

Online In-Service/Continuing Education Providers

In-Service Hours and Continuing Education applicants must continue to comply with State and Federal law, including the in-service and continuing education hours (CNAs=48 hours every 2 years). Pursuant to Health & Safety Code, Section 1337.6 (a)(1), "...At least 12 of the 48 hours of in-service training shall be completed in each of the two years. Twenty-four of the 48 hours of in-service training may be obtained through online computer training program approved by the Licensing and Certification Division of the state department. You must indicate on the application the number of in-service or continuing education hours you have accrued.

Below is a list of providers that offer courses in continuing education, which are approved by the California Department of Public Health, Training Program Review Unit. The individual providers should be contacted for information related to specific courses, course content, and fees.

Note: Online In-Service/Continuing Education Providers will be added as they become approved.
