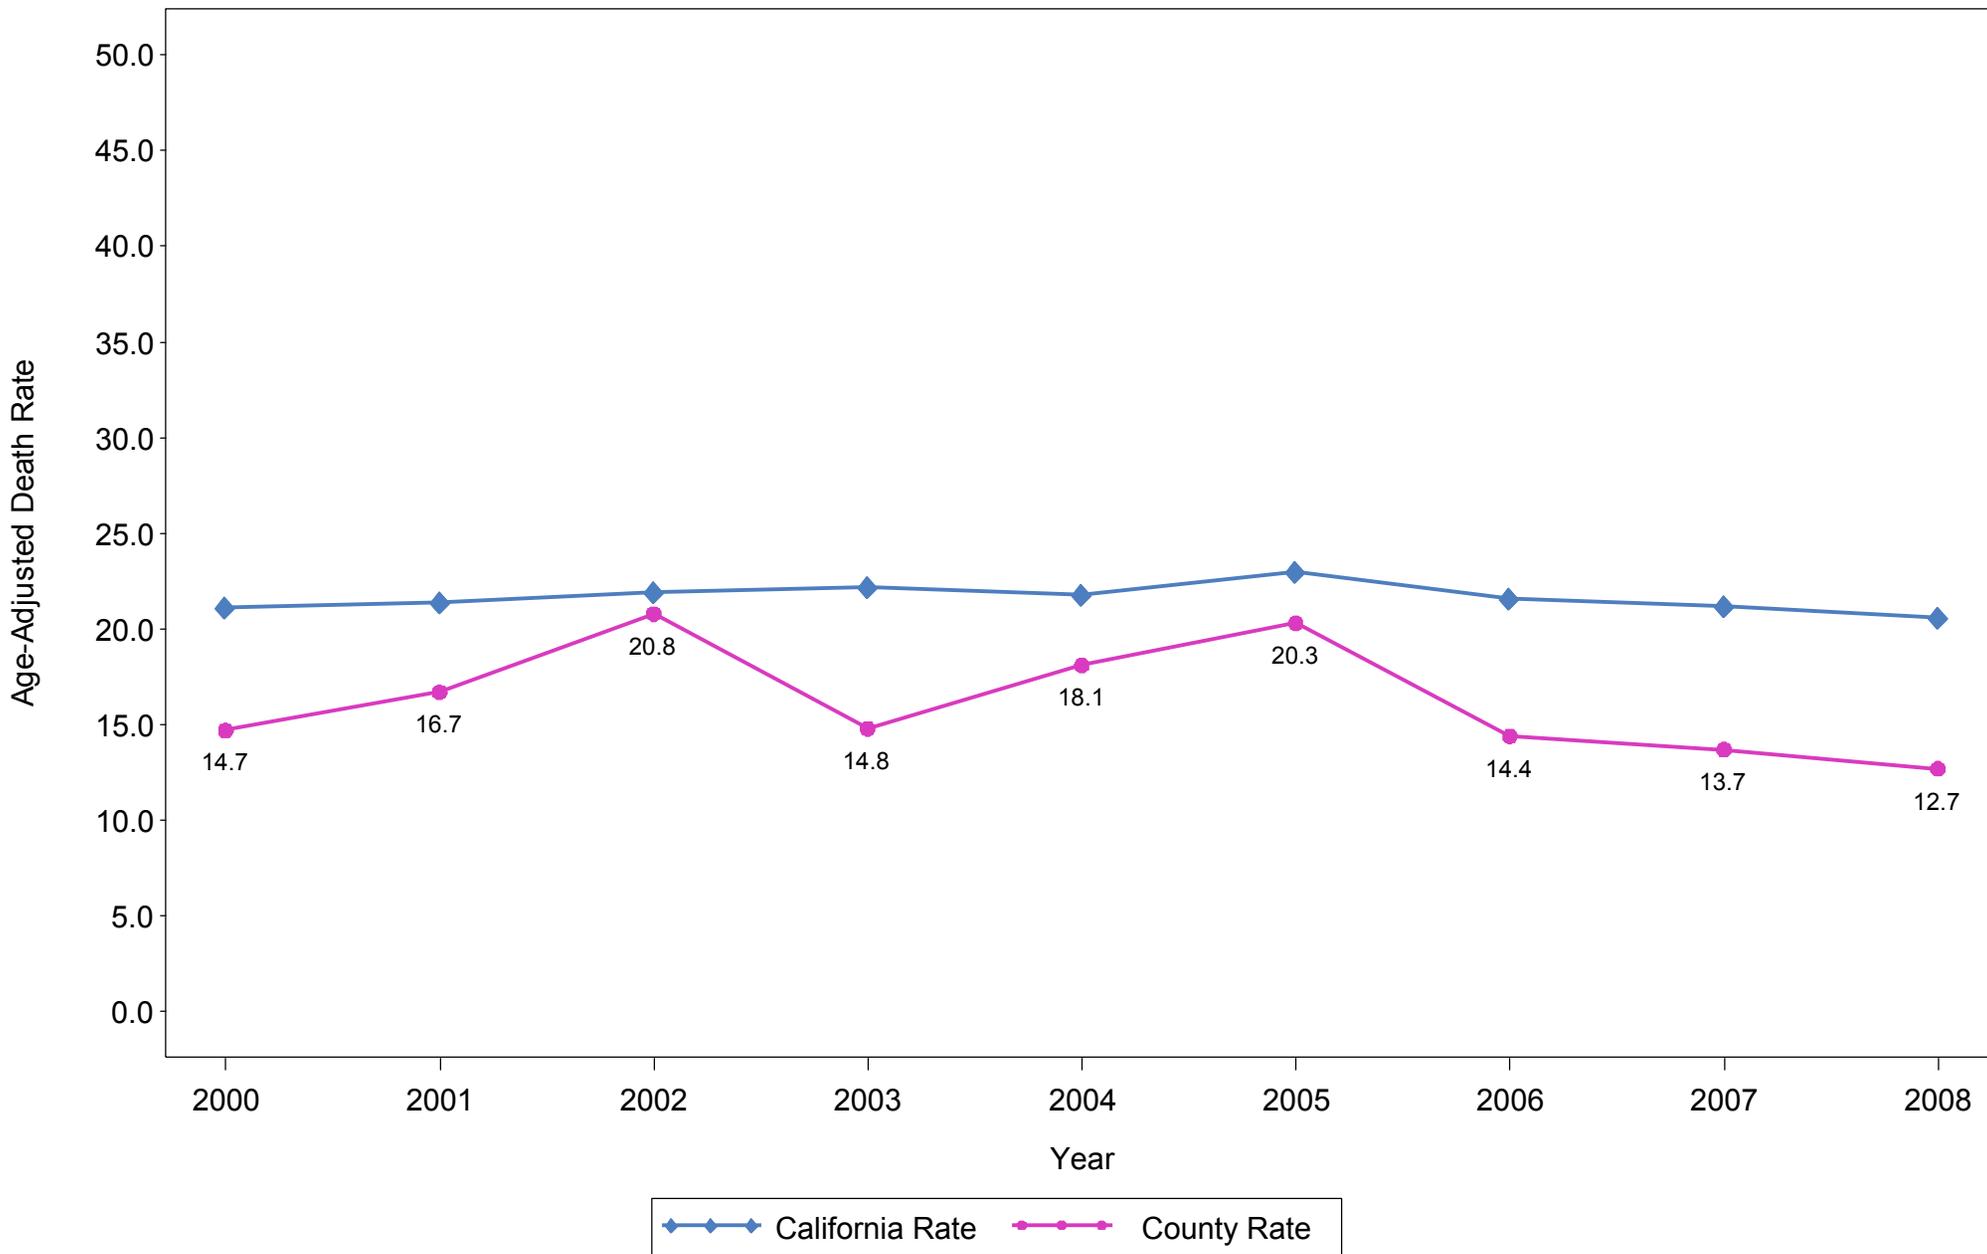

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
San Mateo County

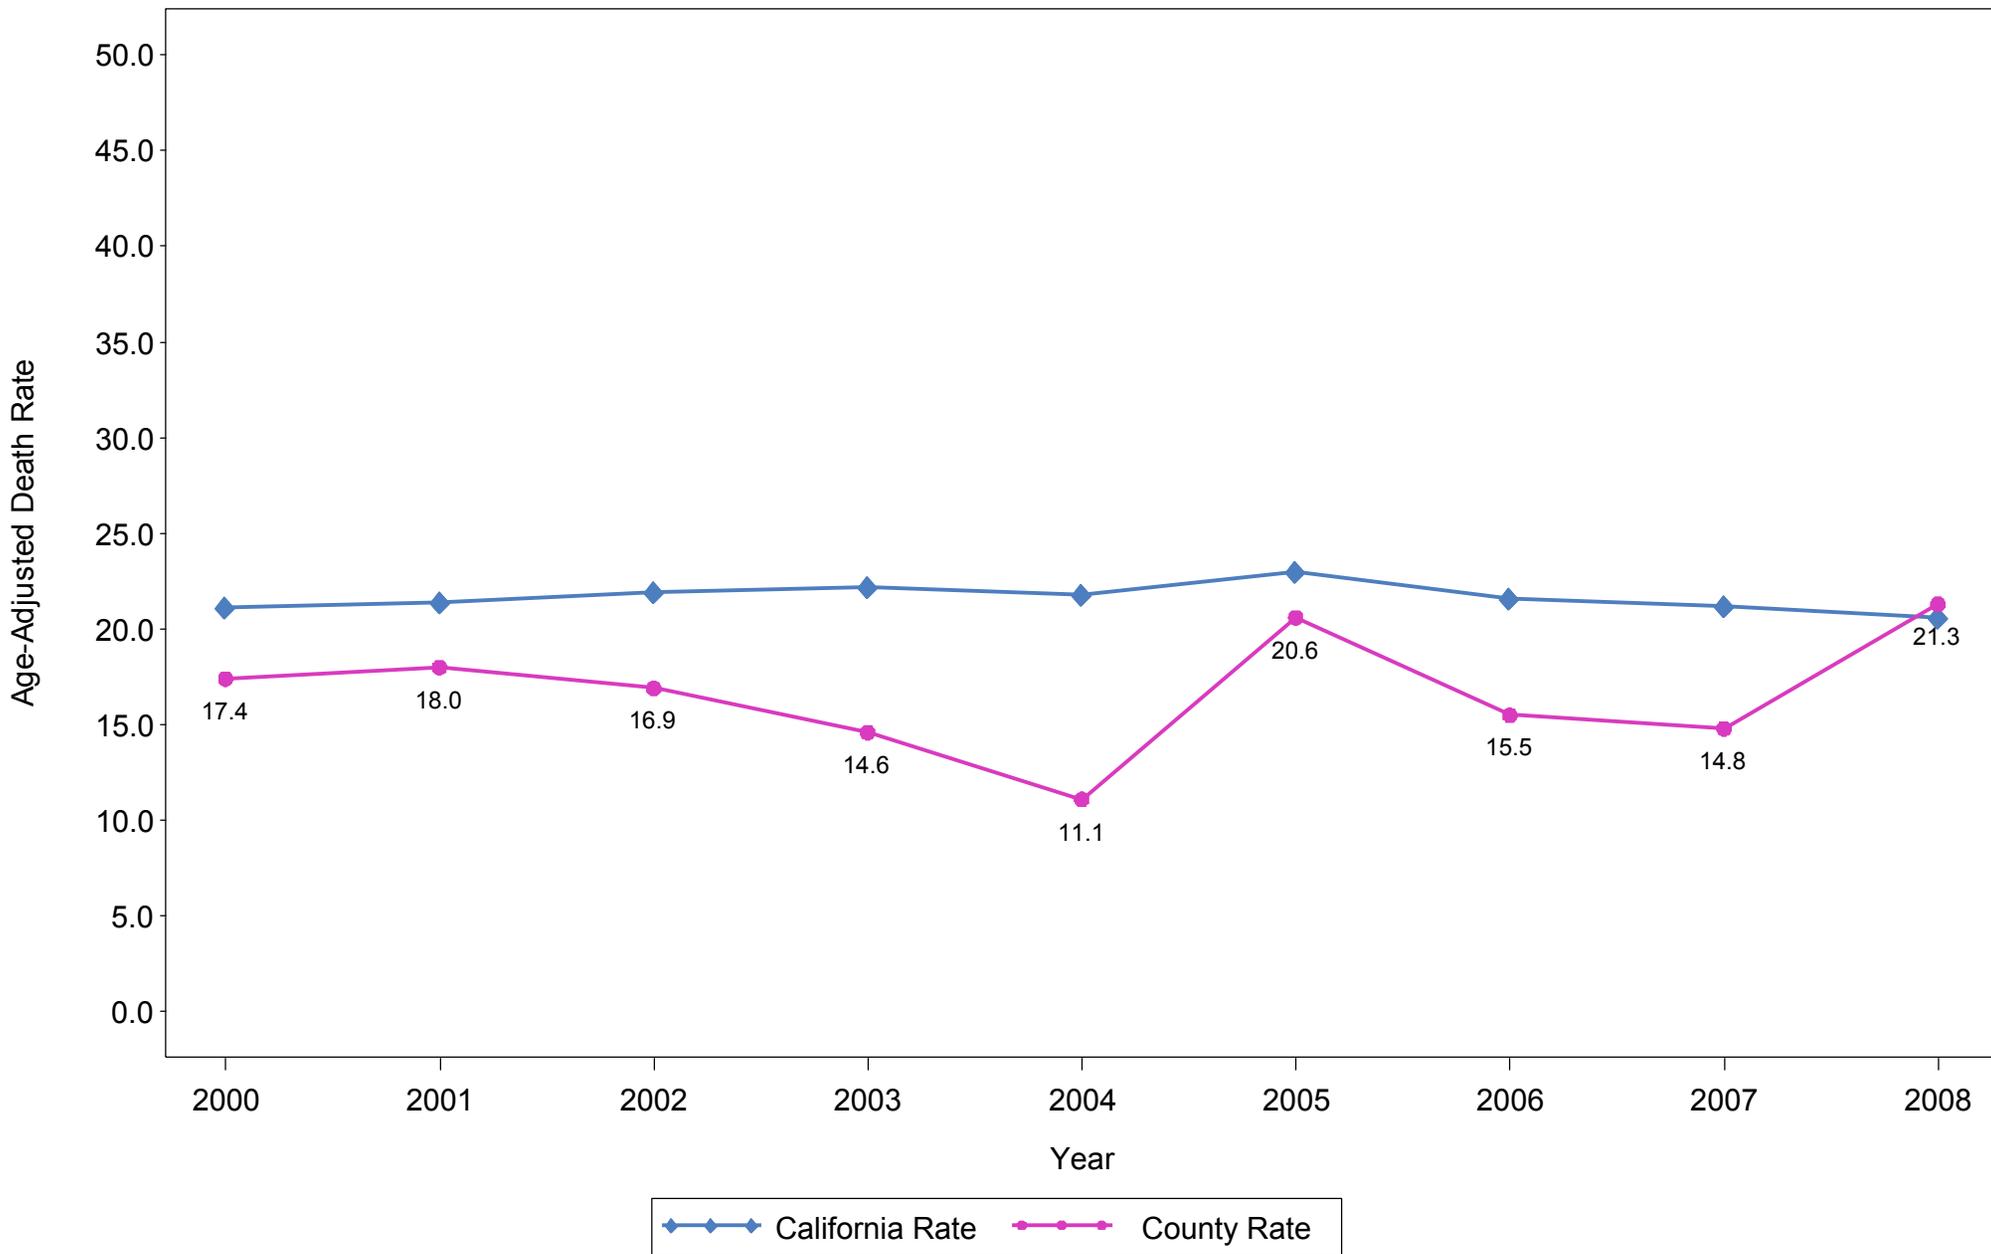

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Santa Barbara County

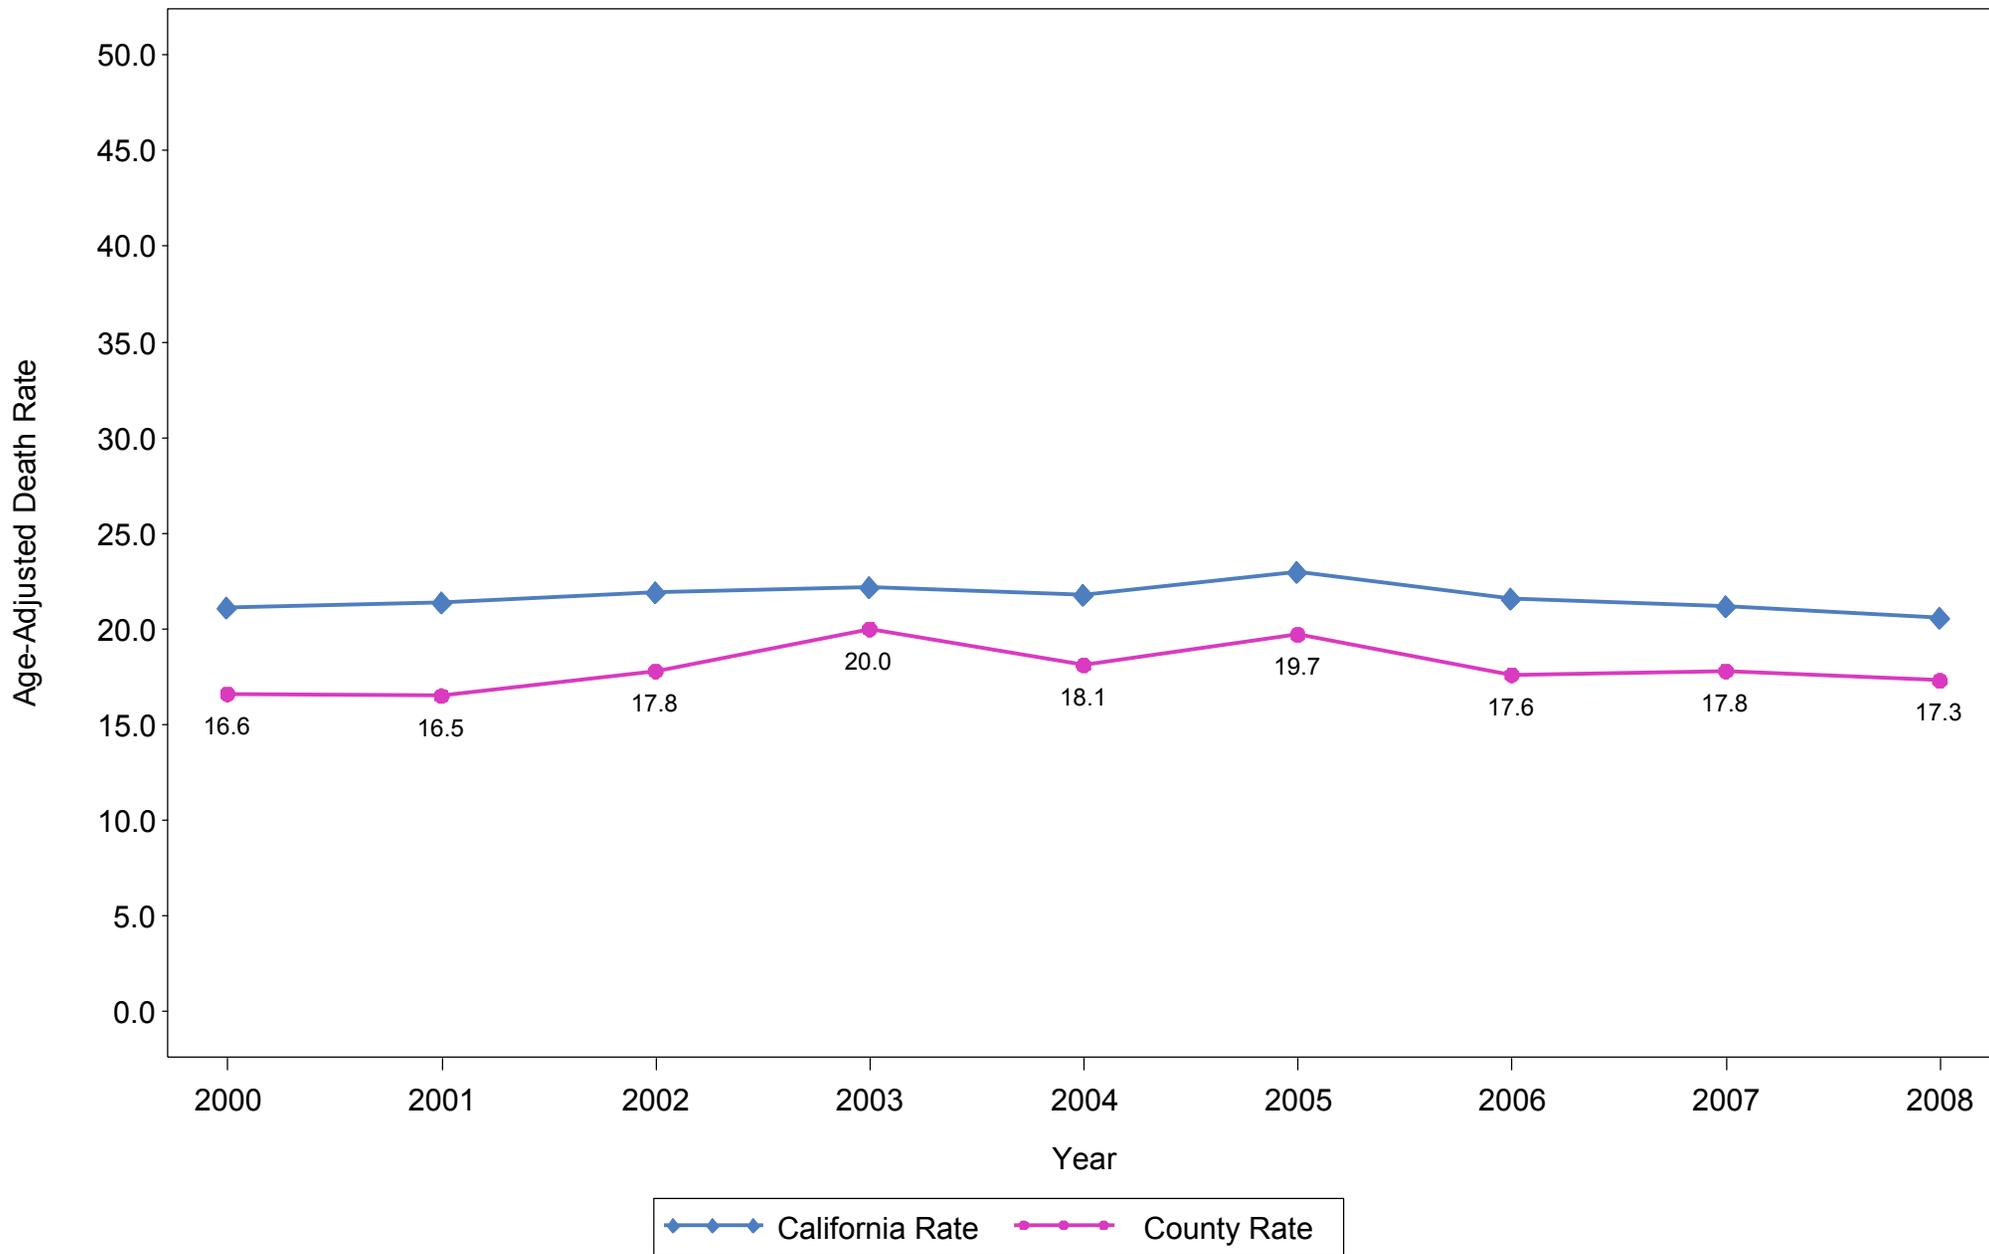

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Santa Cruz County

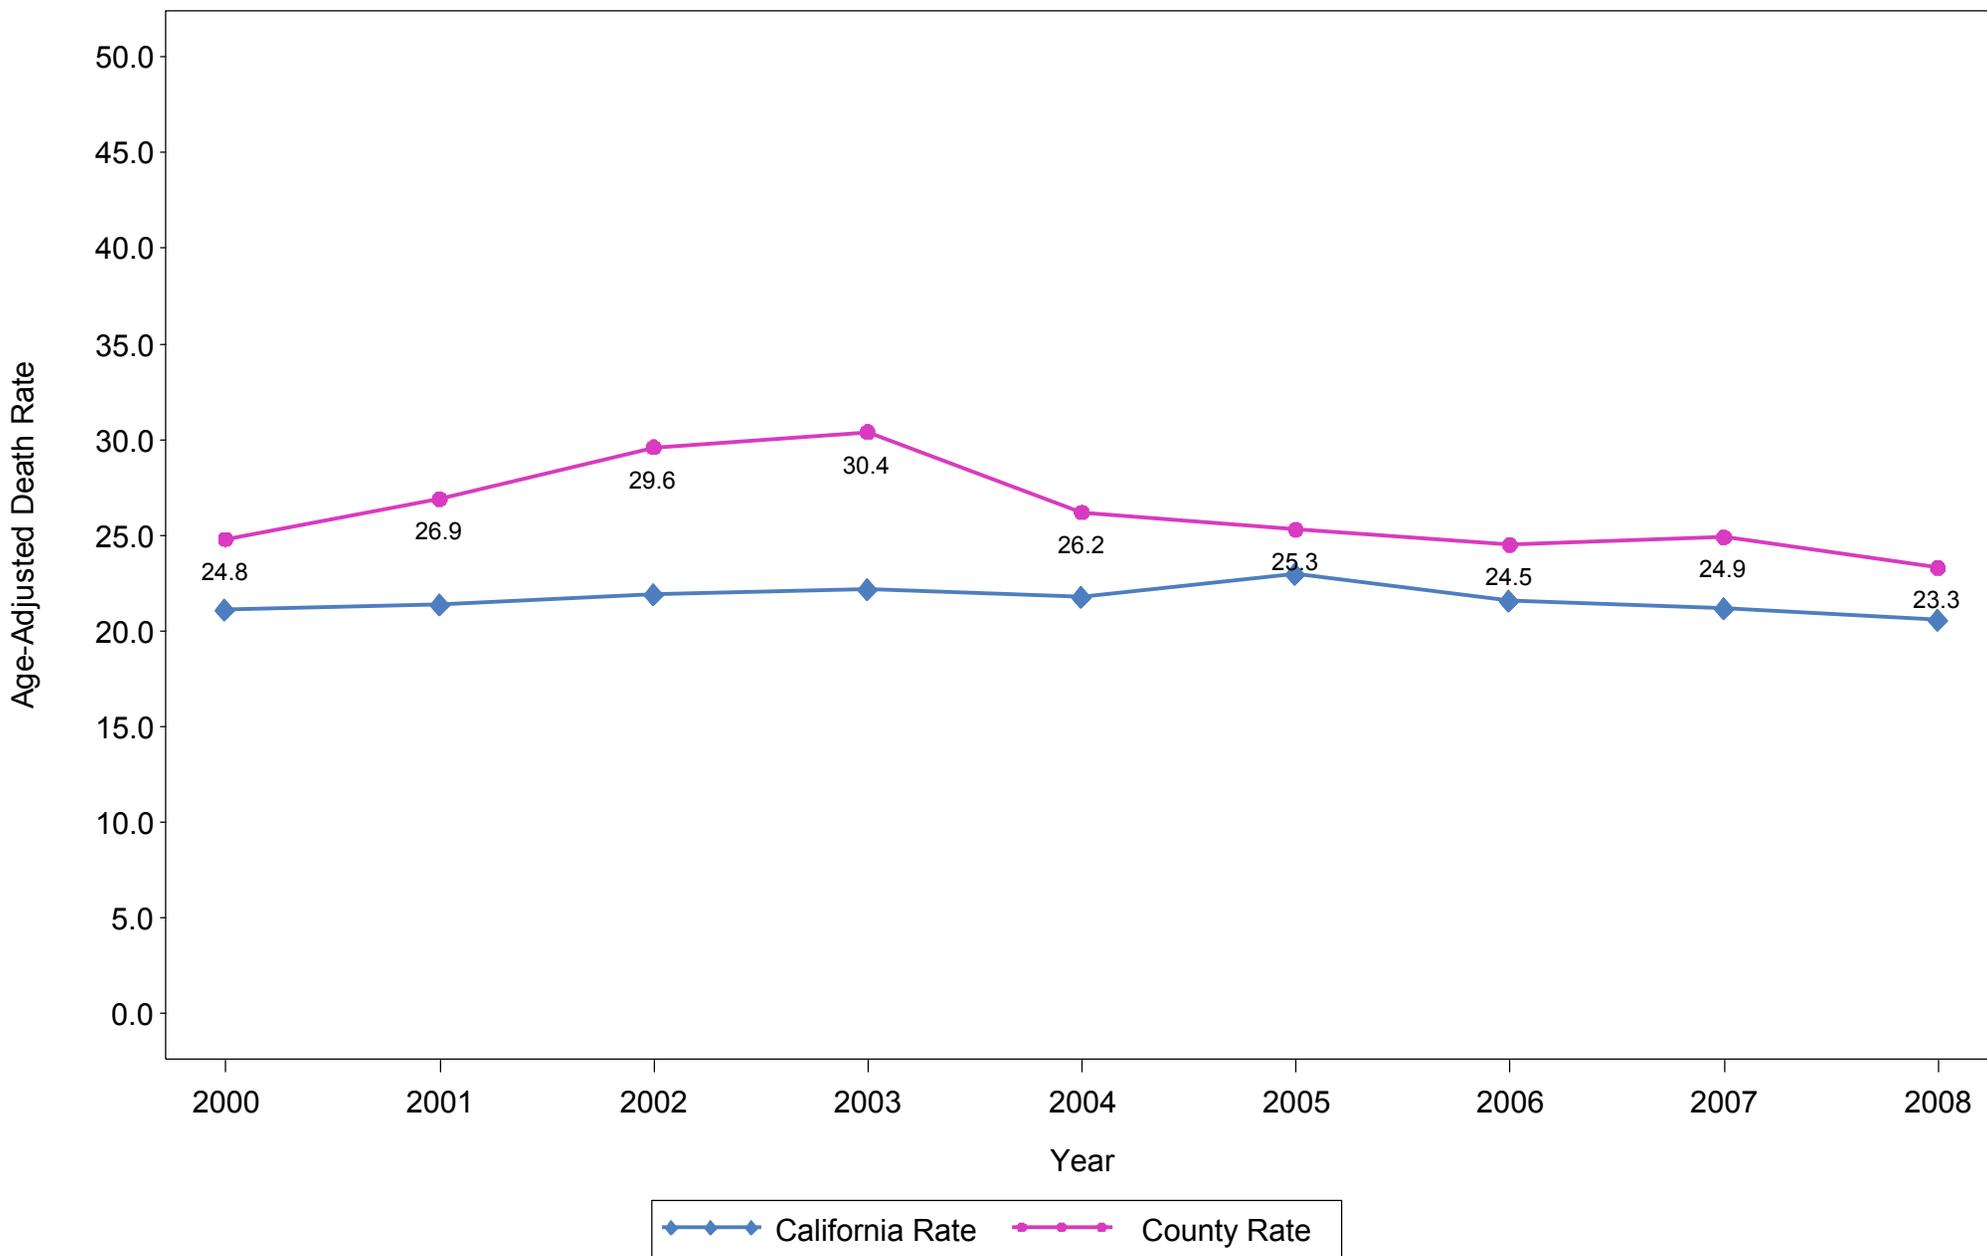

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Sonoma County

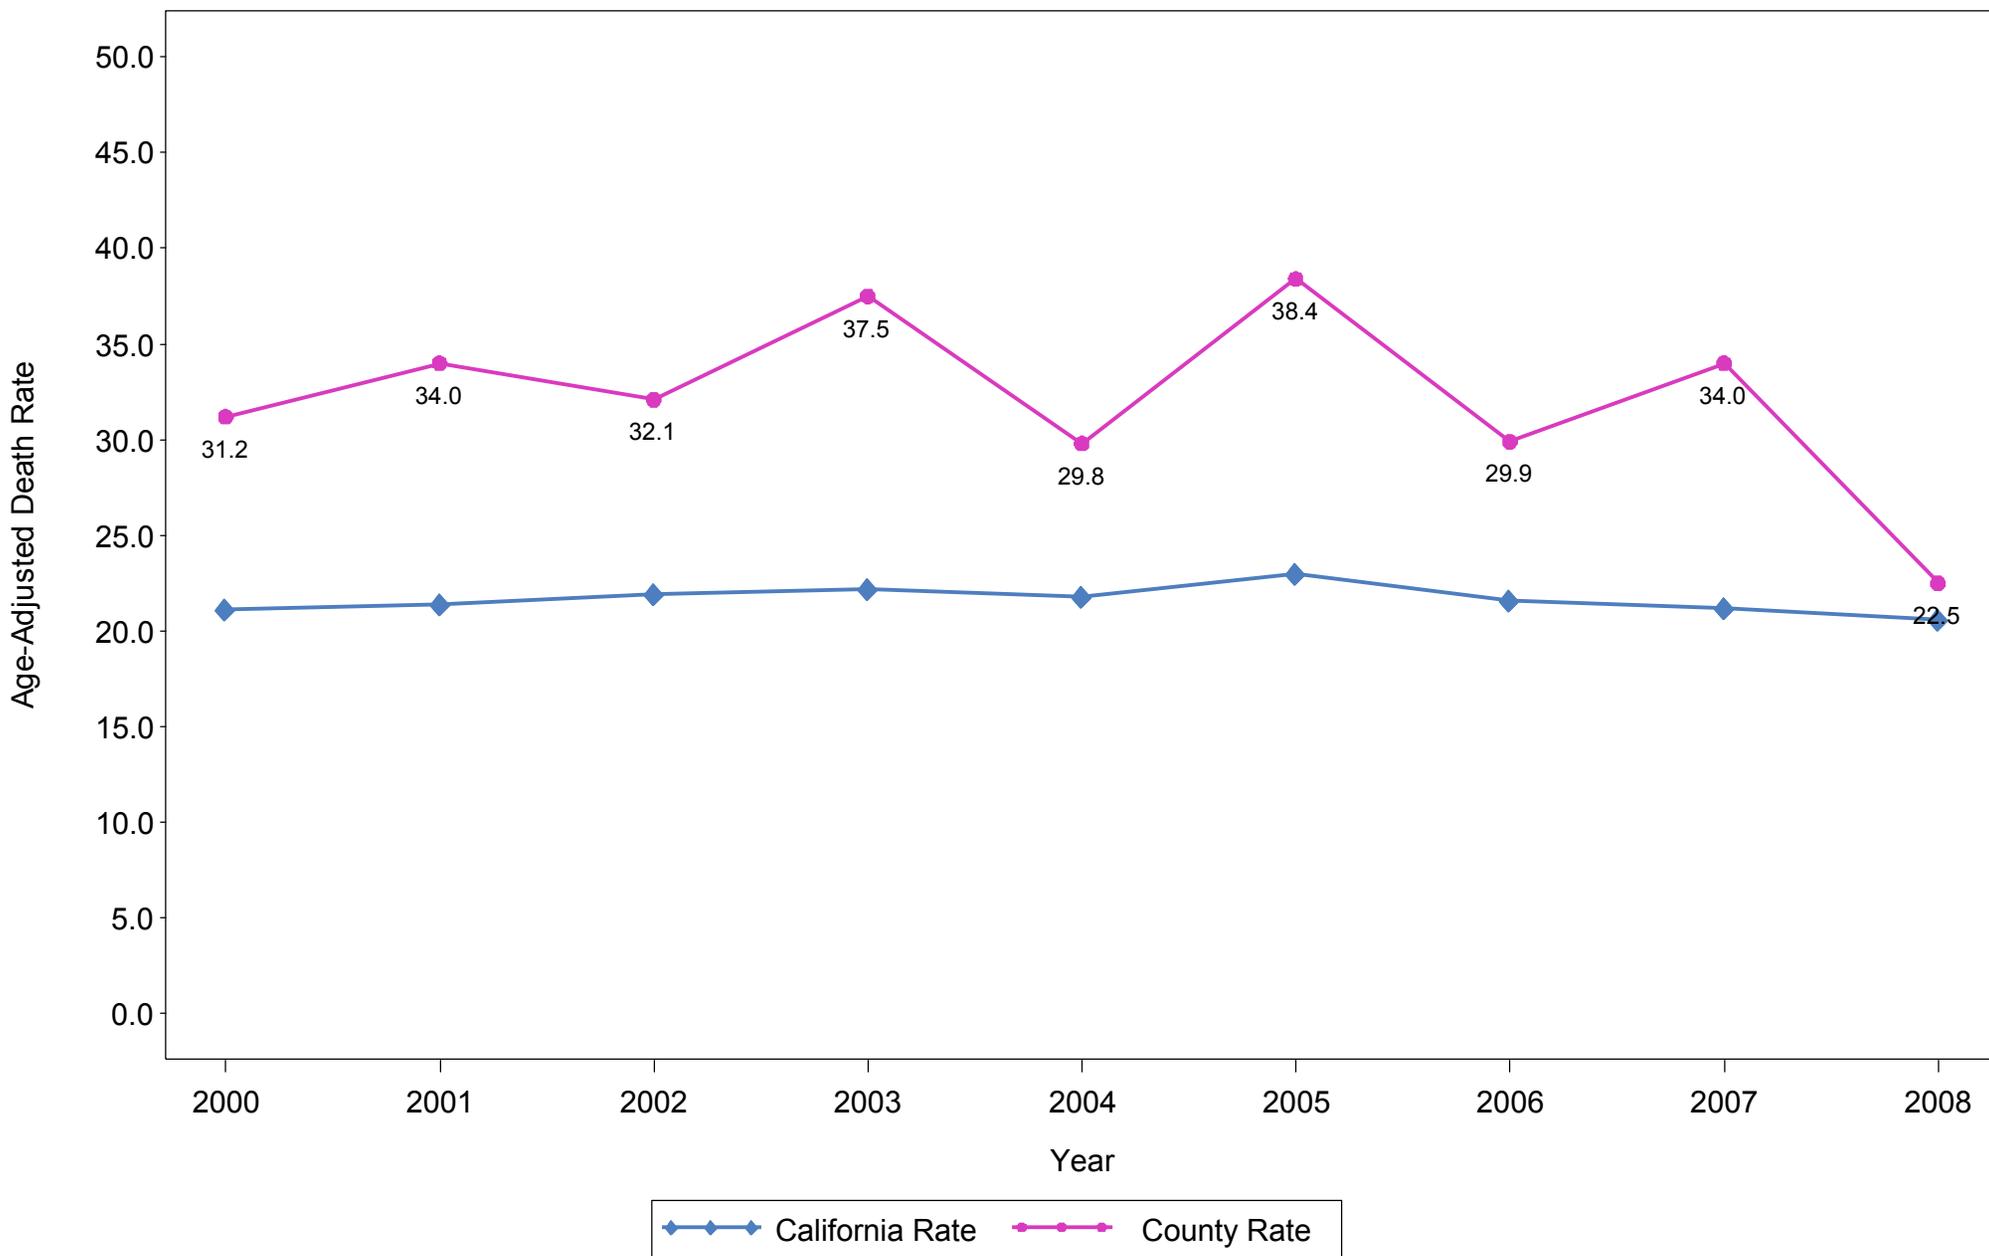

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Stanislaus County

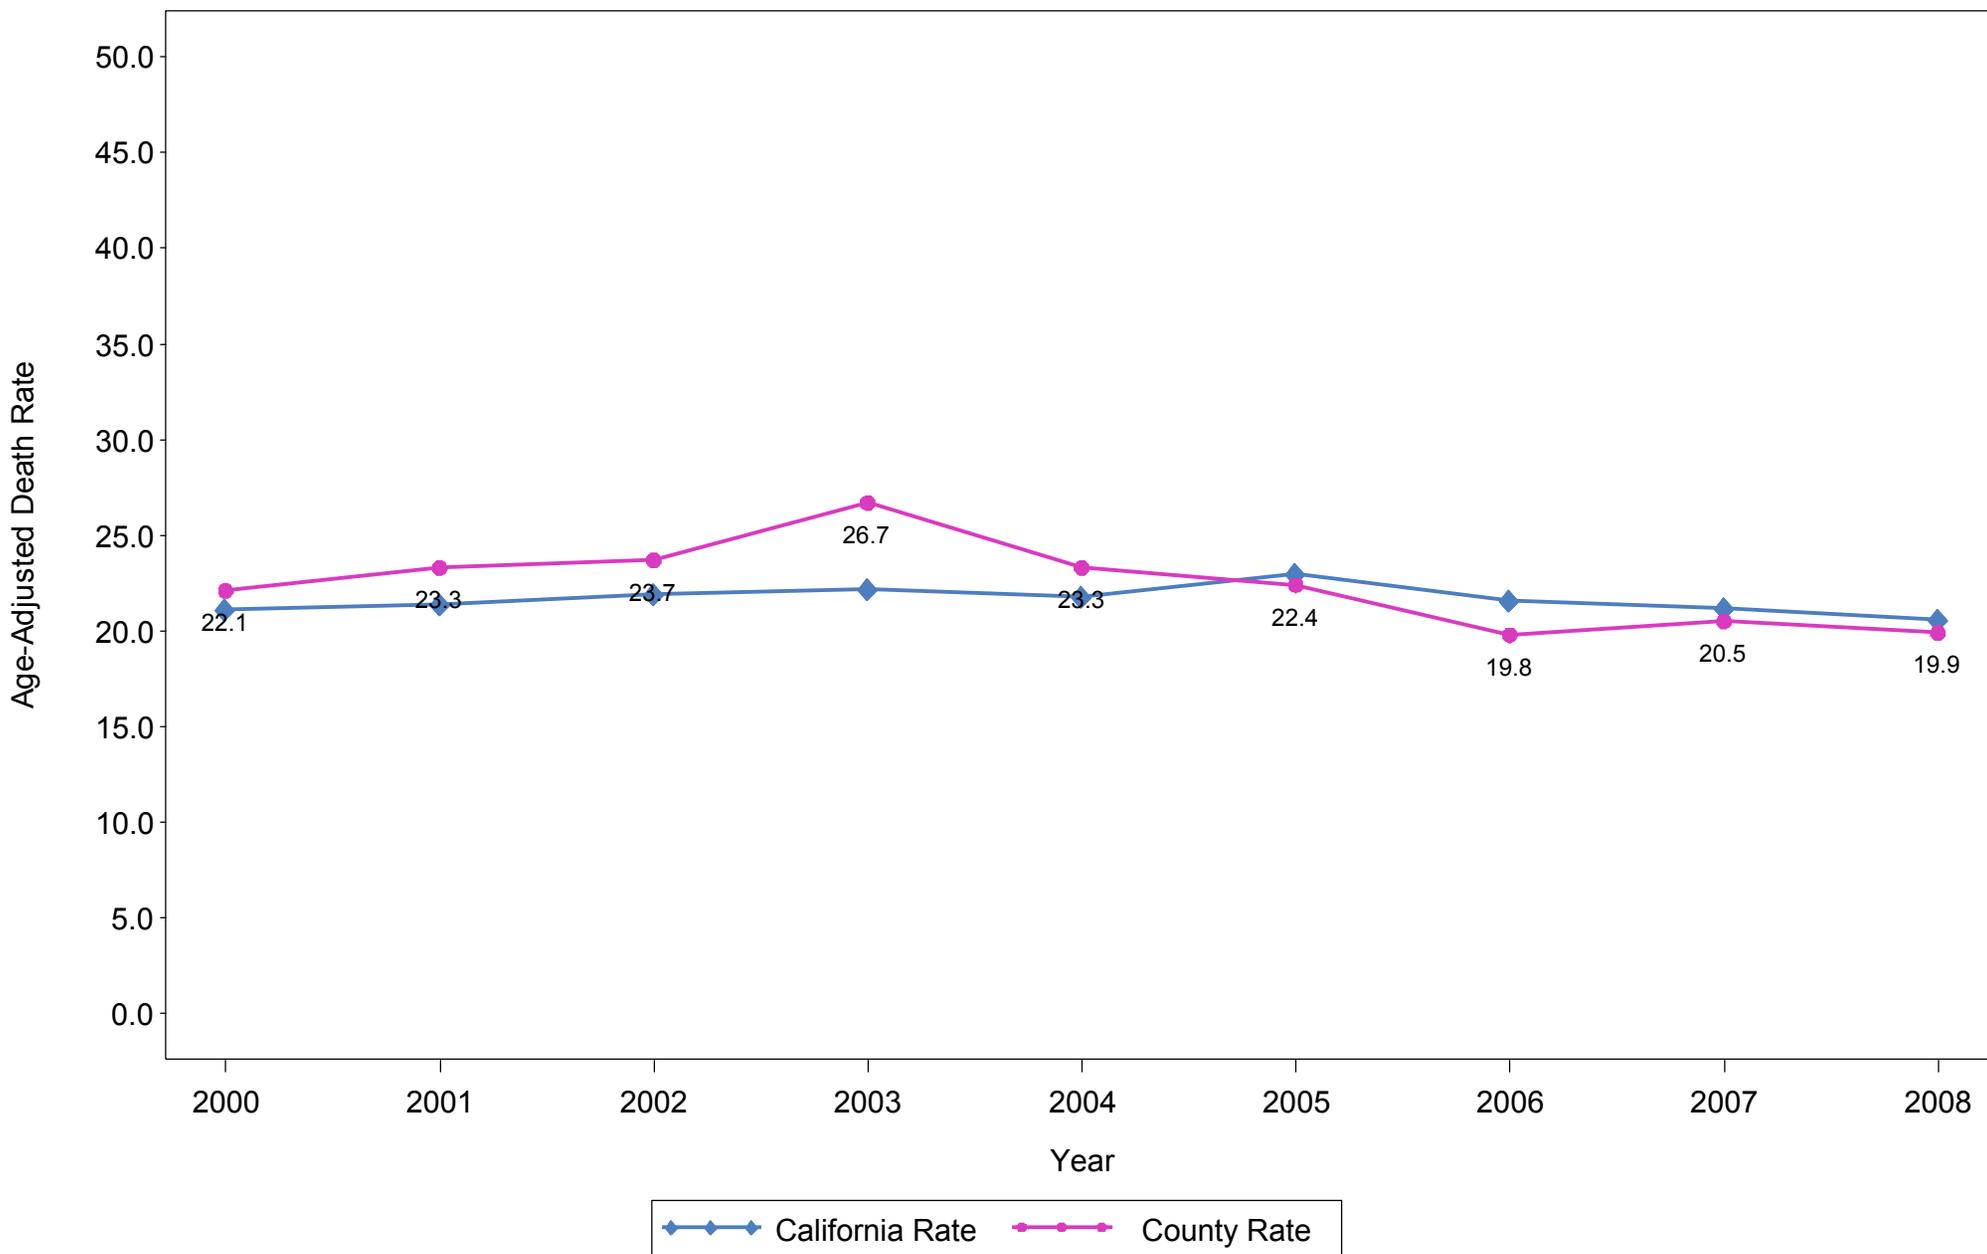

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Tulare County

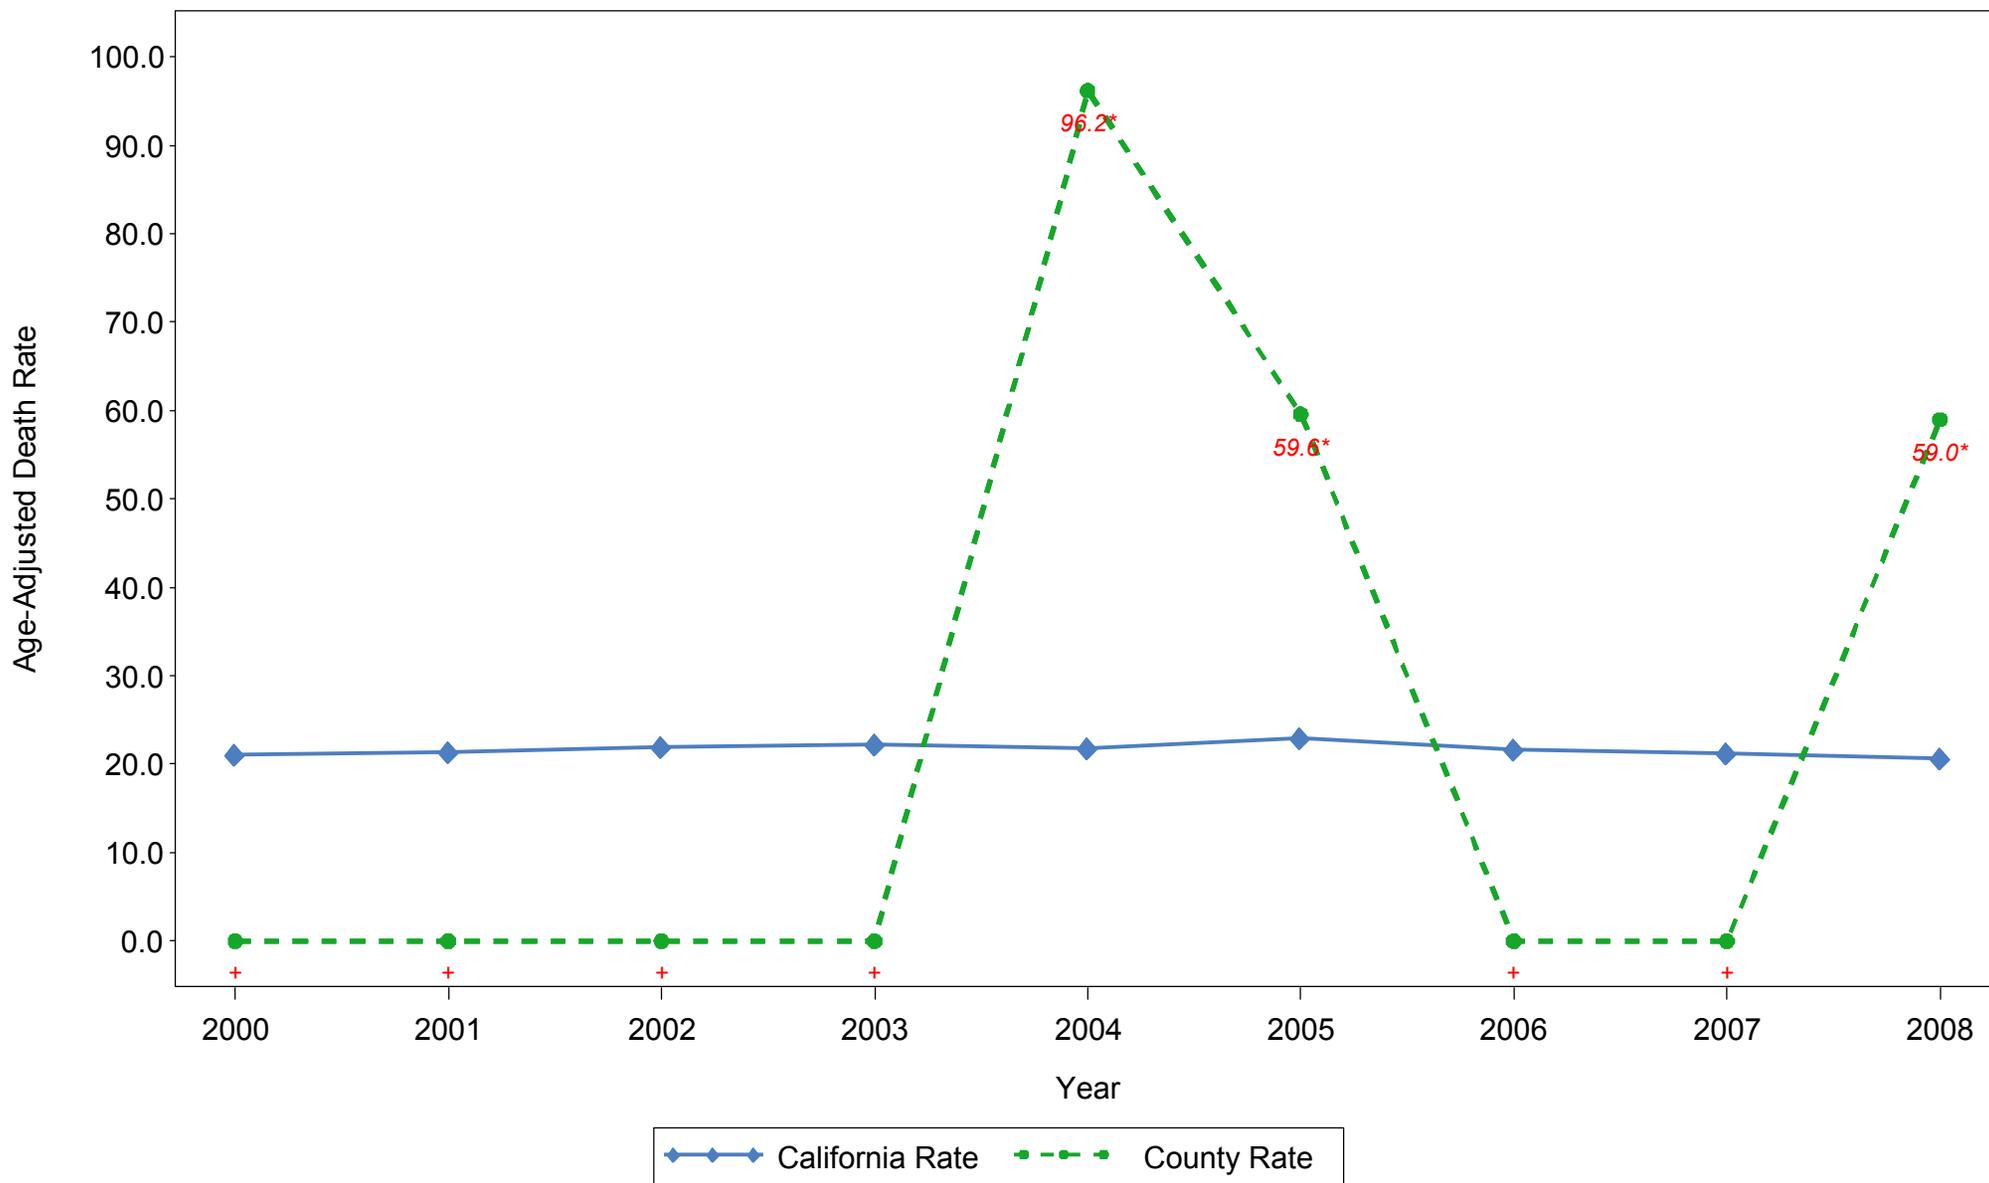

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Yolo County

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

Diabetes Age-Adjusted Death Rates, 2000-2008  
Alpine County

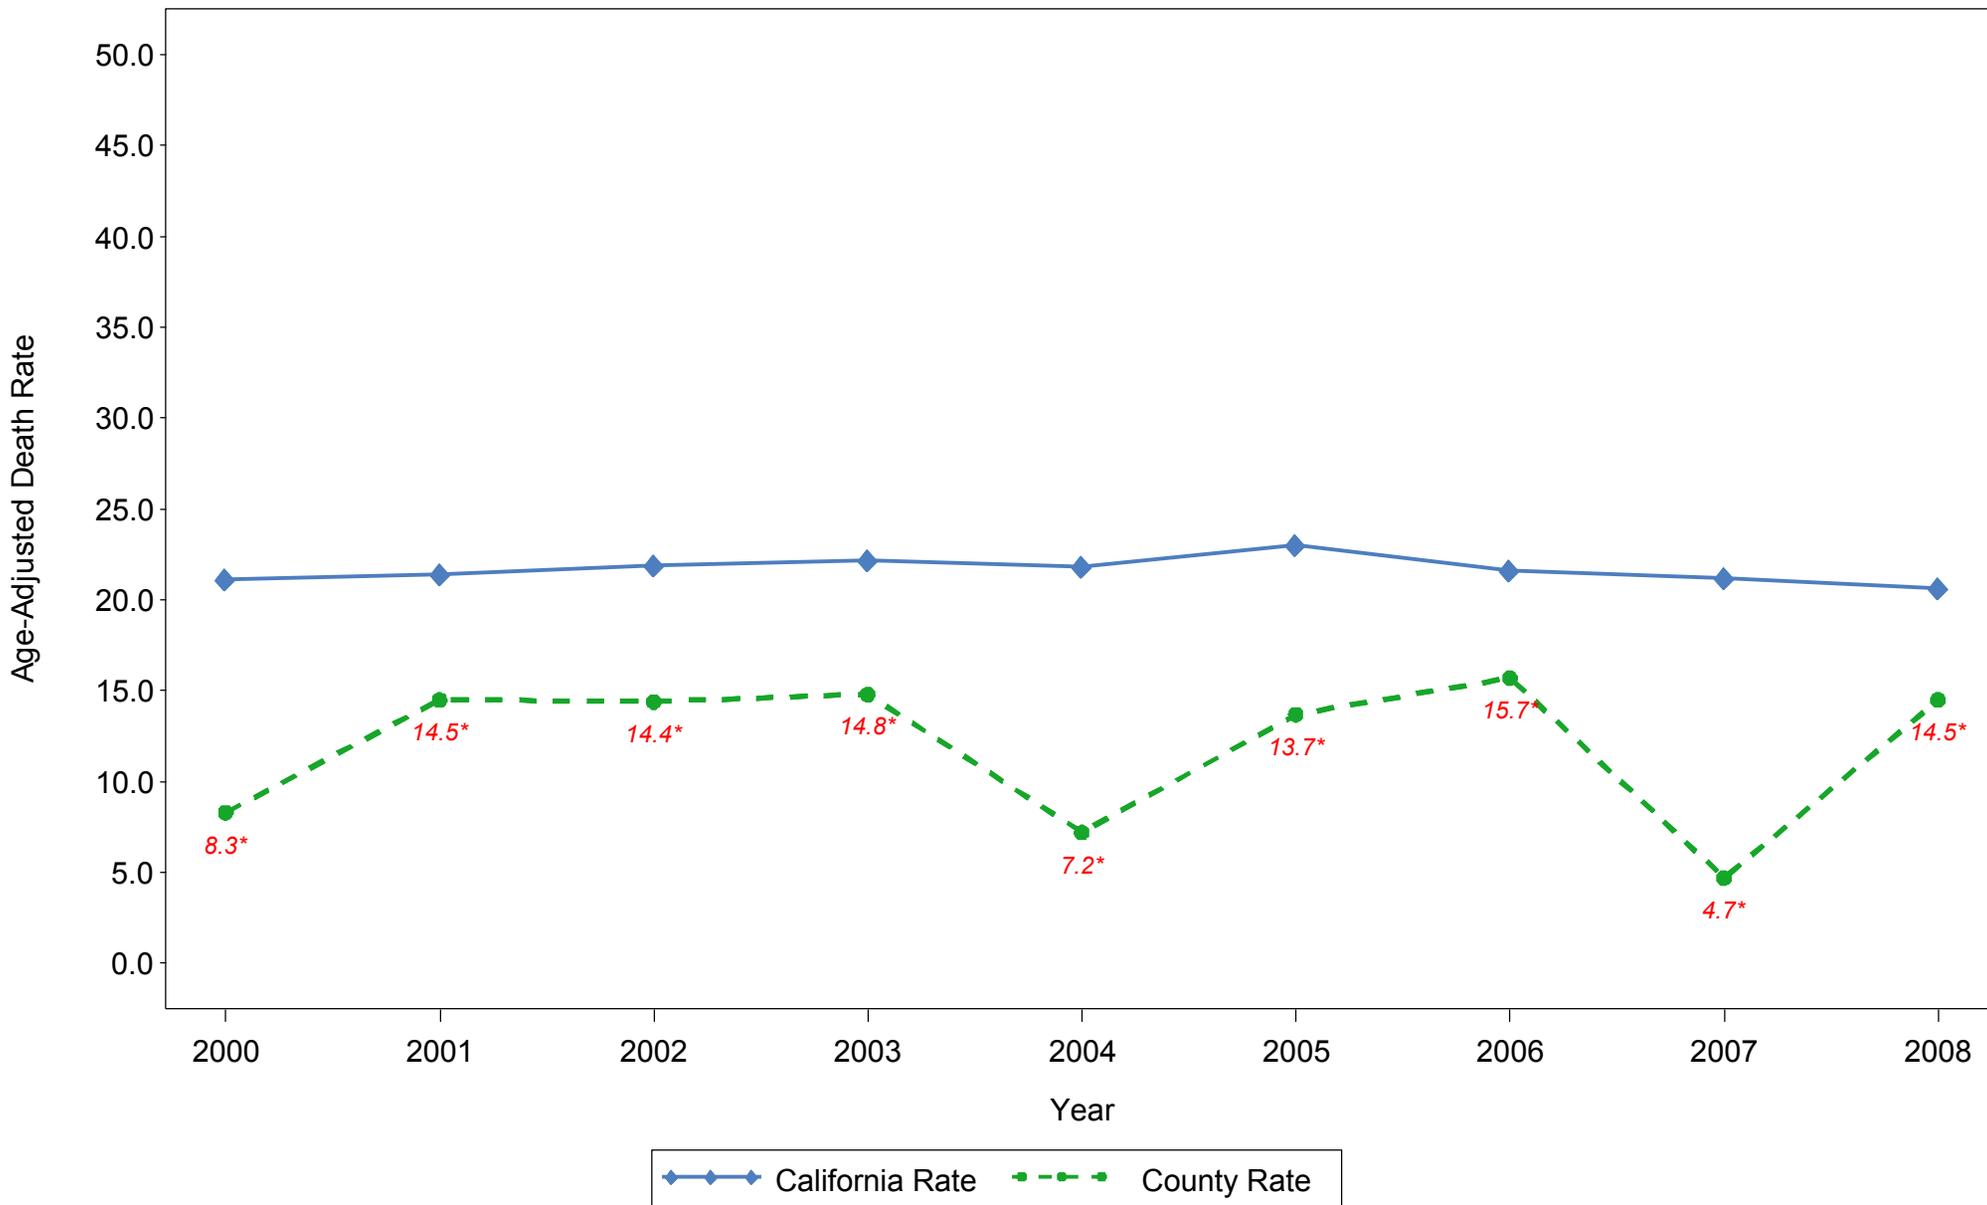

\* Rate is considered unreliable and should be interpreted with caution.

+ Rate is indeterminate; no diabetes deaths occurred during the year.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.

Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

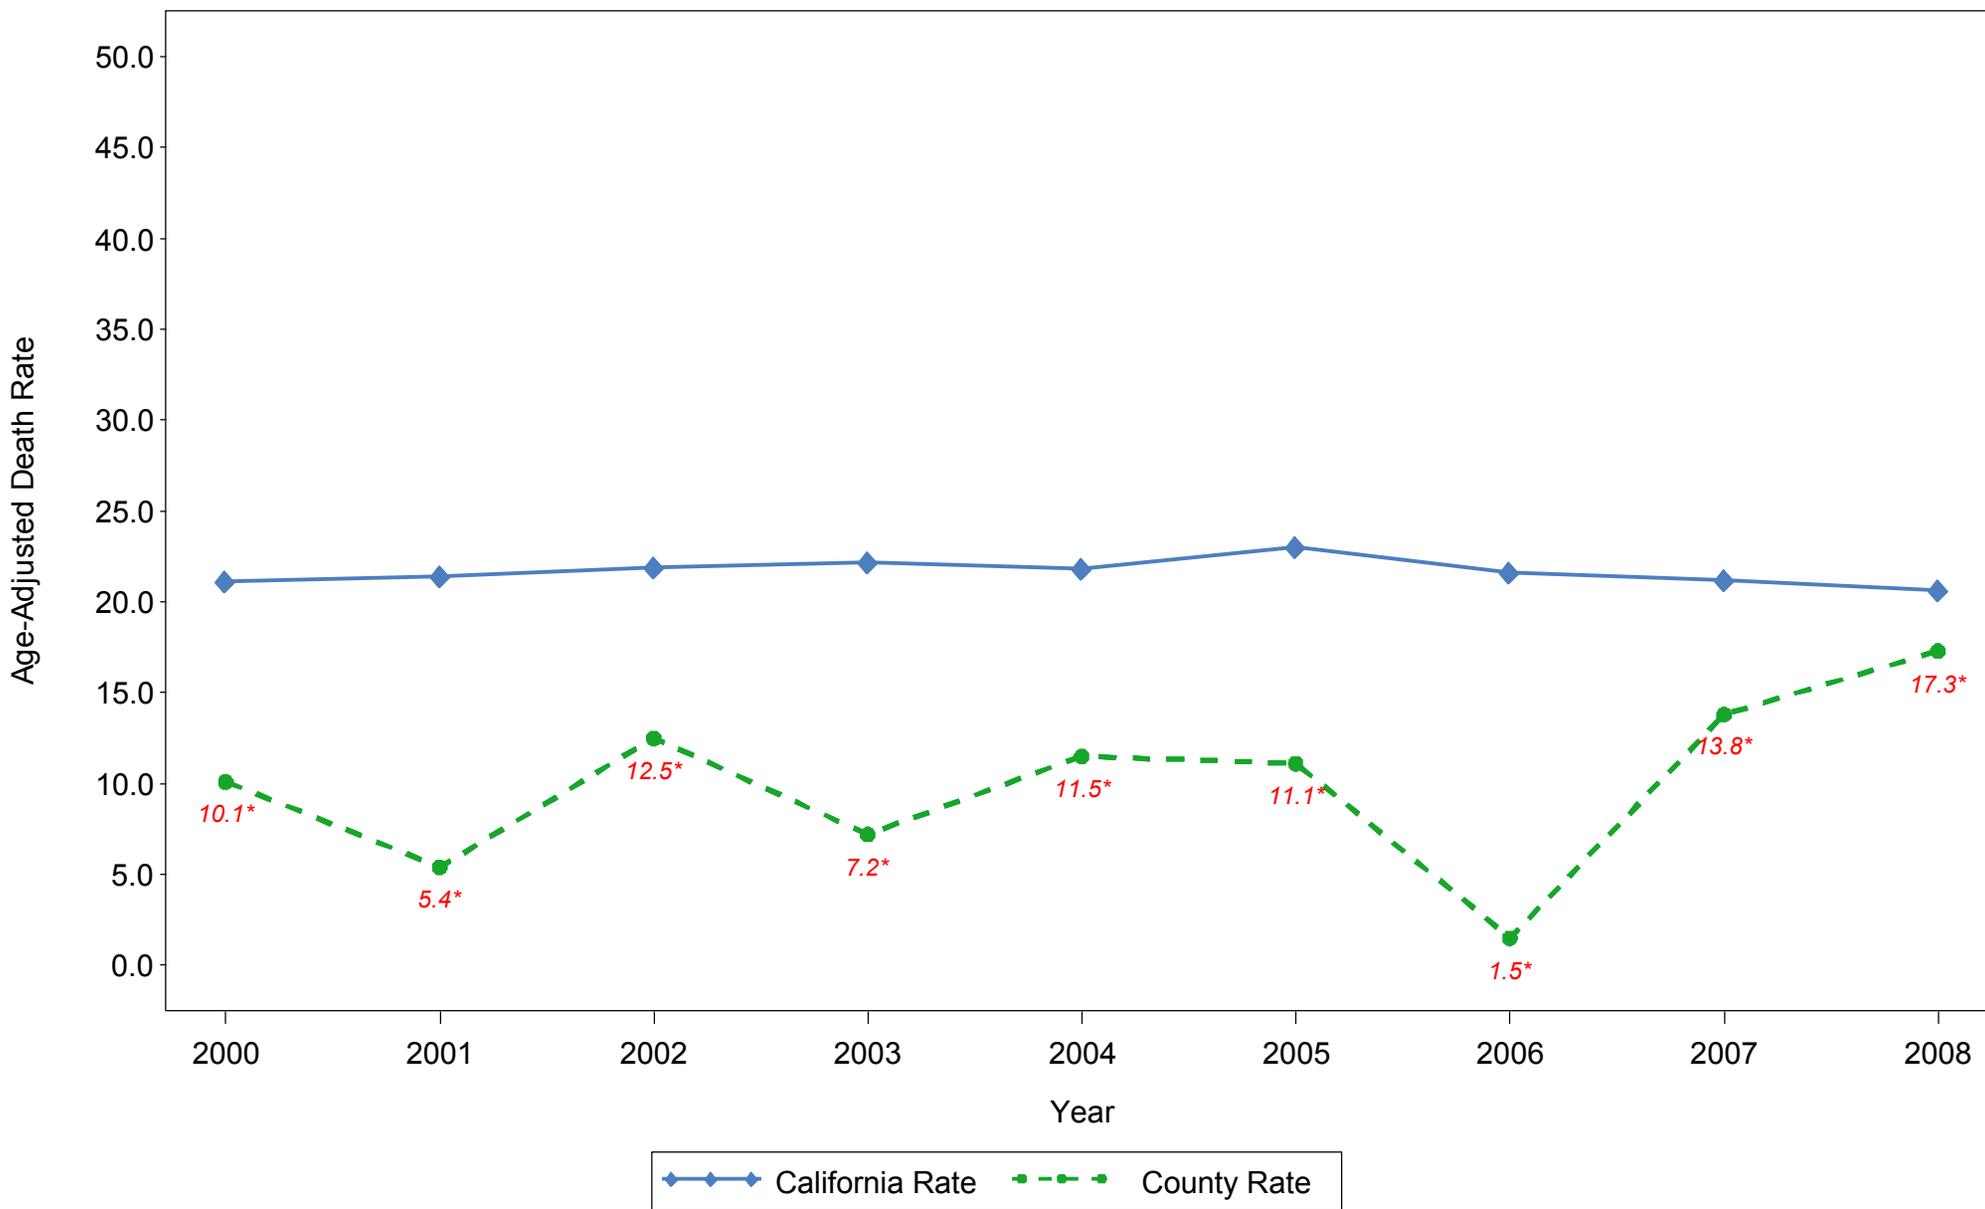

Diabetes Age-Adjusted Death Rates, 2000-2008  
Amador County

\* Rate is considered unreliable and should be interpreted with caution.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

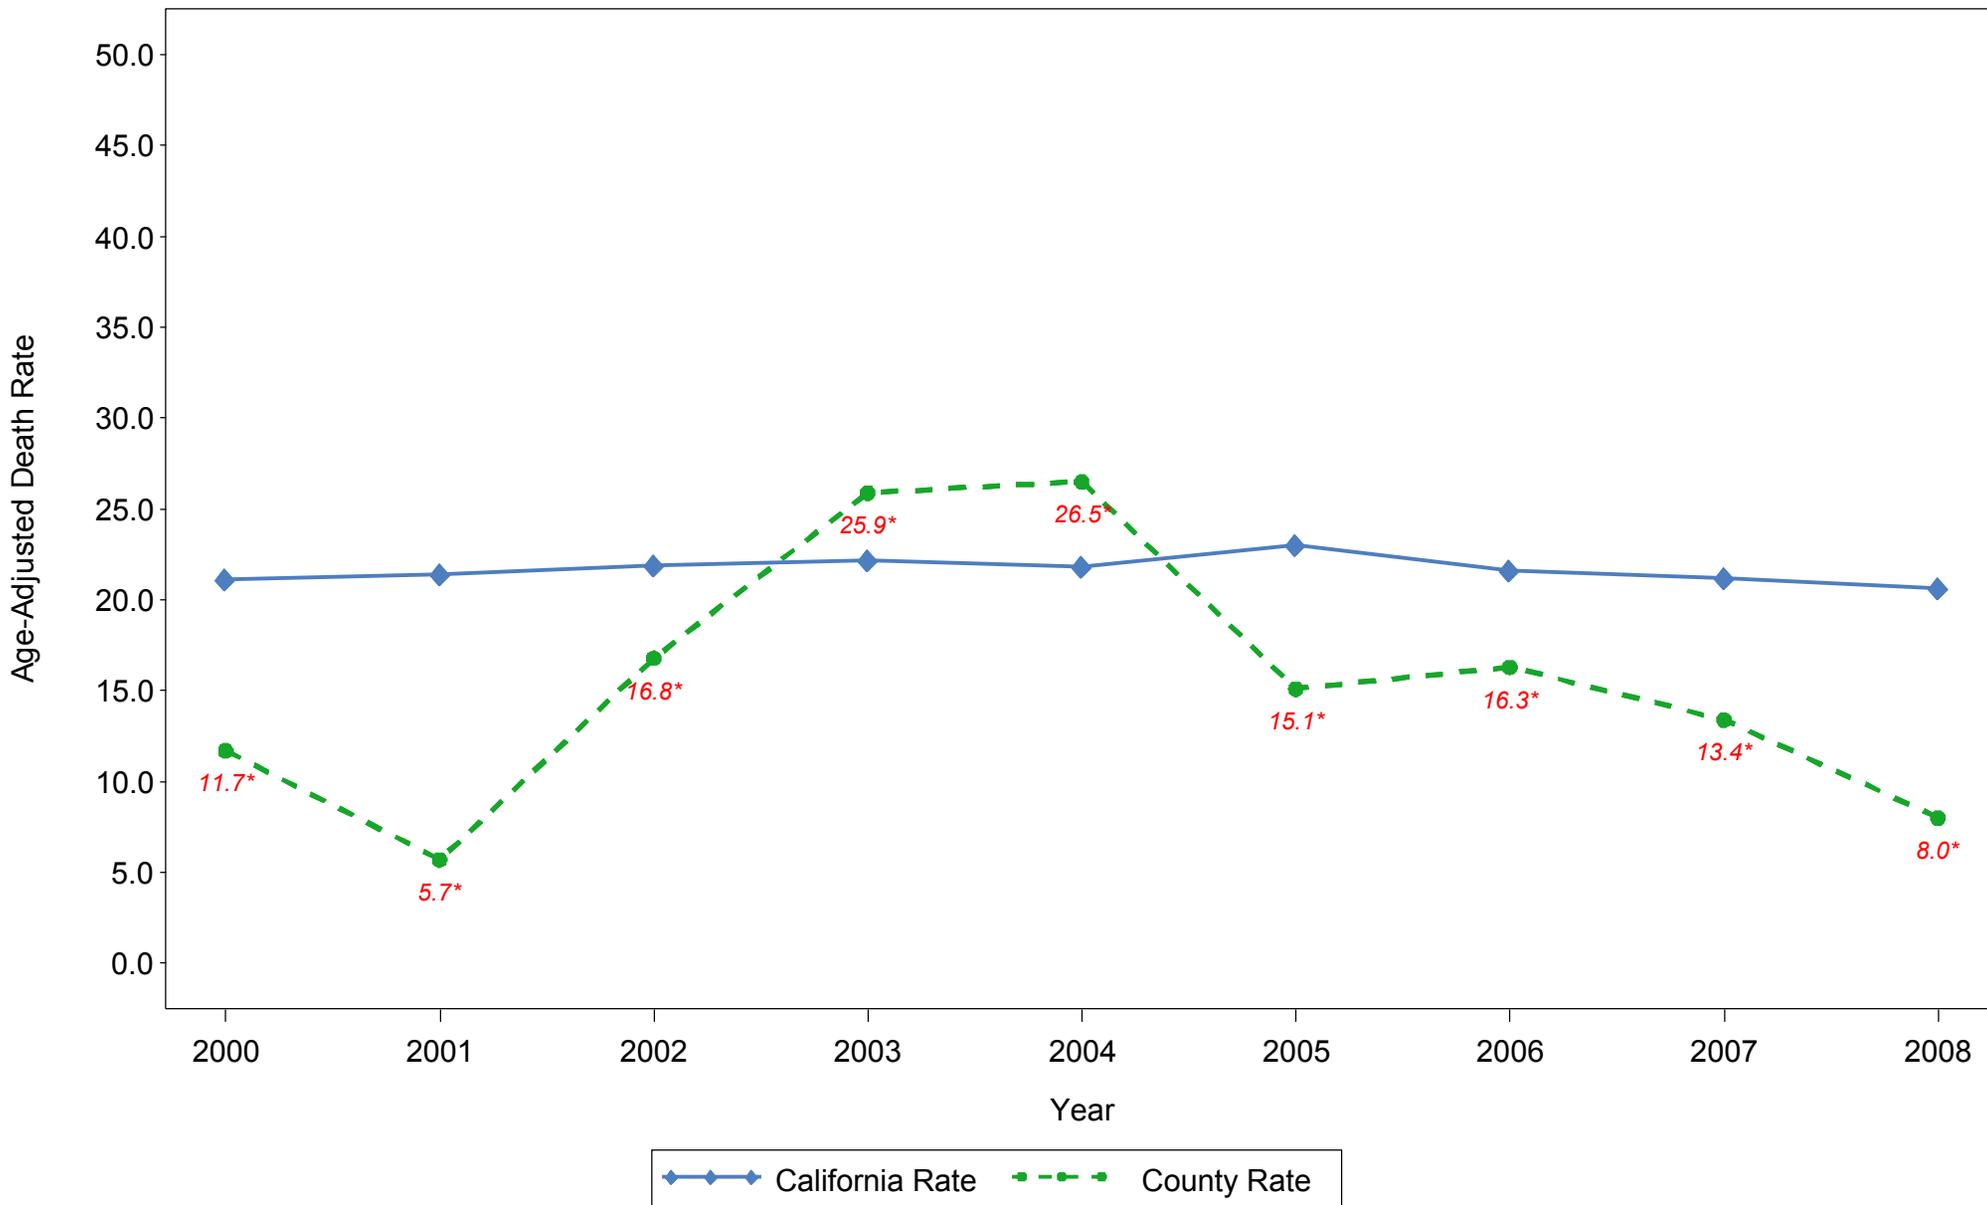

Diabetes Age-Adjusted Death Rates, 2000-2008  
Calaveras County

\* Rate is considered unreliable and should be interpreted with caution.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.  
Note: Rates are per 100,000 population and are age-adjusted using the year 2000 U.S. standard population.

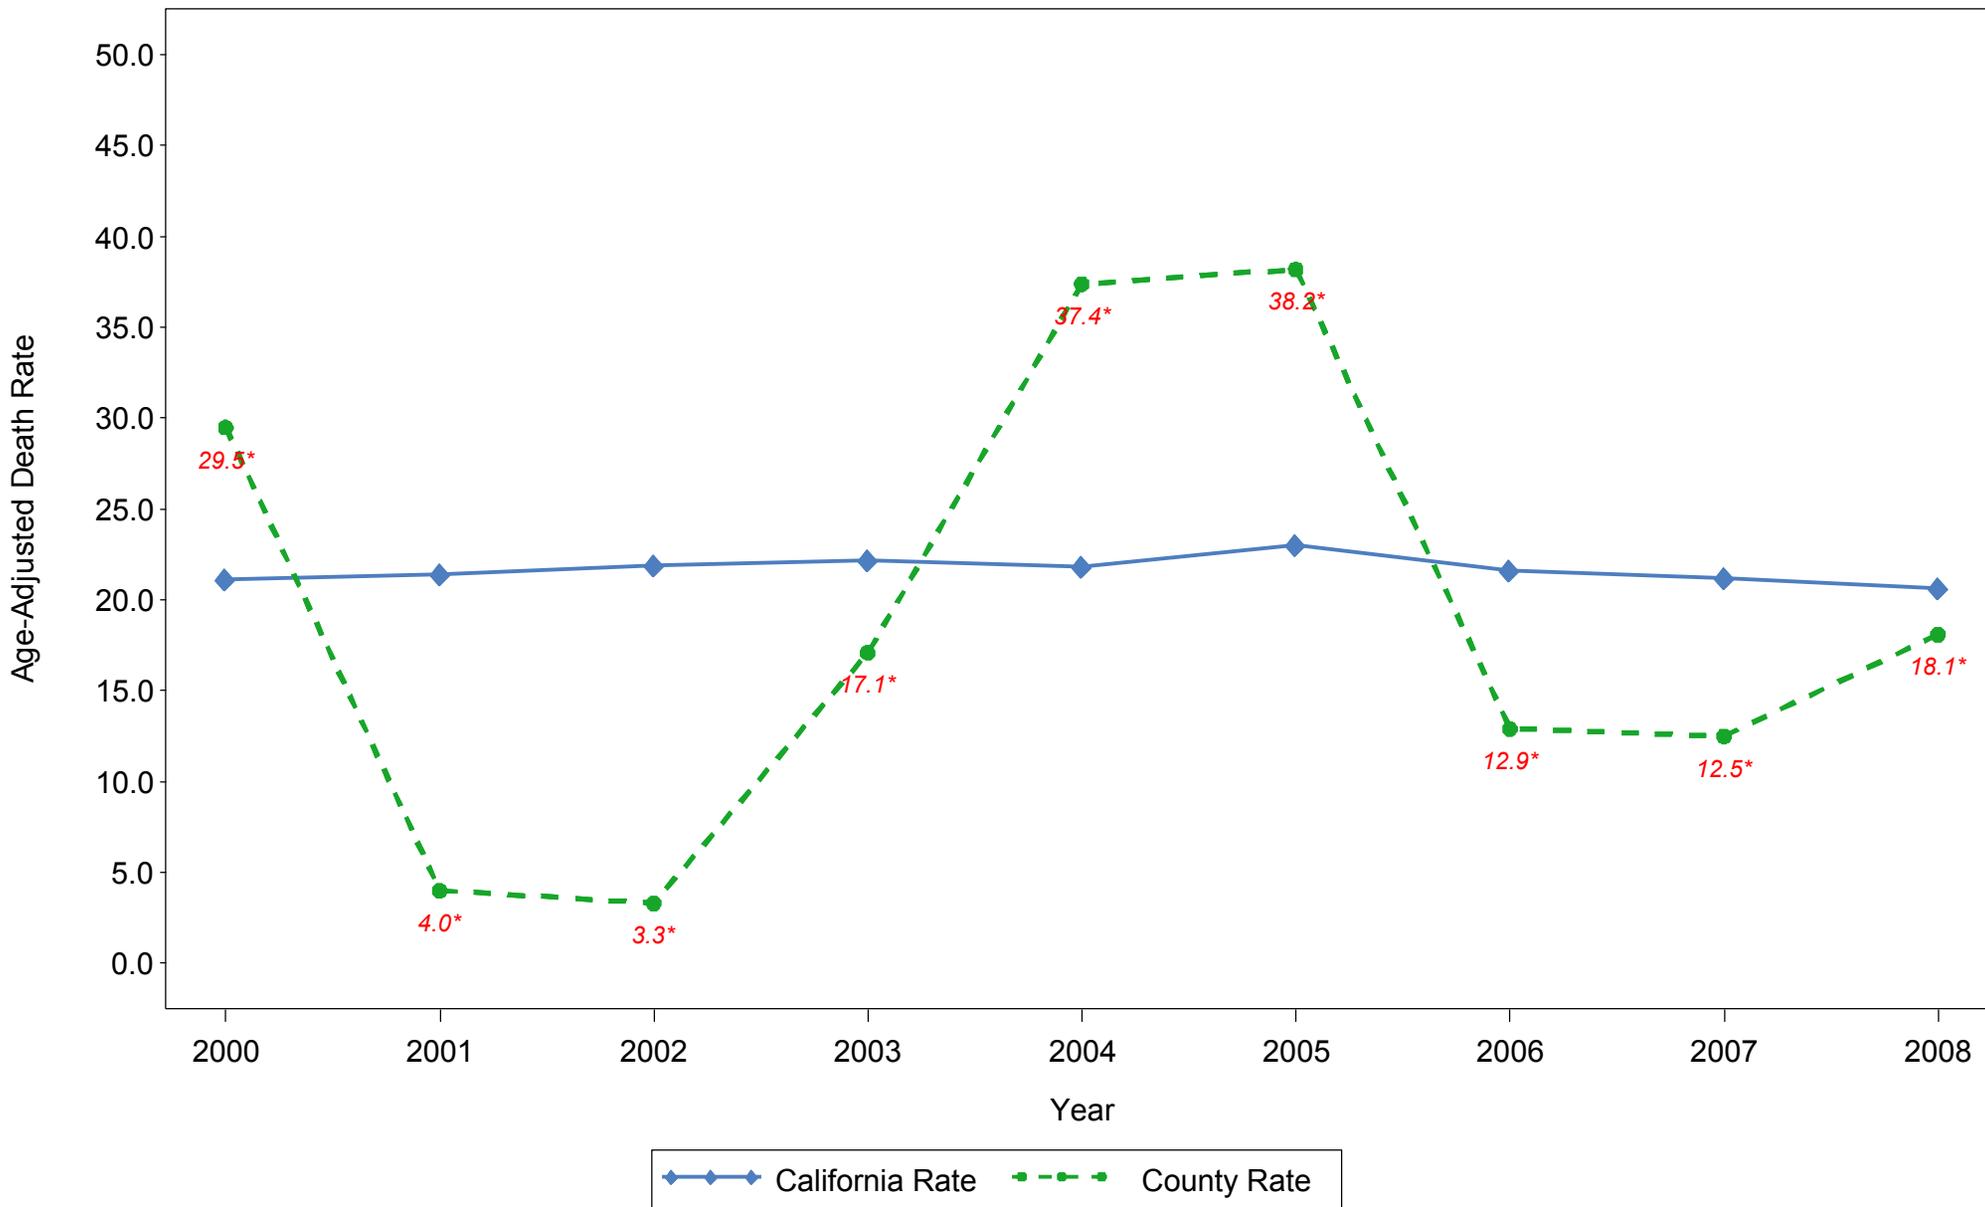

Diabetes Age-Adjusted Death Rates, 2000-2008  
Colusa County

\* Rate is considered unreliable and should be interpreted with caution.

Sources: California Department of Public Health, Death Records; California Department of Finance, Race/Ethnic Population with Age and Sex Detail, 2000-2050, July 2007.
