

Who We Serve

Statewide Report

CHVP

California Home Visiting Program

Demographic Summary

Federal Fiscal Year 2017-2018 (10/1/17—9/30/18)

Early childhood home visiting pairs nurses or paraprofessionals with pregnant and newly parenting women. Trained home visitors provide support and education to families to promote positive parenting and improve child health and development. Home visiting services have been shown to improve child outcomes when implemented by evidence-based programs during the first three years of life.^{1,2,3} The California Home Visiting Program (CHVP) administers funds from the federal Maternal, Infant and Early Childhood Home Visiting grant. During the 2017-18 federal fiscal year, CHVP funded 23 local home visiting programs implementing one of two evidence-based home visiting models—Healthy Families America or Nurse-Family Partnership.

DATA REPORT

Participants Served ⁴	
Mothers	2,977
Index Children	2,370
Mother's Age	
<=17	9.5%
18-21	27.6%
22-29	41.2%
30-34	13.7%
35+	8.1%
Index Child's Age	
Under one year	44.6%
1-2 years	52.5%
3-6 years	2.8%
Mother's Race/Ethnicity ⁵	
American Indian or Alaska Native	0.4%
Asian	4.8%
Black or African American	8.7%
Hispanic or Latina	57.0%
Native Hawaiian or other Pacific Islander	0.4%
White	18.2%
Multi-Race	4.0%
Unknown	6.5%
Marital Status	
Single, never married	66.2%
Married	28.8%
Divorced, Widowed, or Separated	2.4%
Unknown	2.6%

Mother's Insurance Status	
Medi-Cal	80.9%
Private or other	11.2%
No Insurance	4.7%
Unknown	3.3%
Index Child's Insurance Status	
Medi-Cal	85.5%
Private or other	6.5%
No Insurance	1.6%
Unknown	6.5%
Mother's Employment Status	
Employed (at least part time)	36.6%
Unemployed	60.3%
Unknown	3.1%
Mother's Educational Attainment	
Less than high school diploma	25.6%
High school diploma (including GED)	27.9%
Some college/Vocational certificate/AA degree	34.1%
College graduate	9.4%
Other/Unknown	3.0%
Household Income (% Federal Poverty Level) ⁶	
<= 50%	37.3%
51-100%	19.7%
>=101%	19.1%
Unknown	24.0%

This project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under grant X10MC31129 for the Maternal, Infant and Early Childhood Home Visiting (MIECHV) program with an award amount of \$22,024,005. This information or content and conclusions are those of the authors and should not be construed as the official position or policy of, nor should any endorsements be inferred by, HRSA, HHS or the U.S. Government.

All CHVP participants who are served by a home visitor for whom at least 25% of his/her personnel costs are paid with Maternal, Infant and Early Childhood Home Visiting funding are reported to HRSA.

⁴A percentage of mothers are still pregnant at the end of the reporting period, resulting in a greater number of mothers than index children. An "index child" is the primary enrolled child.

⁵Participants of Hispanic ethnicity are coded as Hispanic, regardless of race. All other race categories (including unknown) include Non-Hispanic participants.

⁶Household income is the total yearly income of the mother and anyone else living in the household who financially supports the mother or index child.
