TO: SNAP-Ed PROJECT DIRECTORS
Nutrition Education and Obesity Prevention Branch (NEOPB)

SUBJECT: PROGRAM LETTER PL 18-04
UPDATED WORKSITE QUALIFICATION CRITERIA

This Program Letter serves as notification of an update to the worksite qualification criteria for the Nutrition Education Obesity Prevention Branch programs providing services in worksites implemented with funding from the United States Department of Agriculture’s (USDA) Supplemental Nutrition Assistance Program-Education (SNAP-Ed).

Recognizing that a growing proportion of California cities and counties are implementing higher minimum wages in advance of the statewide mandate, the California Department of Social Services and California Department of Public Health (CDPH) NEOPB have worked in partnership with USDA SNAP-Ed to recalculate the qualifying wage for worksite interventions.

California has received approval for an alternate qualifying formula for the hourly wage, rather than a static dollar amount. This means that when new Federal Poverty Level and California SNAP household size data becomes available, CDPH NEOPB can recalculate the qualifying wage.

For Federal Fiscal Year 2018 and until further notice, the eligible worksite wage maximum is $17.93 per hour effective immediately. A worksite qualifies for participation in programs providing services in worksites if 50 percent or more of its employees are paid an hourly wage less than or equal to $17.93. As with current practices, the requirement for worksites to complete a form verifying the site’s eligibility.

Worksites can still qualify if 50 percent or more of the total employee population at the worksite report that they have household members who participate in CalFresh or other means-tested programs that have similar income criteria to SNAP-Ed. This is done through an employee survey.
A minimum worksite size was established in order to maximize impact and reach. Historically, businesses needed a minimum of 25 full-time employees or a minimum of 35 full- and part-time employees to qualify for worksite services. However, we understand this can be a barrier especially in rural parts of the state, and we encourage you to contact your NEOPB assigned Project Officer directly if you have interest in services to smaller worksites.

For reference, the updated qualification form is attached.

Should you have any questions regarding this change, please contact Peter Muñoz Peter.Munoz@cdph.ca.gov or your assigned Project Officer.

Sincerely,

Caroline Kurtz, PhD, Chief
Nutrition Education and Obesity Prevention Branch
