

2

Minimum Stocking Requirement

Objectives:

- Provide authentic real time scenarios that are instrumental to learning
- Activity and learning process is Participant Centered
- Relationship based learning through peer input; creates partnership; evokes peer reliance
- Provides discussion platform for group resolution and buy in
- Ensures awareness of common concerns and provides resolution consistency
- Provides a fun and safe environment in which to probe for learning

Activity: Case Studies

An individual case study will be inserted into inflated balloon or written on colored card. LVL will select a balloon to pop or card to read. LVL will read aloud the case study and lead the discussion with group to determine what appropriate action to take based on policy, best practice and expertise. [All balloons and cards in this category will be blue.](#)

MSR

1. During the MSR review it is noted that the vendor is under stocked. The vendor quickly responds with statements such as, "It's on order, "the shipment is delayed, "the truck didn't come this week, or "we just ran out" etc.
2. You noticed the infant formula is not on the shelf but behind the counter. The vendor informs you that they are experiencing a high theft rate therefore they must keep it out of reach.
3. Throughout your MSR review you are unable to locate food items in the store.
4. You noticed several pieces of fruit were overripe and some of the vegetables are wilted and notably aged beyond freshness.

Supplies needed:

- Balloons, inflator – hand pump
- Individual case study strips pre cut
- Laminated colored cards
