Now accepting registrations for this first-of-its-kind asthma self-management education academy. This five-week course, with one 2.5 hour session weekly, is customized for non-licensed lay and community health workers.

The course will be held in English and Spanish and will cover the following topic areas:

- The Scope of Asthma
- Asthma Medications

- Medication Delivery Devices
- Asthma Trigger identification
- Monitoring and Assessing Asthma Control

As a participant, you will learn from peers in a supportive, encouraging and hands-on environment. They will also receive ongoing technical assistance, professional development, networking opportunities, an asthma education tool kit, and a certificate of completion.

Space is limited. Find out if you are eligible today!

Asthma Management Academy (AsMA) is a project of the California Department of Public Health (CDPH). AsMA was developed by CDPH with funding from the US Centers for Disease Control and Prevention (CDC-RFA-EH14-140407CONT15) and the CA Proposition 99 Tobacco Tax.
