Subject:

• **Remove CDPH evaluation of a laboratory's performance on proficiency tests.**

Finalized: Laboratories will direct approved providers to submit all external proficiency test results as required by HS 100702 to the Department. The laboratories will have submitted, at a minimum, one test *per analyst per year*. In addition, laboratory staff will provide the Department any documentation pertaining to corrective actions with respect to proficiency tests.

Paul, do you recall where in Title 17 that this is to be inserted or what it is to replace? I don't think we hashed that out, and I think I need to know that.

Tks, J

Jennifer Shen
Crime Laboratory Manager
