

California Safe Cosmetics Program

For Cosmetics Companies - Information needed to report a product to CSCP

You may want to collect this information before you log in to the [California Safe Cosmetics Reporting Portal](#) to submit your product:

- Company name
- Brand name
- Product name, exactly as it appears on product label or package
- Variation name (for example, the color, scent, flavor, or SPF)
- Company's internal product ID (optional)
- Universal Product Codes (UPC) - this is the 12-digit barcode number
- Product's website address
- Product marketing photo - any photo showing the product in its entirety along with its brand name, product name, and any applicable variant name. Acceptable file types include .png, .jpg, .jpeg, and .webp.
- Product's intended market (professional use only, general consumers, children, etc.)
- Product's intended application area (face, hands, etc.)
- Product's physical form (cream, powder, spray, etc.)
- List of the product's manufacturers
- Product formulation information from manufacturer(s) and supplier(s) needed to identify all [Reportable Ingredients](#).
