

ALZHEIMER'S DISEASE RESEARCH FUND
2008 - 2010 AWARDS

Consortia Awards

Joel Kramer, Psy.D.

University of California, San Francisco

[University of California, Davis, University of California, San Diego]

New Diagnostic Criterion for Frontotemporal Lobar Degeneration

John M. Olichney, M.D.

University of California, Davis

[University of California, San Diego, Veterans Medical Research Foundation (VMRF)]

Event-related potentials to predict AD dementia across ethnic groups in MCI

Individual Awards

Gal Bitan, Ph.D.

University of California, Los Angeles

Novel reagents for Alzheimer's disease diagnostics

Jorge A. Busciglio, Ph.D.

University of California, Irvine

A β Oligomeric Species and Synaptic Dysfunction in Alzheimer's Disease

Joshua Chodosh, M.D., MSHS

University of California, Los Angeles

A Dementia Care Management Intervention: The Most Effective Components

Linda Marie Ercoli, Ph.D.

University of California, Los Angeles

Plaque and Tangle Imaging in MCI Subtypes

Li Gan, Ph.D.

The J. David Gladstone Institutes

Protective Effects of Cathepsin B Against Neuronal and Behavioral Deficits in AD

Stuart Feinstein, Ph.D.

University of California, Santa Barbara

A β Tau Phosphorylation and Molecular Mechanisms Underlying Neuronal Cell Death in Alzheimer's and Related Dementias

Lee-Way Jin, M.D., Ph.D.

University of California, Davis

The Use of Amyloid Ligands for Anti-A β Oligomer Therapies

David B. Teplow, Ph.D.

University of California, Los Angeles

Structural Pathobiology and Treatment of Alzheimer's Disease
