

YOUR HEALTH IS IMPORTANT TO ME.

Antibiotics are of critical importance to hematology-oncology patients. Taking antibiotics when they are not needed can do more harm than good and lead to allergic reactions or serious diarrhea infections.

I GUARANTEE I WILL DO MY BEST TO HELP YOU PREVENT INFECTIONS AND USE ANITBIOTICS CORRECTLY WHEN NECESSARY.

Antibiotics can be life-saving, but certain germs are becoming more resistant. If we're not careful about how we prescribe and use the antibiotics we've relied on for years, they might not work for us in the future.
