[Approved by Governor September 8, 2003. Filed with Secretary of State September 8, 2003.]

LEGISLATIVE COUNSEL’S DIGEST

Existing law prohibits any state employee or member of the public from smoking a tobacco product inside a state-owned or state-occupied building, or a state-leased and state-occupied building, as defined, or within 5 feet of the main exit or entrance of these buildings, or in a passenger vehicle owned by the state.

This bill would instead prohibit smoking inside a public building, as defined, and within 20 feet of a main exit, entrance, or operable window of a public building. It would also provide that these provisions would not preempt the authority of any county, city, city and county, California Community College campus, campus of the California State University, or campus of the University of California to adopt and enforce additional smoking and tobacco control ordinances, regulations, or policies that are more restrictive than the standards required by this bill.

This bill would also make other technical, nonsubstantive, and conforming changes to these provisions.

The people of the State of California do enact as follows:

SECTION 1. Chapter 32 (commencing with Section 7596) is added to Division 7 of Title 1 of the Government Code, to read:

(b) This section shall not preempt the authority of any county, city, city and county, California Community College campus, campus of the California State University, or campus of the University of California to adopt and enforce additional smoking and tobacco control ordinances, regulations, or policies that are more restrictive than the applicable standards required by this chapter.

7598. Except as provided in Section 7597, a public employee or other person may smoke in any outdoor area of a public building unless otherwise prohibited by state law or local ordinance and a sign describing the prohibition is posted by the state, county, or city agency or other appropriate entity.
