

WIC MIS CHANGE RELEASE NOTICE For Local Agencies

Purpose The Change Release Notice provides updated information to CDPH WIC and all WIC Local Agency staff about new features, enhancements to existing features, and defects fixed that are now available in production.

The table below indicates the WIC MIS system schedule for a Change Release that was deployed to production, including the effective date.

Schedule

	DESCRIPTION	DAY	DATE	CHANGE RELEASE ID
1	Change Release	Saturday	May 21, 2016	10363
	Effective Date	Monday	May 23, 2016	

WIC MIS CHANGE RELEASE NOTICE

Scheduled Date:	MAY 21, 2016	Effective Date:	MAY 23, 2016	Change ID#:	10363
-----------------	--------------	-----------------	---------------------	-------------	-------

Fixes

This section is used to describe fixes to existing features that were the result of a defect.

- The three NF (no food, increased formula) packages (IFNF, ICNF and IONF) were missing from the pick list in the Change Issued path for infants 9 to 11 months on the "Change Food Package" screen.

PROBLEM:	The IFNF, ICNF and IONF (no food, increased formula) packages did not appear on the pick list for infants 9 to 11 months.
RESOLUTION:	The IFNF, ICNF and IONF packages now appear on the pick list for infants 9 to 11 months when going through the Change Issued path.

- WIC MIS automatically inserts a hold on an infant's 9th month of birth. If the hold was removed at the "Prescribe Food Package" screen, and the Change/Browse path or the 'S, F6' function was used to go back into the prescription, the hold would reappear.

PROBLEM:	If the 9 th month hold was removed at the "Prescribe Food Package" screen, and the Change/Browse path or the 'S, F6' function was used, the hold would reappear on the "Prescribe Food Package," "Change/Browse Prescription," and "Prepare Family Packages" screens.
RESOLUTION:	If the 9 th month hold is removed at the "Prescribe Food Package" screen, and the Change/Browse path or the 'S, F6' function is used, the hold will no longer reappear.

Enhancements This section is used to describe changes to existing features that were not the result of a defect.

- Farmer's Market Nutrition Program (FMNP) individual checks have been increased from \$4.00 to \$5.00. This caused the number of coupons per booklet to decrease from 5 to 4, as is now indicated in the FMNP Booklet Inventory screens.

CURRENT:	With FMNP individual checks valued at \$4.00 each, the booklets were comprised of 5 coupons; as was indicated on the "Receive FMNP Booklet Shipment" and "Browse FMNP Booklet Inventory" screens.
CHANGE:	With the FMNP individual checks now valued at \$5.00 each, the booklets are comprised of 4 coupons; as is now indicated on the "Receive FMNP Booklet Shipment" and "Browse FMNP Booklet Inventory" screens.
