

YOUR HEALTH IS IMPORTANT TO US.

Antibiotics don't work for certain infections like the common cold, most coughs, and most sore throats. Taking antibiotics when they don't work can do more harm than good and lead to allergic reactions or serious diarrhea infections.

**WE GUARANTEE WE WILL DO OUR BEST TO PRESCRIBE
ANTIBIOTICS ONLY WHEN YOU NEED THEM.**

Antibiotics can be life-saving, but certain germs are becoming more resistant. If we're not careful about how we prescribe and use the antibiotics we've relied on for years, they might not work for us in the future.
