* All jurisdictions with one to four cases are given the same rank, and all jurisdictions with zero cases are given the same rank.

\- Indicates zero cases.

. Rates not calculated where number of cases is less than 5.

\+ Due to revisions in population projections by the California Department of Finance in July 2007, TB rates for 2007 may not be directly comparable to previous years.

Note: Data as of 3/1/2008. Case numbers and rates may change slightly in future reports.
