Onions: Too Good To Waste

**Store:** Keep up to 2 weeks in a well-ventilated, cool area. Refrigerate during warm months. Only cut and peel the portion that you need. Refrigerate the remainder in a closed container with the skin on.

Cut kernels off the cob and freeze in an airtight container/bag for up to 12 months.

**Cook:** Freeze cut onions for 10-12 months wrapped in plastic or aluminum.

**Use it up:** Add to salads, soups, egg dishes, sandwiches or stir-fry. Pickle red onions. Make onion preserves... and compost the rest.
