Obtaining Data from the California Cancer Registry
About California Cancer Registry (CCR)

- CCR is a program of the California Department of Public Health's Chronic Disease Surveillance and Research Branch (CDSRB).
- CCR is California's statewide population-based cancer surveillance system.
- CCR collects information about almost all cancers diagnosed in California. This information furthers our understanding of cancer and is used to develop strategies and policies for its prevention, treatment, and control.
Recognized as one of the leading cancer registries in the world, CCR has been the cornerstone of a substantial amount of research on cancer in the California population.

To date, CCR has collected detailed information on over 3.4 million cases of cancer among Californians diagnosed from 1988 forward, and more than 162,000 new cases are added annually.
Categories of Data Available from CCR

- Data and Statistics for the General Public
- Data for Approved Research Studies
- Access to Personal Information
CCR Data & Statistics for the General Public

- CCR provides information on the status of cancer in California, and responds to requests from the public for cancer data and statistics.

- Cancer rates by year, sex, and race/ethnicity for California as a whole and for individual counties are available through CCR’s online query system, known as our Data and Mapping Tool.

- Questions that cannot be answered by the Data and Mapping Tool, may be answered by contacting staff at CCR.
Types of Data Requests:

- Customized de-identified research datasets for analysis
- Case-listings for patient contact
- Data linkages to link a study's cohort or other database to CCR data using probabilistic matching software
I need CCR data for my research project, where do I start?

Cancer Data for Research Page of the CCR website

Data for Approved Studies

Cancer Data for Research

Individual patient level data may be used to study cancer causes, prevention, treatment, and survival for research studies. Requests are made by an individual (usually a principal investigator) and the institution with which the principal investigator is affiliated. To protect the confidentiality of the data and comply with state law, researchers must submit all of the required documents to CCR for approval. All requestors should read Policies and procedures for Access to and Disclosure of Confidential Data for the California Cancer Registry.

There are three types of requests that can be made: case listings for data analysis only, case listings for patient contact, and data record linkages. All three requests are specific to an approved project. Data record linkages link a study’s cohort or other data source to the CCR data using probabilistic matching software. For more information refer to Linkage Procedures.

Please Note: Allow for 8-10 weeks from the time of formal approval of your project to receipt of data.

For additional information about cancer data for research, please contact the data disclosure administrator at research@ccr.ca.gov

REQUIREMENTS AND INFORMATION FOR CONFIDENTIAL DATA REQUESTS

Case Listing for Data Analysis Only

- Checklist
  - Policies and Procedures for Access to and Disclosure of Confidential Data from the CCR
    - Application for CCR Case Listing Requests
    - Appendix F: Electronic
    - CCR Data Dictionary

Case Listing for Patient Contact

Data Record Linkage

- Pricing and Cost Information
- Forms

FREQUENTLY ASKED QUESTIONS

1. Do I need to submit an Appendix Z?
   No, the PI of the project will grant access to the individuals using the CCR data at your location. The PI will sign as the CCR data custodian and need to keep the signed Appendix Z in their files. They may be asked to submit a list of individuals with access on an annual basis.

2. How detailed does my justification need to be for my list of requested variables?
   You can group your list of variables by topic (please include the specific variables’ names) and then give a brief 2-3 sentence justification.

Data for Approved Studies

What is needed to obtain patient level data for a research study?

- Committee for the Protection of Human Subjects approval
- Institutional Review Board approval or exemption
- Application for Disclosure of Confidential Registry Data for Research
- Confidentiality Agreement for Disclosure of CCR Data
- List of requested variables, including justification

Frequently Asked Questions

1. **How long is the approval process?**
   The approval process can take two–three months.

2. **Are there any fees?**
   Although there are no application fees, customized research datasets do incur fees. Please see the CCR Pricing Information sheet for charges related to preparing a dataset.
Data for Approved Studies

3. Once approved, how does it take to receive the completed dataset?
Most researchers receive the completed dataset four–six weeks after approval.

4. Are data released to allow a patient contact study?
Researchers may receive patient identifiers for approved patient contact studies.

5. How complete are CCR data?
California law requires most cancers diagnosed from 1988 onward among California residents to be reported to the CCR. It usually takes 18 to 21 months after the end of the year to reach 95% data completeness.

Questions?

Contact California Cancer Registry
Email: research@ccr.ca.gov
Phone: (916) 731-2500
Access to Personal Information: Individual Record Request

Who can obtain individual CCR records?

Legally authorized individuals such as:

- Self
- Surviving spouse
- Executor or Administrator of decedent’s Will or Estate
Individual Record Request

How do I request an individual patient record?

Individual Record Request

CALIFORNIA CANCER REGISTRY PATIENT RECORD REQUEST FORM

Mail Requests to:
Chronic Disease Surveillance and Research Branch
California Cancer Registry
1631 Alhambra Blvd., Suite 200
Sacramento, CA 95816

INDIVIDUAL WHOSE INFORMATION YOU ARE REQUESTING

*Patient Name:
Patient Alias Name:
P*atient Social Security Number:
P*atient Date of Birth:
P*atient Date of Diagnosis:
*Type of Cancer:
P*atient Date of Death (if applicable):
CERTIFIED DEATH CERTIFICATE MUST BE ATTACHED (with raised seal)
Patient Address at Diagnosis:
P*atient County of Diagnosis:
*required fields

REPRESENTATIVE CONTACT INFORMATION

Last Name: First Name: Middle Initial:
Physical Address: City/State: Zip Code:
Mailing Address (if different): City/State: Zip Code:
Daytime Phone Number: Email Address: Please return all certified copies: □ Yes □ No

WHAT LEGAL AUTHORITY DO YOU HAVE TO REQUEST HEALTH INFORMATION:

□ Self □ Conservator
□ Parent □ Executor of Will

IDENTIFYING INFORMATION REQUIRED

□ Copy of Identification Attached  □ Medical Power of Attorney
Type: ____________ (Driver’s License, Identification Card, Birth Certificate)
□ Address Verification Attached
TYPE: ____________ (Utility Bill, Phone Bill, Driver’s License, Etc.)

IF NO IDENTIFICATION IS ATTACHED, YOUR SIGNATURE MUST BE NOTARIZED.
Notarized by __________________________ on _________________ (Date)
Notary Public Number: ____________________________
UNOFFICIAL UNLESS STAMPED BY NOTARY PUBLIC

I DECLARE UNDER PENALTY OF PERJURY THAT THE INFORMATION ON THIS FORM IS TRUE AND CORRECT.
Representative Signature: Date:

NOTE: You must attach all LEGAL documentation to verify that you have legal authority to access the patient’s records (Please refer to the CCR Patient Record Request Check List).
Individual Record Request

- Patient record requests are usually processed in two weeks.
- There is no charge to receive a copy of an individual patient record.
