

California Department of Public Health
Center for Health Care Quality
Healthcare-Associated Infections (HAI) Program
California Campaign to Prevent BSIs in Hemodialysis Patients

Practical Guidance for Using NHSN Dialysis Infection Data for Prevention

Learning Objectives: By the end of this course, the participant will be able to

- Review National Healthcare Safety Network (NHSN) Dialysis Surveillance reporting requirements
- Describe how to create reports in NHSN and review data for quality and accuracy
- Discuss how to interpret data and compare your center's rates over time or to similar facilities
- Demonstrate how to use adherence monitoring audit tools to assess bloodstream infection (BSI) prevention practices
- Describe how to use your data to improve practice and lower bloodstream infections

Suggested Audience: Dialysis Center Facility Administrators, Clinical Managers, Infection Prevention Coordinator

Course Dates and Times:

<p>February 28, 2019</p> <p>10:00-11:30 AM</p> <p>Pacific Time</p>	<p><u>Webinar URL address:</u> (https://cdph-conf.webex.com/cdph-conf/onstage/g.php?MTID=e86b7eef65585070c5f282b1e8fc879f5)</p> <p>Event password: HAIprogram1</p> <p>Webinar audio: When you join the event, you will be asked to provide a phone number via your keyboard. You will receive a call back to join the audio portion of the meeting</p> <p>If you are unable to receive a call-back, you may call directly: 1-240-454-0887. At prompt, enter access code: 923 315 838 (Note: Toll charges apply)</p>
