

### Radon Certification Verification

Prior to providing radon services in California, section 106780 of the California Health and Safety Code requires that a person must have the appropriate certificate(s) issued by the National Radon Proficiency Program and or the National Radon Safety Board and must submit a copy of the certificate(s) to the department prior to offering or providing radon services. Please complete this form and enclose a copy of your certificate(s) if you or your business intends to provide radon services as specified in section 106775 of the California Health and Safety Code.
