

The California Prenatal Screening Program

Would you like your prenatal screening specimens to arrive at the lab overnight?

Would you like to be able to track your specimens during shipment?

The Program can make this happen at no cost to you!

You now have a special opportunity to use a courier, Golden State Overnight (GSO), for specimen delivery to the California Prenatal Screening Program.

While the post office can still be used to mail specimens, the Program would strongly encourage you to start using GSO.

There is **no charge** to clinicians or draw stations for GSO delivery services. This company may be able to pick up samples for your facility, or you can drop them off at a local drop box. See attached flyer for details.

The advantages of using GSO include:

- Just one day in transit, ensuring that blood analytes won't have expired on arrival.
- Ability to track your specimen shipments online.
- Faster turnaround for results

If you are interested in this great opportunity, please complete the enclosed form and fax or email it to GSO: fax # **916.636.5105**, email address **mstewart@gso.com**. Once the complete information is received, you will be contacted by GSO to obtain the necessary, free shipping supplies and instructions.

For any questions about GSO, please contact: Molly Stewart
Phone: 916-636-5137
Email: mstewart@gso.com
