Questions related to revised PNS Program changes

☒ What should prenatal care providers do to prepare for the revised PNS Program?

Below is a checklist providers can use to prepare for program changes. This checklist is dynamic and information will be updated, so please plan return visits closer to program launch.

Steps	What to do	Where to do it
1	Read Prenatal Care Provider FAQ web page to understand program revision details. Watch	PNS Program Provider FAQ web page (this page);

- **Webinar 1:** *cfDNA Screening: A Clinical Overview*. Recording from April 18 posted
- **Webinar 2:** *PNS Program Changes: What Providers Need to Know*, Recording from July 26 posted
- **Webinar 3:** *PNS Program Educational and Training Materials*, Wednesday, Recording from August 24 to be posted

PNS Program Portal Resources web page

Training Videos

Prenatal care providers and their staff have access to four videos below that provide step-by-step instructions for using the CalGenetic Portal to create a profile and view prenatal screening results for the California Prenatal Screening (PNS) Program. The videos explain how to do the following:

- Providers can create, access, and manage their user profile
- Providers create and manage their delegates' access
- All users search, view, and download prenatal screening results
- Delegates create and access their user profile once an invitation from their managing provider is received

For questions, comments, or help regarding your CalGenetic Portal account, please send us an email at pns@cdph.ca.gov with your username and any screenshots of error pages.

Please visit our [CalGenetic YouTube Playlist](#) to access full-screen versions of the following embedded videos.

Preview	Description	Intended Audience
	Title: CalGenetic Portal: User Access and Profile Management- for Licensed Clinicians Published: 5/6/2022 Duration: 10:07	For: Prenatal care providers* Note: The 'Your Profile' page will only be visible to
