1. Introduction

This document provides detailed step-by-step instructions for end-users to access SIS through Azure.

The following are the targeted audience for this document:

- SIS External B2B Users
- SIS External Guest Users

Detailed instructions have been provided for:

- First-time account creation
- Subsequent login process
2. SIS External B2B User Login

First-time Login

Follow the instructions given below to access SIS. This process will take approximately 7-10 minutes to complete.

1. Open your inbox. Click ‘Get Started’
   
   Note: If you are unsure that you might have not received the email in your inbox, please check ‘Junk/Spam Folder’ before contacting the GDSP Program Administrator.
2. Click on your account, if you're already logged in using your organization’s computer

3. SIS External Guest User Login

First-time Login

Standard login process to access SIS when a SIS External Guest User logs in for the first time. This process will take approximately 10-12 minutes to complete.

1. Open your inbox. Click ‘Get Started’
   
   Note: If you are unsure that you might have not received the email in your inbox, please check ‘Junk/Spam Folder’ before contacting the GDSP Program Administrator.
2. You can enter a password completely different from your email account. Note that you must use this password whenever you are asked to login to SIS. Click ‘Next’.
