

**CALIFORNIA DEPARTMENT OF PUBLIC HEALTH
PROPOSITION 84, SECTION 75022 - First and Second Round Active Projects List
Small Community Infrastructure Improvements for Chemical and Nitrate Contaminants**

NOTE: The information on this list is current as of the date indicated below. The current applications are being processed so the statuses of the active projects are expected to change.

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
FIRST ROUND PROJECTS					
ACTIVE PROJECTS (APPLICATION IS BEING PROCESSED)					
23	Lake Morena's Oak Shore MWC	P84C-3700923-001C	[Construction] Nitrate exceedance - Construct the water infrastructure designed in feasibility study P84C-3700923-001	\$1,069,000	
17	Hillview Water Company - Oakhurst/Sierra Lakes	P84C-2010007-005C	[Construction] Letter of Commitment Executed Arsenic and uranium exceedances - Construct the water infrastructure designed in feasibility study P84C-2010007-005	\$4,705,664	\$4,705,664
16	Riverdale Public Utility District	P84C-1010028-002C	[Construction] Co-funded with SRF Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-1010028-002	\$7,500,000	
FUNDED PROJECTS (WITH EXECUTED FUNDING AGREEMENTS)					
30	Wilson Elementary School	P84C-4901136-001	[Construction] Co-funded with ARRA - PROJECT COMPLETE Arsenic exceedance - consolidation with City of Petaluma	\$1,125,000	\$65,490
26	Pauma Valley Mutual Water Company	P84C-3700934-001	[Feasibility Study] Nitrate exceedance - study to evaluate options to consolidate with neighboring water systems	\$483,800	\$483,800
26	Fairways Tract Mutual Water Company	P84C-5400663-001	[Construction] - PROJECT COMPLETE Nitrate exceedance in two wells - consolidation with City of Porterville	\$916,105	\$916,105
24	Edmundson Acres Water System	P84C-1500190-002	[Construction] Co-funded with ARRA - PROJECT COMPLETE Arsenic exceedance - consolidation with Arvin CSD	\$1,524,371	\$19,004
24	Lovell School	P84C-5400634-001	[Construction] Co-funded with SRF - PROJECT COMPLETE Nitrate & DBCP exceedances - consolidation with Cutler PUD	\$926,900	\$185,380
24	Pratt Mutual Water Co	P84C-5410033-003C	[Construction] Co-funded with SRF Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-5410033-003	\$4,904,514	\$4,904,514
24	Pratt Mutual Water Co	P84C-5410033-003	[Feasibility Study] Co-funded with SRF - PROJECT COMPLETE Arsenic exceedance in three wells - study to design the pipeline to interconnect to the City of Tulare	\$486,500	\$95,485
23	Lake Morena's Oak Shore MWC	P84C-3700923-001	[Feasibility Study] - PROJECT COMPLETE Nitrate exceedance - study to design a treatment plant and consolidate with the Lake Morena RV Park water system.	\$147,000	\$147,000
23	Apple Avenue Water System #3	P84C-2701036-001	[Feasibility Study] Nitrate exceedance - study to design the facilities needed to consolidate with the City of Greenfield	\$67,000	\$67,000
23	LSID - El Rancho	P84C-5410052-001C	[Construction] Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-5410052-001	\$1,041,000	\$1,041,000
23	LSID - El Rancho	P84C-5410052-001	[Feasibility Study] - PROJECT COMPLETE Additional funds provided by Supplier Nitrate exceedance - study to evaluate consolidation with the City of Lindsay	\$168,143	\$130,760

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
23	Queen Motel Water System	P84C-2700706-002	[Construction] Nitrate exceedance - consolidation with Cal Water – King City	\$1,033,000	\$1,033,000
22	Tooleville Water Company	P84C-5400567-001	[Feasibility Study] Project funding through SRF only Arsenic exceedance - study to evaluate treatment options or possible consolidation with the City of Exeter	\$454,380	\$0
22	Kit Carson Elementary School	P84C-1600014-001	[Feasibility Study] - PROJECT COMPLETE Additional funds provided by Supplier Arsenic exceedance - study to design the pipeline for consolidation with the City of Hanford	\$320,203	\$281,383
22	South Fork School	P84C-1502260-001	[Construction] Co-funded with ARRA - PROJECT COMPLETE Uranium exceedance - new well and storage tank project	\$567,086	\$45,168
20	Aerial Acres Water System	P84C-1500405-001C	[Construction] Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-1500405-001	\$2,004,490	\$2,004,490
20	Aerial Acres Water System	P84C-1500405-001	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance in two wells - study to evaluate treatment options and then design the selected treatment alternative	\$188,373	\$154,511
19	Arvin Community Services District	P84C-1510001-001 P84C-1510001-001P2	[Feasibility Study] Arsenic exceedance in five wells - study to identify three new well locations and then design three production wells	\$499,432	\$499,432
19	Cutler PUD	P84C-5410001-001	[Construction] Nitrate and DBCP exceedances - construct new production wells and blending tank to replace contaminated wells	\$2,931,300	\$2,931,300
18	Alpaugh Joint Powers Authority	P84C-5410050-001 P84C-5410050-001P2	[Feasibility Study] Arsenic exceedance - study to evaluate treatment options and then design the selected treatment alternative	\$474,253	\$474,253
18	Keeler CSD	P84C-1400036-006	[Feasibility Study] - Project funding through SRF only Arsenic exceedance - study to design new production wells and treatment	\$304,650	\$0
18	City of McFarland	P84C-1510013-002 P84C-1510013-002P2	[Feasibility Study] Arsenic exceedance at Garzoli Well - study to evaluate ion exchange, adsorption, and oxidation/coagulation/filtration treatment options	\$251,798	\$251,798
18	Mojave PUD	P84C-1510014-001	[Construction] Arsenic exceedance - new well and centralized treatment plant	\$5,000,000	\$5,000,000
17	Hillview Water Company - Oakhurst/Sierra Lakes	P84C-2010007-005	[Feasibility Study] - PROJECT COMPLETE Arsenic and uranium exceedances - study to determine the most cost effective treatment solution and design the selected alternative	\$500,000	\$500,000
16	Lewiston CSD (formerly Lewiston Valley Water Company, Inc.)	P84C-5301002-001C	[Construction] Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-5301002-001	\$1,386,000	\$1,386,000
16	Lewiston Valley Water Company, Inc.	P84C-5301002-001	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - study to determine the most cost effective, constructible solution	\$313,500	\$313,500
16	Riverdale Public Utility District	P84C-1010028-002	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - study to evaluate treatment options and then design the selected treatment alternative	\$499,800	\$494,977

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
16	Tranquility Irrigation District	P84C-1010030-002C	[Construction] Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-1010030-002	\$4,508,100	\$4,508,100
16	Tranquility Irrigation District	P84C-1010030-002	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedances at Wells No. 4 and 5 - study to evaluate the possibility of drilling new production wells	\$497,000	\$490,618
14	Pinon Pines Mutual Water Company	P84C-1510054-001 P84C-1510054-001P2	[Feasibility Study] Fluoride exceedance - study to design treatment facilities	\$477,500	\$477,500
Subtotal First Round Projects:		33	Subtotal First Round Costs:	\$47,275,862	\$33,607,233

SECOND ROUND PROJECTS

ACTIVE PROJECTS (APPLICATION IS BEING PROCESSED)

26	Hanford, City of	P84C-1610003-004C	[Construction] Construct regional consolidation project designed in feasibility study P84C-1610003-004 (Lacey Courts MHP, Four Seasons MHP, and Hamblin MWC).	\$4,352,800	
26	Richgrove Community Services District	P84C-5410024-002C	[Construction] Arsenic, DBCP exceedances - Construct infrastructure designed in feasibility study P84C-5410024-002 (Rodriguez Labor Camp (P84C-5400735-002))	\$4,430,000	
25	R.S. Mutual Water Company	P84C-1500458-001	[Feasibility Study] Arsenic and uranium exceedance - study to design facilities to consolidate with California Water Service Company - Kernville	\$130,000	
23	MD#43 Miami Creek Knolls	P84C-2000557-003C	[Construction] Nitrate exceedance - Construct infrastructure designed in feasibility study P84C-2000557-003 .	\$3,326,313	

FUNDED PROJECTS (WITH EXECUTED FUNDING AGREEMENTS)

31	Long Canyon Water Company	P84C-1500578-002	[Feasibility Study] Regional consolidation project to address problems with multiple water systems. Includes Rainbird Valley MWC (P84C-1500393-001).	\$496,116	\$496,116
31	Rosamond CSD	P84C-1510018-801	[Feasibility Study] Co-funded with SRF Regional project to address problems with ten water systems. Selected project alternative is consolidation.	\$1,499,898	\$999,898
28	Lakeside School	P84C-1502154-001 P84C-1502154-001P2 (Pending 2nd FA)	[Feasibility Study] - FIRST PHASE COMPLETE Co-funded with SRF Arsenic exceedance at Well No. 2 - study to design pipeline necessary to consolidate with City of Bakersfield.	\$196,000	\$39,200
28	Semi Tropic School	P84C-1502244-002	[Feasibility Study] Co-funded with SRF - PROJECT COMPLETE Arsenic exceedance at Well No. 1 - study to design facilities to consolidate with the Lost Hills Utility District	\$88,500	\$17,700
27	KRVWC - Kernvale Mutual Water Company	P84C-1500364-001	[Feasibility Study] Arsenic exceedance - study to design facilities to consolidate with Erskine Creek WC	\$73,000	\$73,000

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
26	East Niles CSD	P84C-1510006-801	[Feasibility Study] Regional project to address problems with East Niles CSD, East Wilson Road WS, San Joaquin Estates, and Wilson Road WC.	\$469,051	\$469,051
26	Arnold Park (O Bannon's MHP)	P84C-3500526-001	[Feasibility Study] Nitrate exceedance - study to design facilities to consolidate with City of Hollister	\$250,000	\$250,000
26	Hanford, City of	P84C-1610003-004	[Feasibility Study] - PROJECT COMPLETE Regional project to address problems with Lacey Courts MHP, Four Seasons MHP, and Hamblin MWC.	\$500,000	\$500,000
26	Hungry Gulch Mutual Water Company	P84C-1500436-001 P84C-1500436-001P2	[Feasibility Study] Arsenic exceedance - study to design treatment plant and consolidate with Boulder Canyon Water Association (P84C-1500521-001)	\$498,068	\$498,068
26	North Edwards Water District	P84C-1510052-003C	[Construction] Arsenic exceedance - regional consolidation project. Construct project designed in feasibility study P84C-1510052-003	\$4,900,000	\$4,900,000
26	North Edwards Water District	P84C-1510052-003	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - regional project to design a new production well, treatment plant, and pipeline facilities needed to consolidate North Edwards WD, Fountain Trailer Park, and Dunes Apartments.	\$500,000	\$498,314
26	Richgrove Community Services District	P84C-5410024-002	[Feasibility Study] - PROJECT COMPLETE Additional funds (CDBG) provided by Supplier Arsenic and DBCP exceedances - study to design new production well and consolidate with Rodriguez Labor Camp (P84C-5400735-002)	\$450,434	\$100,000
25	Beverly-Grand Mutual Water Company	P84C-5400651-001	[Feasibility Study] Nitrate exceedance - study to design facilities to consolidate with City of Porterville	\$113,000	\$113,000
25	Akin Water Company	P84C-5401038-001 P84C-5401038-001P2 (Pending 2nd FA)	[Feasibility Study] - FIRST PHASE COMPLETE Nitrate exceedance - study to design facilities to consolidate with City of Porterville	\$91,000	\$29,365
24	El Adobe POA, INC.	P84C-1500493-001	[Feasibility Study] Arsenic exceedance - study to design facilities to consolidate with Lamont PUD	\$499,821	\$499,821
24	Santa Rosa, City of	P84C-4910009-801	[Feasibility Study] Regional project to address problems with Lancelot MHP, Moorland Apartments, and Rancho Santa Rosa MHP.	\$500,000	\$500,000
24	Washington School	P84C-2701221-002 P84C-2701221-002P2	[Feasibility Study] Arsenic and cadmium exceedance - study to design facilities to consolidate with California American Water Company	\$113,453	\$113,453
23	CSA 70 W-4	P84C-3600196-501	[Feasibility Study] Arsenic and uranium exceedance - study to design facilities to interconnect with the High Desert Water Company	\$379,800	\$379,800
23	Buena Vista School	P84C-5400919-001	[Feasibility Study] - PROJECT COMPLETE Nitrate exceedance - study to design new production wells and evaluate treatment options	\$295,000	\$295,000
23	Fairmont School	P84C-1000112-001 P84C-1000112-001P2	[Feasibility Study] Nitrate exceedance - study to design one new production well	\$499,954	\$499,954

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
23	Latrobe Elementary School	P84C-0900410-001 P84C-0900410-001P2 (Pending 2nd FA)	[Feasibility Study] - FIRST PHASE COMPLETE Arsenic exceedance at Well No. 1 - study to design one new production well.	\$275,470	\$275,470
23	Seventh Standard Mutual Water Company	P84C-1500373-001C	[Construction] Supplier Cost Nitrate exceedance - Construct the water infrastructure designed in feasibility study P84C-1500373-001	\$1,899,570	\$1,899,570
23	Seventh Standard Mutual Water Company	P84C-1500373-001	[Feasibility Study] - PROJECT COMPLETE Nitrate exceedance - study to design facilities to consolidate with Oildale MWC	\$112,160	\$85,726
23	MD#43 Miami Creek Knolls	P84C-2000557-003	[Feasibility Study] - PROJECT COMPLETE Nitrate exceedance - study to locate and design new production well	\$500,000	\$500,000
23	MCHA Los Banos Center	P84C-2400108-001	[Construction] - PROJECT COMPLETE Nitrate exceedance - construct facilities needed to consolidate with the City of Los Banos	\$1,058,412	\$1,058,412
23	Son Shine Properties	P84C-1500588-001	[Feasibility Study] Nitrate and DBCP exceedances - study to design facilities to consolidate with Arvin CSD	\$465,240	\$465,240
22	Oak Valley School	P84C-5400713-001	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - study to locate and design new production well	\$396,000	\$396,000
22	Island Union School	P84C-1600017-002	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - study to locate and design new production well	\$500,000	\$500,000
22	North Fork Union School	P84C-2000612-001	[Feasibility Study] - PROJECT COMPLETE (Second Planning with SRF) Co-funded with SRF Arsenic exceedance - study to design a new well and treatment plant	\$193,000	\$38,600
22	Sunbird MHP,c/o Coachella Valley WD	P84C-3301755-001C	[Construction] - PROJECT COMPLETE Arsenic exceedance - Construct the water infrastructure to consolidate with Coachella Valley WD as designed in feasibility study P84C-3301755-001	\$497,000	\$497,000
22	Sunbird MHP,c/o Hawkeye Asset	P84C-3301755-001	[Feasibility Study] - PROJECT COMPLETE Arsenic exceedance - study to design facilities needed to consolidate with the Coachella Valley Water District	\$13,340	\$13,340
22	San Benancio School	P84C-2701227-003	[Construction] Supplier's Cost - PROJECT COMPLETE Arsenic and cadmium exceedance - construct facilities needed to consolidate with California American Water Company	\$253,747	\$222,147
21	County Water Company	P84C-3302093-501 P84C-3302093-501P2 (Pending 2nd FA)	[Feasibility Study] - Second Funding Agreement issued to Eastern MWD Nitrate exceedance - study to design facilities to consolidate with Elsinore Valley MWD	\$500,000	\$500,000
21	LSID - Tonyville	P84C-5410007-003P	[Feasibility Study] Nitrate exceedance - study to design facilities to interconnect with the City of Lindsay	\$257,500	\$257,500
18	Caruthers Community Services District	P84C-1010039-009C	[Construction] Supplier Costs Arsenic exceedance - Construct the water infrastructure designed in feasibility study P84C-1010039-009	\$4,660,041	\$4,660,041
18	Caruthers Community Services District	P84C-1010039-009	[Feasibility Study] Supplier costs - PROJECT COMPLETE Arsenic exceedance - study to evaluate possible solutions and to design the selected alternative	\$518,000	\$290,758

Ranking Points	Public Water System Name	Project Number	Project Description	Total Project Cost	P84 Funded Cost
18	Sierra Linda Mutual Water Company	P84C-2000506-001 P84C-2000506-001P2	[Feasibility Study] Arsenic and gross alpha exceedances at Well No. 2 - study to evaluate new production well and treatment alternatives and then to design the selected alternative	\$495,000	\$495,000
Subtotal Second Round Projects:		39		Subtotal Second Round Costs:	\$37,246,689
	Total Active Projects:	7	SUM OF TOTAL PROJECT COSTS REQUESTED/FUNDED:		\$84,522,550
	Total Funded Projects:	65			\$57,033,777
