Nature of the Regulation

CDPH proposes amendment of the WIC Authorized Food List Bulletin Regulations for Breakfast Cereal as set forth in Attachment 1 of this notice. This proposed regulation would amend the existing list of authorized Breakfast Cereals to remove Malt-o-Meal Oat Blenders with Honey as an authorized cereal.

Reason for the Regulation

The reasons for this amendment are included in Attachment 1 of this notice.

Authority

Federal:

The Child Nutrition Act of 1966, title 42 of the United States Code, section 1786 (Public law 89-645, Section 17), as amended, establishes the federal authority under which states may administer the Special Supplemental Nutrition Program for Women, Infants, and Children through local agencies. The WIC Program was established as a result of a Congressional finding that substantial numbers of pregnant, postpartum and breastfeeding women, infants and young children up to the age of 5 from families with eligible income are at special risk with respect to their physical and mental health by reason of inadequate nutrition or health care, or both. The purpose of the WIC Program is to provide supplemental foods and nutrition education.

In fulfilling this objective, the WIC Program is funded and administered by the United States Department of Agriculture (USDA), Food and Nutrition Service, pursuant 7 Code of Federal Regulations, part 246.

The WIC Program is also subject to federal memoranda and directives from USDA.

State:

The WIC Program was established under the authority of Health and Safety Code section 123275 et seq. The regulations for CDPH's administration of the WIC Program are contained in the California Code of Regulations, title 22, sections 40601 through 40815, and in the WIC Regulatory Bulletins posted at: https://www.cdph.ca.gov/Programs/CFH/DWICSN/Pages/LawsandRegulations.aspx.

Questions and Additional Information:

If you have any questions, please contact CDPH at WICRegulations@cdph.ca.gov.

AUTHORITY

Federal:
State agencies may: Establish criteria in addition to the minimum Federal requirements in Table 4 of paragraph (e)(12) of this section for the supplemental foods in their States . . . These State agency criteria could address, but not be limited to, other nutritional standards, competitive cost, State-wide availability, and participant appeal.
State agency responsibilities

State agencies must identify the brands of foods and package sizes that are acceptable for use in their States in accordance with the requirements of this section.

Minimum requirements and specifications for supplemental foods

The minimum requirements and specifications for breakfast cereal in all applicable food packages are as follows:

Must contain a minimum of 28 mg iron per 100 g dry cereal.
Must contain ≤21.2 g sucrose and other sugars per 100 g dry cereal (≤6 g per dry oz). At least half of the cereals authorized on a State agency's food list must have whole grain as the primary ingredient by weight AND meet labeling requirements for making a health claim as a "whole grain food with moderate fat content". 3

State:

Health and Safety Code section 123290: The Department . . . shall . . . designate specific supplemental foods to meet the minimum nutritional requirements for recipients.

Health and Safety Code section 123322, subdivisions (a)(3) and (b): (a) In order to effectively manage and administer the federal and state requirements for the vendors in the WIC Program, and remain in compliance with the conditions of federal funding, the department shall establish requirements for all of the following: . . . (3) The WIC Program authorized foods. (b) Notwithstanding any other provisions of law, including the requirement in Section 123315 for enacting regulations to implement that section and Section 123310, the department may, without taking regulatory action pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, implement, interpret, or make specific this section by means of an action by bulletin or similar instruction.

California Code of Regulations, title 22, section 40715, subdivisions (c)(1)-(4): The specific foods authorized shall be determined by the department based upon federal minimum nutrient requirements specified for the particular food group, programmatic needs, financial constraints, and space limitations on the face of the food instruments . . . The following criteria shall be used by the Department to designate the specific foods authorized:
(1) Cost of the foods;
(2) Appropriateness of foods to the participant’s category;
(3) Statewide availability of the foods for a period of at least one year; and
(4) Nutrient content of the food, its relationship to the nutritional needs of participants,
and its consistency with the nutrition education goals of the Program.

STATEMENT OF REASONS

82100 WIC Authorized Food List: Breakfast Cereal

(a)(1)(L) The Department proposes to remove Malt-O-Meal Oat Blenders with Honey
as an authorized cereal as of August 1, 2017 (official effective date to be
released via future WIC Regulatory Bulletin). The manufacturer's
representative notified the Department that, as of August 2017, the product
will be reformulated, to reduce the iron content to 13.85 mg of iron per 100
grams of cereal. The reformulated product will not meet the federal
requirement in 7 Code of Federal Regulations part 246.10(e)(12), table 4 that
all authorized breakfast cereals contain a minimum of 28 mg of iron per 100
grams of cereal. As the reformulated product will be ineligible for
authorization, the Department is proposing to remove it from the list of WIC
authorized cereals in order to remain in compliance with the federal criteria.
