

## Critical Thinking and Knowledge Checks

### Module 2 Personal Protective Equipment

**Facilitator notes:** Knowledge checks are included throughout the curriculum slides and also listed here for reference. Use these embedded questions as opportunities for engagement and time for CNA to pause and process IPC concepts during trainings.

Slide #	Question	Response Choices	Correct Answer
8	What are some barriers that prevent you from dressing for success?	<i>Open response</i>	<p>Example responses</p> <ul style="list-style-type: none"> <li>• PPE cabinet is too far from resident rooms. Solution: Ask about getting a PPE cart to keep in hallways or re-designating a cabinet to a PPE-only cabinet.</li> <li>• PPE doesn't fit/Inaccurate sizes ordered. Solution: Speak to the staff responsible for ordering PPE or your facility IP.</li> <li>• PPE is flimsy or breaks often. Solution: Contact the staff responsible for ordering PPE or your facility IP. Explain how the PPE breaks and how this prohibits you from doing your job safely.</li> </ul>
13	If at any point your gloves become contaminated while donning your PPE, what should you do?	<p>A. Dispose of them, perform hand hygiene, and then replace them with new gloves</p> <p>B. Put another pair of gloves on over the contaminated pair</p> <p>C. Wash your gloves and continue donning</p> <p>D. Dispose of them, and continue your task without gloves</p>	A

16	What is a key step to complete before donning and after doffing gloves?	A. Hand hygiene B. Asking the resident how they are C. Identifying other types of PPE to use D. Put an extra pair in your pockets in case you need them later	A
19	What are some common mistakes made with PPE?	<i>Open response</i>	Example responses: <ul style="list-style-type: none"><li>• Double gloving and improper gown tying</li><li>• Not performing hand hygiene before putting on or after removing PPE</li><li>• Masks not covering nose and mouth</li></ul>
