

This survey asks questions about you, your breathing and what you are able to do. To complete the survey, mark an X in the box that best describes your answer for each question below.

1. During the past 4 weeks, how much of the time did you feel short of breath?

None of the time _0 A little of the time _0 Some of the time _1 Most of the time _2 All of the time _2

2. Do you ever cough up any "stuff," such as mucus or phlegm?

No, never _0 Only with occasional colds or chest infections _0 Yes, a few days a month _1 Yes, most days a week _1 Yes, every day _2

3. Please select the answer that best describes you in the past 12 months. I do less than I used to because of my breathing problems.

Strongly disagree _0 Disagree _0 Unsure _0 Agree _1 Strongly agree _2

4. Have you smoked at least 100 cigarettes in your ENTIRE LIFE?

No _0 Yes _2 Don't know _0

5. How old are you?

Age 35 to 49 _0 Age 50 to 59 _1 Age 60 to 69 _2 Age 70+ _2

How to score the survey: In the spaces below, write the number that is next to your answer for each of the questions. Add the numbers to get the total score. The total score can range from 0 to 10.

$\frac{\quad}{\#1} + \frac{\quad}{\#2} + \frac{\quad}{\#3} + \frac{\quad}{\#4} + \frac{\quad}{\#5} = \underline{\quad\quad\quad}$ **TOTAL SCORE**

If your total score is 5 or more, your breathing problems may be caused by chronic obstructive pulmonary disease (COPD). COPD is often referred to as chronic bronchitis and/or emphysema and is a serious lung disease that slowly gets worse over time. While COPD cannot be cured, it is treatable.

Please share the completed survey with your doctor. The higher your score, the more likely you are to have COPD. Your doctor can help evaluate your breathing problems by performing a simple breathing test, also known as spirometry.

If your total score is between 0 and 4, and you experience problems with your breathing, please share this survey with your doctor. Your doctor can help evaluate any type of breathing problem.
