

To Print/Modify Configuration:

1. Press **Alt** & **Setup** keys together to display the printer menu.
2. Select **Font** to print 'all' current configuration
3. Compare configuration to 'Everything You've Always Wanted to Know about ISIS Hardware Troubleshooting' Manual, Section 10'
4. If discrepancies, change the settings by **Category Type**
5. Select category you want to change (e.g. Forms Macro Options)
6. Make changes in the submenu. [Click here to view the menu options](#)

Example: To change 'Form Length:'

- a. Press **Pitch** for Forms Macro Options
- b. Press **Alt** for Paper Handling Options
- c. Press **Micro** ↑ to change the Form Length
- d. Continue to press keys until you have the desired setting
- e. Once set, press **Start/Stop** until printer is reset (moves up & down)
