

Viewing Bookmarks in the PDC Protocol Manual

The PDC Protocol Manual has been enabled with bookmarks that allow you to jump directly to the chapter or appendix of your choice. To view the bookmarks, click on the “Bookmark” icon in the left side of Adobe Reader. This is the icon shaped like a page with a blue cloth bookmark.

Clicking on the icon will open the bookmark sidebar on the left side of the screen. It can also be accessed through the menus at View > Navigation Panels > Bookmarks. This sidebar can be resized to view the bookmark titles without text wrapping.

The bookmark sidebar can be hidden and re-opened by clicking again on the bookmark icon.
