CCR 22 §72329; §72329.1; §72329.2; H&S Code §1599.1(a)

Due to the increasing COVID-10 community spread (see attached data), our COVID-19 Emergency Plan, including the facility Staff Recall Plan remains activated. On July 11, 2020 the local public health confirmed a COVID-19 outbreak in the facility, currently we have 26 COVID positive resident and 10 COVID positive staff. Given the nature of the COVID-19 Disease and the need for staff (Confirmed positive staff and staff with known exposure to a COVID-19 Case) to be quarantined and care-managed, we are seeing an increasing number of staff call-ins and requests for LOA. Based on our COVID-19 report to CDPH and NHSN on Staff and Personnel Impact, there are several days with critical shortage of qualified direct care staff that cannot be remedied through staff recall and other staffing solutions. We are asking that CDPH continue to waive the Staffing Requirements to meet 3.5/2.4 for the duration of this event or until we can maintain minimal staffing. Steps the facility has taken (and continues to take) include:

Steps the facility has taken (and continues to take) include:

3. Our facility will continue to provide necessary care in accordance with resident's needs and make all reasonable efforts to act in the best interest of residents.
4. The facility IDT and Medical Director will communicate daily on staffing issues.
5. The DON and other assigned licensed nursing personnel will ensure that resident assessment is conducted every shift or more often as needed, for any change of condition. The enhanced Change of Condition Policy will be implemented as necessary.
6. The Social Service Director, Grievance Officer, and or Communications Officer will continue to communicate with the residents frequently and consistently, and immediately bring any grievances or concerns to the IDT to address.
7. Any available non-direct care staff will be asked to report to work. Appropriate duties and tasks will be assigned (i.e., assist in resident safety programs, nutrition and hydration programs, activity programs, etc.)
