

PRE-APPROVED DISTANCE LEARNING COURSES

The only course approved as a lecture/laboratory combination is Physics for Health Professionals – PHYS 1010 from the University of New England

The courses listed below may only be used to satisfy the lecture portion. All Chemistry, Biology, Microbiology and Organic Chemistry laboratory sessions must be completed in a traditional classroom setting.

The Environmental Health Specialist Registration Program offers the following list of pre-approved distance learning courses, in most of the core science subjects and environmental coursework, to satisfy the educational requirements of Health and Safety Code 106635.

The existing protocol for the REHS program to approve *new* correspondence or online coursework (lecture only) requires a request for approval submitted to the REHS program and an individual review of the course syllabus and content, in order to determine whether the course meets the standards for approval. This applies to courses that have already been completed and/or courses in which one plans to enroll. **All coursework must be completed at a regionally accredited institution.**

MICROBIOLOGY (Lecture session only)

BI-234-30 - Introductory Microbiology (4 quarter units), *Clackamas Community College*

MIC 100 – Microbiology (4 semester units), *Trident University International*

MICR 230 – Basic Microbiology (3 semester units), *University of South Dakota*

BIOL 1020 - Microbiology for Health Professions (3 semester units), *University of New England*

MATH

MATH 110 – College Algebra (3 semester units), *BYU Independent Study*

MATH 1050 - College Algebra (4 semester units), *Utah State University*

MATH 1050-C – College Algebra (4 semester units), *The University of Utah*

ORGANIC CHEMISTRY (Lecture session only)

Introductory Organic Chemistry X18 (3 semester units), *University of California, Berkeley*

CHEM 1020 - Medical Organic Chemistry I (4 semester units), *University of New England*

BIOLOGY (Lecture session only)

BIOL 211, XW - Principles of Biology I (3 semester units), *Iowa State University*

BIOL 212, XW - Principles of Biology II (3 semester units), *Iowa State University*

BIOL 1009 - General Biology (4 semester units), *University of Minnesota*

PHYSICS (Lecture session only unless otherwise indicated)

PHSCS 105 – Introductory Applied Physics (3 semester units), *Brigham Young University*

PHSCS 121 – Principles of Physics (3 semester units), *Brigham Young University*

SCI 201 – Applied Physics I (4 semester units), *Trident University International*

SCI 202 – Applied Physics II (4 semester units), *Trident University International*

PHYS 1010 – Physics for Health Professionals **Lecture/Lab** (4 units), *University of New England*

The following courses apply only to OPTIONS III and IV. General basic science credit for Options I and II is not granted for these courses because they are considered applied science.

STATISTICS

STAT 2000 - Statistical Methods, *Utah State University*

BHS 420 - Quantitative Reasoning, *Trident University International*

EPIDEMIOLOGY

PUBH 4040 - Fundamentals of Epidemiology, *Utah State University*

BHE 400 - Principles of Epidemiology, *Trident University International*

MPH 504 - Epidemiology, *Trident University International*

MHE 513 - Risk Assessment and Epidemiology, *Trident University International*

ENVIRONMENTAL HEALTH ELECTIVES

MHS 523 - Principles of Environmental Health, *Trident University International*

MHS 525 - Food Protection, *Trident University International*

MHS 537 - Industrial Hygiene and Occupational Health, *Trident University International*

MHS 529 - Housing and Institutions, *Trident University International*
