Guides and Training Materials for Lead-Safe Work in General Industry

An easy-to-use approach for employers, workers, unions and others interested in setting up a lead safety program.

LEAD IN THE WORKPLACE A Guide for Employers (50 pages)

Offers a practical approach to setting up a lead safety program & answers such questions as:

- ➔ How can you find out if lead is used in your business?
- ➔ How does lead affect your health?
- ➔ What can you do to control lead hazards?
- ➔ How do you know if your control program is working?

With each guide you receive:

- ➔ Cal/OSHA-required lead warning posters
- ➔ Helpful resource materials

HOW TO PREVENT LEAD POISONING ON YOUR JOB! A Worker's Guide (43 pages) (Available in English and Spanish)

Explains what lead safety on the job is and answers many questions such as:

- ➔ Where is lead found?
- ➔ How does lead affect your health?
- ➔ Is too much lead a problem at your job?
- ➔ What are the ways to prevent lead poisoning?
- ➔ What are your legal protections?
