

California Department of Public Health
MEMORANDUM

DATE: February 11, 2020

FROM: Jessica Núñez De Ybarra, MD, MPH, FACPM, Chief
Chronic Disease Control Branch

SUBJECT: Request for Application # 19-10704
AWARD ANNOUNCEMENT: Alzheimer's Disease Program

The California Department of Public Health Chronic Disease Control Branch's Alzheimer's Disease Program is pleased to announce the intent to award six (6) local health jurisdictions totaling \$4,500,000 under the California Healthy Brain Initiative State and Local Public Health Partnerships to Address Dementia. Each local health jurisdiction awardee shall receive \$750,000 in one-time grant funding over three (3) consecutive fiscal years from June 1, 2020 to June 30, 2022.

Local Health Jurisdiction: County of Los Angeles, Department of Public Health
Area: Urban and Coastal

Local Health Jurisdiction: County of Placer, Public Health Division
Area: Urban and Inland

Local Health Jurisdiction: County of Sacramento, Department of Health Service,
Division of Public Health
Area: Urban and Inland

Local Health Jurisdiction: County of San Diego, Department of Health Service, Division
of Public Health
Area: Urban and Coastal

Local Health Jurisdiction: County of Santa Clara Public Health Department
Area: Urban and Inland

Local Health Jurisdiction: Shasta County Health and Human Services Agency
Area: Urban and Inland

The State of California supports activities that are consistent with the United States Centers for Disease Control and Prevention published Healthy Brain Initiative: State and Local Public Health Partnerships to Address Dementia, The 2018-2023 Road Map. Awards for RFA #19-10704 are funded as a result of approval of the fiscal year 2019-20 State of California Budget. Thank you to all the individuals and organizations that dedicated time and effort to submitting applications.

Project activities include the four (4) areas listed below:

1. **Monitoring data and evaluating programs** to contribute to evidence-based practice.
2. **Education and empowerment of the public** with regard to brain health and cognitive aging.
3. **Mobilizing public and private partnerships** to engage local stakeholders in effective community-based interventions and best practices.
4. **Ensuring a competent workforce** by strengthening the knowledge, skills, and abilities of health care professionals who deliver care and services to people with Alzheimer's disease and other dementias and their family caregivers.
